HEARTLAND TECHNICAL EDUCATION CENTER

Inspire students to career success by providing real-world skills and credentials

Annual Public Notice of Career-Technical Education Opportunities

Each year, The Heartland Technical Education Center offers career-technical education programs Heartland Tech, Ashland High School and West Holmes High School. These programs are designed to prepare youth for a broad range of employment and training services and are offered under the guidance of certified teachers, counselors and cooperative education coordinators. The following is a list of programs offered 2026-2027. All students will have equal opportunity to enroll in a program of their choosing. If the number of applicants exceeds the number of available seats, the program will be filled using a random lottery.

All career-technical Education programs follow the district's policies of non-discrimination on the basis of race, color, national origin, sex, and disability in all programs, services, activities and employment. The lack of English language proficiency is not a barrier to admission or participation.

For general information about these programs, contact:
Rachel Bixler, Public Relations Coordinator
