LITTLE ROCK
SCHOOL DISTRICT

To: Parents, Guardians, and Community Members

Subject: District-Wide Launch of the STOPit Anonymous Reporting App

We are excited to share that the Lightspeed STOPIt Anonymous Reporting App will launch district-wide on **Monday, April 6, 2026.** As part of the LR Vision, LRSD's partnership with UAMS Institute for Digital Health & Innovation, we will continue to strengthen school safety and prevention efforts across the District.

The Lightspeed STOPIt app provides students, staff, families, and community members with a safe and anonymous way to report concerns related to bullying, threats, school violence, self-harm, or other behaviors that may place students at risk. This powerful tool helps deter harmful behavior and allows school leaders to respond quickly and appropriately.

What You Need to Know:

- The app is completely anonymous and easy to use.
- Users can submit tips, attach photo or video evidence, and privately message school leaders with important information.
- All reports are reviewed promptly by trained school personnel who follow up as needed.
- The app can be accessed through the student's Chromebook and will be promoted across school websites and other communication channels.
- Promotional materials and guidance are below to help students and families understand how and when to use the app.
    - STOPit Parent & Guardian Training Video - Video generated with Synthesia
    - Español - STOPit Parent & Guardian Training Video - Video generated with Synthesia
    - STOPit App Flyer English/Spanish

In addition, when someone in our school community needs immediate support, the STOPit app provides direct access to the Crisis Text Line. Users can anonymously text with trained counselors—day or night—until they feel safe and calm.

Why It Matters:

By working together—students, families, staff, and community members—we can identify concerns early and take action to protect everyone. Reporting concerns is a responsible way to help others and strengthen school safety.

We strongly encourage parents and guardians to download the STOPit app from the Apple App Store or Google Play Store and become familiar with its features. Your involvement will help you guide your children and demonstrate our collective commitment to student wellbeing.

For more information, please visit our district website or contact your school administration.

Thank you for partnering with us to protect our students and strengthen school safety.
