Class of 2026

Admissions Statistics & Trends

PRESENTED BY THE

WMC SCHOOL COUNSELING DEPARTMENT

FROM THE DIRECTOR'S DESK

Each year, the School Counseling Department compiles this report to provide our school community with a clear and comprehensive picture of the college admissions experiences and postsecondary outcomes of our graduating class. The information presented reflects the collective efforts of our students, families, counselors, teachers, and staff as students explored their options, submitted applications, received admission decisions, and made thoughtful plans for life after high school.

The purpose of this report is not to define success by a particular college, ranking, or admissions result. Rather, it is to help students and families better understand application trends, the range of institutions our students consider, and the many academic pathways available after graduation.

Our department also uses this information to strengthen our counseling program. By reviewing patterns over time, we can better guide future students, evaluate how well we are supporting different postsecondary goals, and identify opportunities to expand awareness of colleges and programs that may be a strong fit for our students.

We hope this report celebrates the accomplishments of the Class of 2026 while also serving as a helpful resource for current and future families. Every student's journey is different, and the most meaningful outcome is finding a path that aligns with the student's interests, goals, needs, and aspirations.
