Superintendent's Corner – November at Edison!

November is a wonderful time to reflect on the great things happening at Edison School! Our Homecoming Dance was a success, and it was exciting to see our students come together, make memories, and enjoy time with their classmates. Thank you to everyone who helped make the evening such a fun and memorable event!

We also want to give a huge **shout-out to our Edison Eagles athletes!** Congratulations to our Junior High Football (JHFB), Junior High Volleyball (JHVB), High School Volleyball (HSVB), and High School Football (HSFB) teams for their hard work, dedication, and school spirit. We are proud of the effort, teamwork, and sportsmanship our student-athletes demonstrate as they represent Edison. Thank you to our coaches, families, and fans for supporting our Eagles!

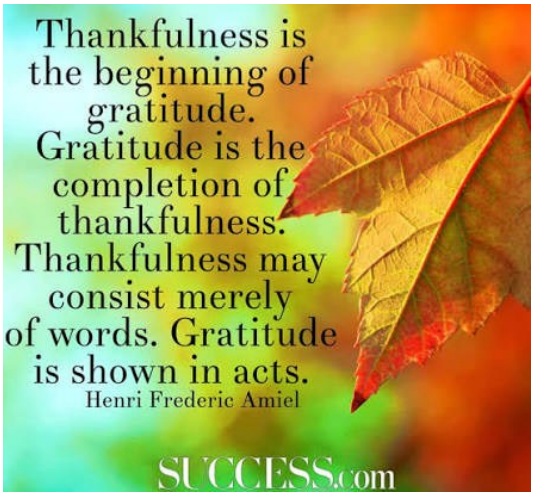

Mark your calendars for two exciting November events:

- **November 14 – Edison Craft Fair:** Come out and support our vendors and community members while enjoying a great opportunity to shop local and connect with friends and neighbors.
- **November 20 – Grandparents' Day:** We look forward to welcoming our grandparents and special guests to Edison for a special day celebrating the important role they play in the lives of our students.

As we move into November, let's continue to live out our Edison mission: **Every Student Matters. Every Day Counts. Every Future Is Important.** Thank you to our staff, students, families, and community for making Edison such a special place to learn and grow.

Go Eagles! Small School, Big Expectations!

Board Bits

As we enter the month of November, there is much for which to be thankful every day of the year. However, as we near Thanksgiving, let's pause as a school family and look deeper at things to be thankful for.

First of all, we are thankful for students who are willing to learn, to accept and overcome challenges, and are eager to positively contribute to our society now and in the future. We are thankful for our students who excel in the classroom and propel Edison School District into a positive spotlight.

Of course, much of our students' success would not be possible without the support and partnership of parents and guardians, who accept the responsibility of being contributing stakeholders in our school district.

Edison's entire staff neatly ties this package all together and for them, we are thankful. This includes our administration, front office, teachers, paras, substitute teachers, kitchen manager, custodians, maintenance, and bus drivers, each of whom carries the responsibility of ensuring our students' success. Our District Accountability Committee also plays an important role in carrying out board of education charges which positively contribute to our district's growth. The board of education is privileged to partner with such a caring staff and committee which leads to a positive, safe, learning environment at Edison.

Please take the time this month to thank our staff, the DAC, and anyone else with whom you cross paths who "puts kids first" at Edison. Along the way, don't forget to give yourself a pat on the back for your own personal contribution!

A big THANK YOU to Edison Fire Department for coming and teaching the kids fire safety on October 23rd.

We would like to invite you to our annual Grandparents and Grandfriends Thanksgiving Day Feast and Program, Friday November 20th. Lunch will start at 12:00 followed by the program at 1:30.

Please RSVP by Friday November 6th by calling the office at 719-478-2125.

Hello Edison Community,

The Special Education Department is asking for a donation of clothing, primarily pants and sweatpants. If you could please donate clean items of varying sizes for both girls and boys, it would be deeply appreciated.

Thank you dearly,

Jamie Cooper (Special Education Teacher)

Our K–1 students have been working so hard, and I am incredibly proud of how much they have improved in their reading! It has been wonderful to see their progress and growing confidence as they continue to build their skills. They are working hard each day, and I am excited to see how much more they will grow throughout the school year.

In science, we are currently learning about seasons and weather. Students are exploring how the Earth and the Sun work together to create the seasons and learning about the changes in weather we experience throughout the year.

In November, we will begin our social studies unit on Thanksgiving. We will learn about the Pilgrims, Native Americans, and the history surrounding the first Thanksgiving while exploring what life was like during that time.

I am so proud of all the hard work our students are putting in and look forward to all the learning still to come!

Love, Mrs. Shaw

I want to say a big **THANK YOU** to everyone who came to chat with me during parent-teacher conferences! I enjoyed having great conversations with families, connecting with you, and getting to know my students better. If you missed the conference or we didn't get a chance to talk, please know that I am always available by email. I will also share a recap of some great questions from the conferences in the October Math Newsletter, which will be emailed this week. If you don't receive it, please let me know!

October has been a full month of learning! Without state testing or a long break, students have had lots of opportunities to learn and practice new skills. In 8th-grade math, students enjoyed a hands-on **"Fun Math"** activity where they used candy to practice converting fractions, decimals, and percentages, then calculated the percentage of each candy color and explored probability.

In secondary math, we are also introducing **Edia Math**, an AI-powered platform that personalizes math practice based on each student's needs. I am excited to use this tool for both intervention and enrichment! My goal is to use our weekly intervention time to provide additional math support, help students catch up, strengthen their skills, and offer virtual help sessions when needed. Students can always reach out to me by email with questions, and I want to make sure they have opportunities to get the support they need to succeed.—Mrs. Seymour

Grandparents
DINNER
FRIDAY, NOVEMBER 20TH
STARTING AT
