

Parents Right to Know

Each year a copy of your school's NCLB report card is posted on the school's website and the district's report card is posted on the district website (www.marshallcountysd.org). The information on the report cards will help you to gain a better understanding of the academic successes at your school site. Mississippi and Federal Accountability results for your school will be clearly stated on your report card.

Further, the percentage of teachers at your school site that are considered "highly effective" according to Mississippi and USDE licensing criteria is included. If you have any questions about the specific qualifications of teachers at your school site, please contact your school's principal or the Superintendent's Office at 662-252-4271.

In accordance with federal law, the Marshall County School District wants to inform parents of their right to know the following: (a) that their child's teacher has met the Mississippi qualifications and licensing criteria for the grade levels and subject areas in which they are currently teaching, (b) whether their child's teacher is teaching under a provisional, one-year or emergency license, (c) that all teaching credentials of all teachers instructing the parent's child are available for review and (d) whether their child is being instructed by a paraprofessional.

Please note that the MCSD will inform parents within a timely manner if your child has been assigned to, or has been taught for four or more consecutive weeks by a teacher who is considered "not highly qualified." Parents will be informed by written correspondence (at a minimum).
