

Welcome

to 3rd Grade

We are excited to start this school year with you!

Third grade is a year of transitions! There will be a shift from “learning to read” to “reading to learn”. We will use our reading skills to learn new content. We will read longer and more complex texts to develop and deepen our comprehension skills. In math, we will develop problem solving skills to solve two step word problems, deepen our understanding of multiplication, division, fractions and geometry.

We are looking forward to a productive and fun year ahead!

Meet the Team

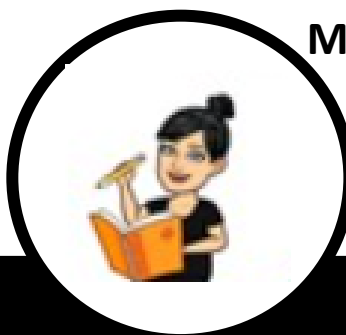

Mrs. Gozdalski
ICT Homeroom **214**

Hi! I will be your child(ren's)
ELA/Social Studies
teacher this year.
