My why for being in education:

I always knew I wanted to be a teacher. I love learning new things and expanding my knowledge, it is so special to me that I get to share knowledge with growing minds. I believe that every student deserves to be met where they are with compassion, and I am honored to be in a classroom so that I can meet them there. I teach so that students can have a safe place to grow in all kinds of knowledge and so that they can carry on what they learn & positively impact the future.
