Springdale v. Miguel Garcia, Carolyn Garcia (Deceased), and Arvest Bank (Washington Co. 72CV 20-2397)

Property Address: 201 N. 40th St. Springdale

Project: #18BPS12

SETTLEMENT OFFER

The following information is provided for settlement purposes only.

Background:

This case is virtually identical to the Kilpatrick and Correa cases that involved complete homesite takings of a nearby property for the same project. The city took a 1,320-sf home and 0.57 acres owned by Miguel Garcia. Mr. Garcia and his wife, Carolyn, bought the home in 1998. Carolyn passed away prior to the taking by the city.

At the time of the taking, there were very few residences listed for sale. This remains the state of the local market at the present time. The homes that were for sale would sell within days or hours of listing and often sold at above the seller's asking price and more than appraised value.

Unlike most eminent domain projects that result in the taking of a primary residence, this project does not qualify for any relocation assistance. Due to the hardship imposed on homeowners like Mr. Garcia in cases like this, all federal, and many state, projects require the condemning authority to provide the homeowner with relocation assistance. This requirement recognizes that a homeowner suffers financial damages from moving costs and the forced purchase of a replacement home within a short period of time. Displaced homeowners have no choice but to purchase a home that happens to be currently on the market, and they have little time to negotiate. Mr. Garcia did not have the opportunity to take advantage of the rising market by offering his

replacement home. He will testify, based on genuine market conditions and his personal experiences, that their property was worth more than **\$170,000** at the time of taking.

Potential Trial Outcome:

This is an unusual case in which a jury is likely to give substantial weight to the testimony of the landowners. Both appraisals were backward-looking, meaning they were based on historical data of prior sales. Those sales did not reflect the actual market conditions that faced the Mr. Garcia. It is foreseeable that the jury will award the Mr. Garcia more than \$130,000.00. In recent cases we have seen that juries are willing to consider an award higher than that offered by the landowners' appraiser, and this case will give the jury strong support for doing so. A judgment in that amount would result in an additional payment of \$55,000 plus pre-judgment interest and "the costs occasioned by the assessment" (under Ark. Code Ann. §18-15-303(c)) which would be at least \$3,000.00 but could be more as determined by the Court. The total judgment would be more than **\$63,000.00**.

If the jury is not persuaded by Mr. Garcia's testimony, it is more likely to award damages at the valuation provided by Mr. Risk than that offered to date by the city. A judgment of the full assessed damages provided by Mr. Risk of \$130,000.00 would result in an additional payment of \$15,000.00 plus pre-judgment interest and the cost of the appraisal. The total additional compensation owed would be around **\$23,000.00**.

For settlement purposes only, my clients have authorized me to accept settlement of their damages, including severance damages, pre-judgment interest, and the costs of assessment at \$133,000.00. The city has previously tendered \$115,000.00 of the \$133,000.00. The total additional compensation for settlement would be **\$18,000.00**.

home for sale. If not for the forced taking of his home, he would have been able to sell his property at above appraised value.

Appraisals:

The Reed & Associates appraisers determined that the property was well-suited for future commercial development. They appraised the property at \$115,000.00. It is important to note that their appraisal was completed on May 21, 2020, before the taking and before the unprecedented appreciation in local real estate values had reached its highest levels. The exposure times of the comparable sales used, which occurred years prior to taking, were much longer than those seen in the current market.

Mark Risk was retained to prepare an appraisal report. Mr. Risk is a Certified General Appraiser and Licensed Principal Real Estate Broker. He is a principal at The Real Estate Consultants, Inc. Mr. Risk has worked as an appraiser in Northwest Arkansas since 1979 and continues to instruct classes in appraisal courses at the University of Arkansas where he has taught since 1981. He has also served on the Arkansas Appraisers' Licensing and Certification Board. He has performed appraisal services for dozens of banks, mortgage companies, developers, and relocation services. He has also provided appraisal services for many municipalities and governmental agencies, including the City of Springdale.

Mr. Risk used both a cost approach and a market value approach to determine the value of the property. His reconciled valuation determined the just compensation to be **\$130,000.00**.

Homeowners' Testimony:

Mr. Garcia looked at many similar properties in his efforts to relocate. His experience in the real estate market provides him with ample support to value their property. He could not find a home with land that was similar in size to his at any price close to the \$115,000.00 in compensation paid by the city. He paid \$165,000 for a 1,080-sf house on a 0.14-acre lot for a

Re: *City of Springdale, Arkansas vs. Miguel A. Garcia & Carolyn E. Garcia (Deceased)*
Washington County Circuit No. 72CV-20-2397

Dear Mr. Lisle:

Per your request, I hereby certify I conducted a survey of matters pertinent to developing an opinion of the **Market Value and Just Compensation** resulting from the proposed acquisition of the subject property takings by the City of Springdale. You are the client and intended user. This report is prepared for your exclusive benefit and may not be relied upon by any other party. Any other party relying on information contained in this document, without express permission, does so at their own risk.

I also certify this appraisal report conforms to Uniform Standards of Professional Appraisal Practice as promulgated by the Appraisal Foundation. The following pages contain data gathered during my investigation, showing the appraisal process in detail with conclusions rendered. Please note this report is subject to stated Assumptions & Limiting Conditions, including any applied Extraordinary Assumptions &/or Hypothetical Conditions.

My primary emphasis was to determine the following:

- Estimate the market value of the subject property as of the effective date of the appraisal.

In the following sections, I analyze relevant facts and apply appropriate appraisal processes to the subject property. After a thorough analysis an opinion of value can be made. Therefore, it is my considered opinion that the Just Compensation due to the property owner as a result of the property taking by the City of Springdale, – **as of the Effective Date of November 20, 2020** and subject to referenced assumptions and conditions – is as follows:

One Hundred Thirty Thousand Dollars
\$130,000

Respectfully submitted,

Mark E. Risk, GAA

Re: Equipment for new patrol vehicles

Mayor,

As you are aware we have 12 marked patrol vehicles on order. We had requested funds for equipment for these vehicles in our 2022 budget, but I understand that the equipment will be paid out of ARPA funds.

We recently held sealed bids for the equipment and the winning bid was from Dana Safety at a cost of \$100,247.84.

I am requesting that we put this item on the committee agenda for Tuesday January 18th so we can order the equipment.

If you have any questions or concerns please let me know.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Frank Gamble'.
