Bettendorf Community School District
bettschools.org

On July 1, 2022, House File 2412 was enacted which requires radon testing and mitigation in public schools and radon resistant construction techniques used for all new construction. The act adds a new section, 280.32 Radon testing and mitigation, to Iowa Code 280, Uniform School Requirements, which is administered by the Iowa Department of Education. The act requires that:

- *The board of directors of each public school district must establish a radon plan and schedule for testing.*
- *Each attendance center in a school district must be tested for radon at least once by July 1, 2027, and at least once every 5 years thereafter.*
- *Testing must be done by an Iowa certified Radon Measurement Specialist or by school district staff that have completed an approved training program.*
- *Test results must be posted on the district's internet site in a timely manner.*

Bettendorf CSD Radon Testing & Mitigation Implementation	
Initial Testing	All schools will have initial baseline testing in November of 2026
