Dan Evans

CLASS OF 1984

A proud member of the “Great Class of 1984,” Dan Evans embodies the Golden Eagle spirit. A multi-sport captain and CH Hammer Award recipient, he earned First Team All-ECIC honors in both football and track under the guidance of Coaches Carl Kuras and Dennis Mason.

Dan joined the Buffalo Bills in 1998 and rose through the organization to become Vice President of Information Technology. In this role, he leads the strategic vision, planning, and execution of all IT operations, overseeing development, infrastructure, and cybersecurity. A recognized leader in sports technology, Dan also serves on the National Football League Technical Advisory Committee, contributing to league-wide innovation and the future of the game.

Despite his professional accomplishments, Dan remains deeply connected to his roots in Cheektowaga and his alma mater, Cleveland Hill. A devoted husband to Barbara and father to Zoe, Mia, and Dylan, he is committed to giving back, supporting the school, and helping ensure future generations have access to the technology and opportunities needed to succeed.

Dan’s journey reflects a powerful truth: it’s possible to reach the highest levels of professional sports while staying grounded in the values and community that shaped you.

“Once an Eagle, Always an Eagle.”

Michelle Bridenbaker

Class of 1994

A scholar, athlete, and visionary, Michelle Bridenbaker set a standard of excellence at Cleveland Hill. As Salutatorian of the Class of 1994, she was defined by a relentless work ethic that spanned the classroom, the stage, and the athletic field. Michelle took that drive to Colgate University, earning dual degrees in Biology and English, followed by advanced degrees in Nursing, Medical Toxicology, and an Executive MBA from HEC Lausanne.

Michelle has translated this rare multidisciplinary foundation into a career as a globally recognized leader in healthcare. From her roots as a Critical Care Nurse to her current role as Global Head of Medical Excellence at Recordati, she has become a leading voice in the ethical integration of AI and technology in medicine. As Vice President of MILE and COO of Unbiased Science, she works tirelessly to combat scientific disinformation and shape regulatory standards across Europe and the United States.

Despite her international reach, Michelle remains deeply connected to her roots, dedicating resources to support schools and arts programs throughout New York. Her journey stands as a powerful testament to the fact that a foundation built on "The Hill" equips leaders not only to succeed but to change the world.

“Once an Eagle, Always an Eagle.”
