TES High Five

March 6, 2026

1. **Spring Conferences:** Spring conference sign-ups will be opening Monday morning at 8am via this **LINK**. Spring conferences are historically less attended than fall conferences. With only 2 days scheduled for conferences this spring instead of 3, March 26th and 27th, we want to share a few important updates. If you do not have any concerns about your child's progress at this time, a spring conference is not necessary. Teachers will continue to communicate regularly about student progress, and you are always welcome to reach out if questions arise. In order to ensure that as many families as possible have the opportunity to meet with teachers if needed, we will only be able to accommodate one conference per child during the spring conference window. We appreciate your understanding and cooperation. Our goal is to make sure conference time is available for families who would most benefit from an additional discussion about student progress.

2. **TES School Report Card:** Please click the following link to see our 2025 School and District Report Card submitted by the Department of Elementary and Secondary Education. https://aptg.co/4PF_YQ

3. **Field Trip Chaperones:** Field Trip season is nearing! Please note that if you are wanting to chaperone a field trip this spring for your child, **a CORI form must be completed by April 17th** and submitted to our Main Office or Susan Varney at Central Office. We will not be accepting CORI forms after that date. If you already have a CORI on file from the last 3 years, then you are all set! If you need to know if you have an active CORI on file, please contact Penny Taintor at ptaintor@nrsd.org.

4. **Teacher Requests:** As we begin planning for the upcoming school year, I wanted to share an update regarding classroom placement requests. In the past, families have occasionally requested specific teachers for their children. Moving forward, we will no longer be accepting specific teacher requests. This change allows our staff to focus on creating well-balanced classrooms that best support the needs of all students. Our teachers

TES High Five

and support staff spend many hours carefully considering each student's needs when building class lists. Academic needs, social dynamics, behavioral supports, and IEP requirements are all thoughtfully reviewed to ensure that every child is placed in an environment where they can thrive and be successful. We understand that families know their children best, and we value your partnership. If there are important factors about your child's learning style or needs that you would like us to consider, you are always welcome to share that information with us. While we cannot accommodate specific teacher requests, we will continue to take all relevant information into account as we finalize placements. Thank you for your continued trust and support as we work to provide the best possible learning environment for all Templeton Elementary students.

5. **Fundraiser:** The last day for the School Store fundraiser is Friday, March 13th. Students can still redeem their lanyard code for a Book Buddy through Friday. Thank you to everyone who has already participated!

6. **Morning Drop Off Line:** As a reminder, the beginning of the drop off line is at the Police Station. NO cars should be pulling to the front of TES until a staff member directs them to do so. Our staff have limited walking space to get to that area, and it is becoming increasingly dangerous because cars are not waiting for staff to get to their designated areas. Thank you for keeping our staff and students safe. In addition, if you are dropping off your child late, you must come into the office and sign your child in.

Templeton Elementary School

Marci Rasmussen, PRINCIPAL Cassie Putnam, ASSISTANT PRINCIPAL

Dear Parents and Guardians of _____.

Each year we assess the students using DIBELS (Dynamic Indicators of Basic Early Literacy Skills). The DIBELS is a state approved reading assessment that measures a student's reading skills. Below you will find your child's DIBELS assessment results. Ensuring that all students receive the appropriate level of support here at TES continues to be our priority. We have set up ways to help support your child's learning. In this letter we hope to communicate the type of support your child will receive.

It is typical that there is significant growth from the beginning of the year to the middle of the year, particularly for our youngest students. We will progress monitor them every 4-6 weeks to determine growth or need for more support. Classroom teachers will reach out if they have any significant concerns about your child's progress.

Questions you may have:

What types of reading support does the school provide? We provide core reading instruction, intervention and special education services and support.

What is Core Reading Instruction? All children receive core reading instruction. Core reading instruction consists of developing grade-level skills in their classroom with their teacher.

If my child needs intervention, who will provide the intervention support? Intervention will either be provided by a classroom teacher, Title I Intervention Teacher or Special Education Teacher. If your child's intervention is provided by the classroom teacher or Title 1 it will be during WIN time. We have a half hour block in our daily schedule at every grade level called WIN. WIN stands for "What I Need". This block is designed to provide targeted intervention support for students based on their individual skill level. An important part of WIN block is that no new instruction is being taught, therefore students who leave to work with interventionists will not miss any new material. Students who remain in the classroom will work with their teacher or independently on materials that will reteach skills or provide enrichment opportunities. The purpose of these groups are to practice previous concepts taught, and to close gaps in foundational skills by providing targeted instruction.

Is Title 1 intervention the same as special education? The Title 1 intervention program is separate from special education. Title 1 is available to all students with and without disabilities, and is intended to be a temporary support.

How long could my student stay in an intervention group? The student's progress will be monitored to determine how support will continue.

Based on your child's DIBELS results your child will receive:

❒ Core Reading (in class)
❒ Intervention with: ❒ Classroom Teacher ❒ Intervention Teacher (Title 1) ❒ Special Education Staff (Per IEP)

Your child will be working on the following skills:

❒ Core Grade Level Skills
❒ Phonemic Awareness ❒ Letter Naming ❒ Phonics ❒ Fluency ❒ Vocabulary ❑ Comprehension

If you have any questions or concerns, please do not hesitate to reach out to your child's classroom teacher.

The rear parking lot, adjacent to the baseball field, will be open for parking. If parking in this lot, the entrance into the building will be at Door C19 (yellow arrow). There will be signage and students to help direct you.

Additional parking is available in the lot directly across from the Middle School. A crossing guard will be present to help attendees cross the street safely. When parking across the street, you will enter the Middle School building directly through the main entrance (yellow arrow).

Concert Schedule

9:30am	Grades Kindergarten and 2nd	Doors Open at 9:15am
11:00am	Grades 1st and 3rd	Doors Open at 10:45am

Please be advised that the doors will open for parents 15 minutes before the start of the concert. Attendance letters will be sent out after break for anyone who has been out unexcused for more than 5 days. This is a state requirement. 93. **NUT Free Snack Policy-** <u>Due to some significant student allergies, please do NOT send any nut products for snacks.</u> This is a part of our parent-student handbook. We have

allergen friendly areas in the cafeteria, so nut products can only be eaten during lunch, as snacks are eaten in classrooms.

94. Bicycle, E-Bike & Scooter Safety on School Grounds- Across our district, we've seen a growing number of students riding bicycles, e-bikes, and scooters to and from school and around the neighborhood after school. We are happy to see students opting for an active and healthy way to get to and from school. However, with increasing traffic during the school day and busy patterns on school property, we've also seen a rise in close calls and safety concerns involving bicycles, e-bikes, and scooters. As part of our ongoing commitment to student safety, and with the collaboration of Templeton PD, we would like to inform families of a few important bike and scooter safety expectations:

Walk Bicycles/E-Bikes/Scooters on School Grounds

Once students arrive on school property, they must walk their bicycles, e-bikes, and scooters. Riding is not permitted on school grounds (sidewalks, playgrounds, parking lots, or any other areas).

Use Crosswalks Safely

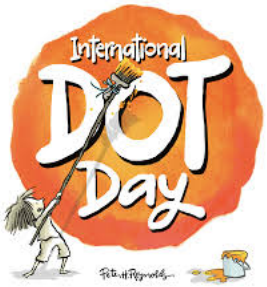

Students are expected to use designated crosswalks when crossing streets and to walk their bicycles, e-bikes, or scooters across with them.

We ask for your support in reviewing these expectations with your child. By working together, we can ensure a safe and respectful environment for everyone on or around our school campuses.

100. **Mind Up-** This year all students in Grades 1-4 will participate in weekly SEL lessons delivered by our School Adjustment Counselors. Please read the letter below for an overview of the Mind Up SEL program.

mindUP For Life | The Goldie Hawn Foundation

Dear Parents and Caregivers,

We recently introduced an exciting, evidence-based social and emotional learning (SEL) program that can help our students better engage in learning, learn to self-regulate their behavior, and improve their attention skills and well-being. MindUP™ is a classroom-based program that teaches children strategies guided by the fields of neuroscience, mindful awareness training, social and emotional learning, and positive psychology to support success in the classroom and in life.

MindUP™ was created collaboratively by university scientists and school-based educators. The program helps children understand the ways brains work and how their thoughts and feelings affect their behavior. It has five goals:

1) To foster a cohesive, caring classroom climate

2) To foster focus and mindful awareness

3) To build emotional literacy

4) To increase positive qualities such as perspective-taking, empathy, gratitude, and kindness

5) To increase optimism, well-being, and resiliency

A core practice of the program is the "Brain Break." The Brain Break is a simple mindful breathing and listening activity that is practiced three times per day. This activity can help foster attention and self-regulation.

As part of MindUP™, parents and caregivers will have the opportunity to learn about what children are practicing in the classroom through a short online course designed specifically for families to bring MindUP strategies home. The course is designed to complement the school program and can be paced along with children's learning in the classroom. You can access this course for free at home.mindup.org.

If you would like to learn more about the research around social and emotional learning, please visit www.casel.org. For further details about MindUP™, please visit www.MindUP.org. If you have further questions about the program or would like more information, please feel free to contact me.

We are excited about the potential this program holds for helping our classrooms become communities of better-engaged, more focused, and more optimistic learners!

101. Pick up and Drop off Procedures- In order to help streamline the drop off and pick up lines, we ask families to please adhere to the following:

d. PLEASE be sure to have your placard everyday for pick up.
