FOR IMMEDIATE RELEASE

Commerce High School Celebrates 96.5% Graduation Rate for 2025–2026

COMMERCE, Ga. — Commerce City Schools is proud to announce that Commerce High School achieved a 96.5% graduation rate for the 2025–2026 school year, reflecting the continued commitment of students, staff, families, and the Commerce community to student success.

The strong graduation rate represents the district's ongoing focus on ensuring every student is supported academically, socially, and personally throughout their high school experience. From classroom instruction and academic interventions to extracurricular opportunities, career preparation, and individualized student support, Commerce High School remains committed to helping students stay engaged and successfully reach graduation.

"We are incredibly proud of our students and the hard work they put into reaching this important milestone," said Commerce City Schools Superintendent Dr. Billy Kirk. "A graduation rate of 96.5% is a reflection not only of our students' determination, but also of the teachers, staff members, families, and community partners who support them along the way. At Commerce, we remain committed to knowing our students, meeting their individual needs, and preparing them for success beyond high school."

Commerce High School Principal Dr. Ean Sonnier also credited the achievement to the collective efforts of the school community.

"Our students are surrounded by educators who genuinely care about their success and are willing to go the extra mile to help them reach their goals," said Sonnier. "We are proud of this graduating class and thankful for the teachers, counselors, staff members, and families who played a role in helping our students cross the finish line."

Commerce City Schools believes student success is built through a holistic K–12 educational experience, with every school and every employee playing an important role in a student's journey to graduation. From the earliest years of building strong academic and social foundations to the preparation students receive for life after high school, each teacher, staff member, family, and community partner contributes to the success of Commerce students. The district will continue building upon this work through rigorous academic opportunities, meaningful extracurricular experiences, career and college preparation, strong relationships, innovative programming, and individualized support, all with the goal of preparing every student for postsecondary success.
