2026-2027 School Year Immunization Requirement for Meningococcal Vaccine

Dear Parents/Person in Parental Relations

All incoming 12th-grade students MUST provide proof of receiving their Meningococcal vaccine in order to attend school.

Students entering Grade 12 in 2026 must have either:
• Two doses of the meningococcal vaccine, with the booster dose given on or after age 16, or one dose if the first dose was given on or after age 16.

New York State law requires Parents/Person in Parental Relations to provide the school with an immunization record showing that their child has received, or has appointments to receive, the required vaccine(s) in order to attend school. This record may come from a health care provider, health department, or an official immunization record from the child's former school. The record must include:

1. The name of the vaccine.
2. The date the vaccine was given.
3. The name and title of the person who administered the vaccine, or the location where it was given if at a clinic.

If not already submitted, we need this information by **Monday, August 19, 2026**. Please contact your health care provider to ensure your child has the necessary immunizations to attend school this fall.

Sincerely,

Kimberly A. Neumeyer, RN
BBP High School
