About Me:

I am excited to be your 4th grade Math and Science teacher. I graduated from Oklahoma State University with a Bachelors in Elementary Education. This is my third year teaching at Washington Irving and my 12th total year of teaching. I have been married for 16 years, have 4 kids and a Goldendoodle.

I can't wait to see all that you learn this school year!

I BELIEVE IN YOU!!

My why for being in education:

I chose education because I love working with children. I love helping children learn new skills that can help them succeed in life. I want to help children reach for the stars and follow their dreams.
