PRESS RELEASE
FOR IMMEDIATE RELEASE

June 2, 2026

Duxbury Public Schools Superintendent Dr. Danielle Klingaman is pleased to announce the appointment of Aimee McAlpine as the new Director of Instructional Technology and Digital Innovation. In this role, McAlpine will oversee the district's instructional technology initiatives, provide leadership to support PK-12 curriculum and technology integration, and establish and update digital learning policies.

McAlpine joins the administrative team from Marshfield Public Schools, where she served as Director of Professional and Online Learning and Director of Innovation, Design, and Digital Learning for the past 8 years. During that time, she spearheaded a district-wide integration of curriculum-based digital learning tools, managed the PK-12 Learning Management System, and chaired the AI Working Group. McAlpine also identified, planned, and evaluated professional development that aligned with the strategic goals for district educators.

"We are thrilled to welcome Aimee to our leadership team," said Klingaman. "Aimee brings a wealth of expertise in building systems and supports for the modern learning environment, using data to meet student needs, and navigating emerging technologies like AI. She has a collaborative leadership style and a commitment to student-centered learning and digital equity. I am confident she is a perfect fit to lead our district's technology and innovation strategy."

"I am thrilled to join the Duxbury team," said Alpine. "Digital tools provide an incredible opportunity to enhance learning and meet the diverse needs of students, but the tools are only as good as the pedagogy behind them. I see an urgent responsibility to not only innovate, but to ensure every student has an equitable opportunity to thrive in an increasingly digital world. My goal is to support educators as they navigate these dynamic changes safely, effectively, and meaningfully."

McAlpine earned her Bachelor of Arts in History from Emmanuel College and a Master's Degree in Education from Harvard University. McAlpine lives on the South Shore with her family and enjoys kayaking, reading, and traveling.
