About Me:

I have been married for 34 years to my husband, Drew. This is our 4th year in Edmond, and my 4th year at WI. I have two kids who both got married last year and now I am a mom-in-law! I have 3 pugs and volunteer for a pug rescue. I have been a teacher for 28 years. My hometown is Davis, Ok. I graduated from ECU with two bachelor degrees one in marketing and one in education. I am a fierce advocate for public education. I started a podcast this summer and I am pretty excited about it! We are going to be discussing all things public education. I am looking forward to a great year!

My why for being in education:

I have taught for 28 years. During that time, I have had the privilege of now teaching my former student's children. I have become a fierce advocate for public education. I am proud of the work I have done, and have sat on panels discussing public education. I absolutely love teaching and watching my littles grow all year long!
