

TRANSFORMING TOMORROW: DISTRICT GOALS 2026-2027

*Inspiring Possibilities, Empowering Excellence:
Every Student, Every Day*

GOAL 1: EMPOWERING PATHWAYS TO EXCELLENCE

Unlocking every student's unique potential for achievement

By June 2027, the percentage of students in grades K–12 scoring at or above grade-level will increase by at least 5 percentage points in Mathematics and 5 percentage points in Reading on the spring administration of district benchmark assessments (IXL and/or DIBELS), measured against the fall baseline established no later than October 30, 2026.

GOAL 2: CULTIVATING BELONGING & COMMUNITY

Creating environments where everyone thrives together

By May 2027, each school will implement 5 new targeted, school-focused activities (student, family, and/or staff), sequenced across the 2026-2027 school year and drawn directly from its own climate survey's identified areas for growth, with building leadership and the school-climate committee documenting implementation and reviewing school response at mid-year and year-end.

GOAL 3: BUILDING SUSTAINABLE FOUNDATIONS

Developing infrastructure that supports our vision

By June 2027, the Superintendent, administration, and Board of Education will refine the district's 5-Year Facilities Plan through a continuous review cycle, jointly evaluating building-level priorities, sequencing projects against available reserve capacity, and reflecting the resulting priorities in the FY 2027–2028 budget presented in May, while completing the Year 1 project slate across all eleven buildings within the current fiscal year.
