Summer Assignment AP Chemistry

Mr. Alfonso Gonzalez
alfonso.gonzalez@asfg.edu.mx
Room 404

In AP Chemistry students cultivate their understanding of chemistry through inquiry-based lab investigations as they explore the four Big Ideas: scale, proportion, and quantity; structure and properties of substances; transformations; and energy.

We have a summer assignment based on a Chemistry course by Coursera

Introduction to Chemistry: Structures and Solutions

The purpose of this assignment is to get you ready for the beginning of the course and get you very well prepared for AP chemistry.

The last class of the first week of school you will be given a Test based on this videos (TEST 1)
Please check updates from time to time in the AP Chem google classroom.

The work is in Classroom: AP CHEMISTRY 26-27
