The District assumes that the proposed bonds will be issued in an amortization that will produce a level debt service tax rate, while taking into account the District's existing debt amortization schedule. El Distrito supone que los bonos propuestos se emitirán en una amortización que producirá una tasa de impuesto de servicio de deuda nivelada, teniendo en cuenta el calendario de amortización de la deuda existente del Distrito.)	\$60

This figure does not assume application of the homestead exemption of \$140,000; makes conservative assumptions about the amortization period of the debt obligations and the estimated interest rates; and assumes annual growth of the District's taxable assessed valuation at 3.00% in 2027 through 2028, 2.00% in 2029 through 2030, and 1.00% per year thereafter. The District assumes that the proposed bonds will be issued in an amortization that will produce a level debt service tax rate, while taking into account the District's existing debt amortization schedule. (Esta cifra no contempla la aplicación de la exención por vivienda de \$140,000; hace supuestos conservadores sobre el período de amortización de las obligaciones de deuda y las tasas de interés estimadas; y supone un crecimiento anual de la valoración imponible del Distrito de 3.00 % en 2027 a 2028, 2.00 % en 2029 a 2030 y 1.00 % por año a partir de entonces. El Distrito supone que los bonos propuestos se emitirán en una amortización que producirá una tasa de impuesto de servicio de deuda nivelada, teniendo en cuenta el calendario de amortización de la deuda existente del Distrito.)		\$60
