Washington Irving

Meet the Stars

Mrs. Lilly

About Me:

I have a Master's degree in Speech-Language Pathology from UCO and spent most of my career working in the medical setting. While working with patients recovering from strokes and traumatic brain injuries was incredibly meaningful, my heart has always been with children. In 2023, I made the switch to education to follow that passion. I met my husband, Bryce, in college through Greek life. We have a three-year-old daughter named Baker, who brings pure joy to our lives, and a mini Goldendoodle named Honey. Outside of work, I enjoy working out, shopping, and listening to a good book.

My Favorites:

Snacks: charcuterie, fruit
Drink: iced coffee
Food: sushi & seafood
Dessert: chocolate
Season: Summer
Team: OU
Color: light pink & light blue
Authors: Colleen Hoover, Elin Hilderbrand
Movies: The Holiday, Something Borrowed
Animal: dog
Flower: Peony

My why for being in education:

I love helping children find their voice and feel confident using it. Every day, I get to celebrate small wins that lead to big progress-and that's what makes this work so meaningful to
me
