

Call for Quality Schools

Longview ISD Invites Proposals for In-District Charter School Models

Longview Independent School District (LISD) is now accepting competitive proposals from qualified organizations to lead In-District Charter Schools beginning with the 2027–2028 school year.

This opportunity is tied to a future with more expertise in career focused options as a district of choice in response to parent surveys, aligning directly with LISD's strategic goals to:

- Improve student outcomes
- Foster innovation in education
- Expand high-quality options for families

Building a Vertical Pathway from Elementary to Middle School: This initiative will begin at the elementary level, creating a continuous career focused pathway to our middle schools to expand career focused opportunities. This seamlessly prepares students for post secondary success. While elementary builds awareness and middle school builds foundation, high school provides specialization and workforce readiness.

Priority Focus: Career Focused School Models

LISD is specifically seeking career focused models starting in the 2027–2028 school year to foster:

- Innovation & Engagement: Reimagining traditional schooling through career focused learning starting at the elementary level.
- Deeper Learning: Integrating technology and unique instructional approaches across grade spans.

- **Postsecondary Readiness:** Preparing students for future careers and higher education through an articulated pathway from elementary and middle school levels into our high school.

These models may feature unique instructional approaches, technology integration, or career focus designed to inspire students and educators alike.

Compliance & Legal Guidelines

All proposals must comply with EDGAR guidance and are subject to the availability and approval of funding for services to be rendered. LISD reserves the right to accept or reject any or all proposals based on the best interest of the District.

Key Information & Submission Details

Requirement	Details
Submission Deadline	Proposals will be accepted until 2:00 p.m. on Nov. 13, 2026.
