Statement from Dr. Jermall Wright
Regarding Teacher Disciplinary Action - Parkview

The Little Rock School District is committed to ensuring the safety of all students and holding all employees accountable to established standards of conduct.

To that end, the District conducted a thorough internal investigation into allegations of misconduct involving a District employee. At no time were any students the subject of this investigation. In response to Freedom of Information Act requests, the District will release investigative records in accordance with Arkansas law, which requires disclosure when disciplinary action results in a suspension or termination.

The investigation found no evidence of sexual misconduct. It did determine that the employee demonstrated a serious lapse in professional judgment that violated District standards. During the investigation the employee was initially placed on leave with pay, but was subsequently suspended without pay, one of the most serious disciplinary actions available short of termination. These actions reflect the seriousness of the conduct and align with District policy.

All investigations of this nature are conducted by trained professionals within the District's Safety and Security Department and follow established protocols. These investigations are independent and fact-driven. District administrators, including those who supervise schools, do not direct, influence, or participate in investigative findings or outcomes.

LRSD will continue to approach all concerns with diligence, fairness, and respect for everyone involved.

Jermall Wright, Ed.D.
Superintendent of Schools
