Superintendent Mr. W. David Bromwell delivers an October 2026 Mid-Term Update

Hello, Somerset County Public Schools staff, students, families, and community members!

For those who may not know me, I'm David Bromwell, Superintendent of Somerset County Public Schools.

As we move past the halfway point of the first term, I want to take a moment to thank our students, staff, families, and community for a great start to the school year! There are so many exciting things happening across our district!

Washington Academy and High School is excited to host community events as they gear up for homecoming weekend! Last week, Crisfield Academy and High School celebrated a successful homecoming, and Somerset County Technical High School is hosting a Fisher's Popcorn fundraiser to support SkillsUSA.

Somerset Intermediate is preparing for its Double Dare Family Engagement Event on October 21st. Woodson Elementary is enjoying new soccer goals, while Deal Island Elementary has welcomed sixth-grade students. Ewell Elementary is also celebrating its first year back after being closed for three years!

Greenwood Elementary is having a trunk-or-treat tonight at 5 pm, and recently UMES Physical Therapy interns visited third graders for an engaging lesson on brain development. Meanwhile, Princess Anne Elementary celebrated attendance with a fun surprise featuring bubbles, music, and more!

These are just a few examples of the wonderful things happening throughout Somerset County Public Schools.

As we move forward, I encourage our students and families to stay connected with teachers, counselors, and administrators. We encourage parents and guardians to attend Parent-Teacher

Conferences throughout the school year and keep an open line of communication with your students' schools. Strong communication is key to student success.

One of our biggest goals is to boost attendance because we truly want our students to be in the classroom, engaged, and learning every day. At Somerset County Public Schools, we're excited to work together to make improvements in attendance. Our staff strives to create a positive and vibrant learning environment for everyone.

Tuesday, October 20th, during open session at our Board Meeting, we will be sharing MCAP data on our math schools throughout the county. We look forward to those able to attend the open board meeting at 6 p.m.

Also, be on the lookout for upcoming surveys! We want to hear from you about proposed policy revisions, including our cell phone policy, inclement weather procedures, and half-day schedules. Your feedback is important as we look for ways to improve student success.

We have a lot to celebrate, but there is always room to grow. Let's keep this positive momentum to finish our first term and have a great start to term two.

Just a reminder: Friday, October 16th, schools are closed for 10th-month staff and students due to the Maryland State Education Association meetings. Thank you, and have a great weekend.
