- Students must have the student's **parking tag number displayed/painted clearly** - Do NOT paint over this.
- Students **must leave a 6 inch border around their design that is not painted** so that the **yellow lines remain visible**
- Students may choose to coordinate with others who are painting to save money on costs of paint and supplies. All parking spots are to be finished by **September 30, 2026**

Painting tips:

- Tape the edges of your spot with a 6 inch margin before painting.
- Sweep the dirt and pebbles off the spot.
- Use chalk to draw out your sketch.
- Start painting at the front of your spot out to the end (front bumper to back bumper) as others may be working beside you and you cannot step on their spot.
- Consider making a stencil ahead of time for lettering or detailed images to save time.
- Bring extra plastic containers (no glass allowed) for water and brushes.
- Bring a drop cloth or plastic sheeting to put under paint cans. NO paint is permitted outside your spot.
- Limit your paint palette as the quarts of paint are expensive or share colors with a friend.
- It will take approximately 2 quarts of paint to cover the spot if you are using a solid color.
- You may already have leftover exterior house paint at home that you can use. Open paint cans at home and check to see if it is still usable before the paint date.
- **No paint disposed of at the school.** Empty or unused paint cans must be taken home to be disposed of.
