Weather Matrices for School Operations

Precipitation

Condition	Operations
Prolonged drought	• Building & Grounds staff minimize outdoor watering and use of water for cleaning while maintaining health & safety
No precipitation or drought	• **Normal operations**
Mist / light sprinkling	• Normal operations • Students provided access to covered spaces during recess: allowed to use building overhangs and to remain in eating area • Students not asked to sit on ground (line up standing or using benches)
Rain, hail up to pea size, snow	• All outdoor events held indoors • Students gather for school in gymnasium • Recess held in gymnasium • After-school programs held indoors
Hail larger than pea size	• Staff instruct all students to shelter in place under roofs until hail ceases; no students change buildings • Arriving students sheltered in nearest building
Icy conditions	• See extreme temperature operations for cold • Building and Grounds staff keep key surfaces ice-free and close those that pose a danger
Snowfall of ½" or more	• If before school hours: School closed until temperature rises above 40°F for 2 hours. • If during school hours: Follow icy conditions operations and cold weather operations. • If at dismissal time: Students welcomed for additional after school supervision to permit staggered family pickup

Extreme Temperature

All temperatures refer to Wind Chill or Heat Index temperatures - whichever figure is more extreme is used to guide policy. Reference: SJ monthly temperatures

Condition	Operations
<35°F	• All outdoor events held indoors • Students gather for school in gymnasium • Recess held in gymnasium • After-school programs held indoors • Staff working outdoors take breaks every 30min
35-40°F	• All meals held indoors • TK, Kinder, Gr. 1-5 recess & PE activities held indoors • Normal operations Gr. 6-8
40-47°F	• All meals held indoors • TK, Kinder, Gr. 1-2 recess & PE activities held indoors • Normal operations Gr. 3-8
47°F - 90°F	• **Normal operations**
90-95°F	• TK, Kinder, Gr. 1-2 activities, including meals & recess, held indoors • Normal operations Gr. 3-8
95-100°F	• TK, Kinder, Gr. 1-5 activities, including meals & recess, held indoors • Normal operations Gr. 6-8
105-110°F	• All outdoor events held indoors • Students gather for school in gymnasium • Recess held in gymnasium • After-school programs held indoors
>110°F	• All outdoor events held indoors • Staff prohibited from all nonessential outdoor work • Staff working outdoors take breaks every 15min

Air Quality

Reference: [Air Quality Index for 95128]
Note: Air Quality Index measures are frequently delayed and very regional in nature. School officials will consider local conditions to adjust operations.

Condition	Operations
AQI <100	• **Normal operations**
AQI 100-149	• Low-exertion activities, such as morning line-up, held outside without modification • Meals & recess held indoors • Teachers given discretion to holding low-exertion PE activities outdoors • Site-hosted programs operate under own discretion (After-school program, Preschool, SCCOE program)
AQI 150-199	• All outdoor events held indoors • Students gather for school in gymnasium • Recess held in gymnasium • PE held indoors • Site-hosted programs (i.e. After-school programs, preschool) held indoors
AQI 200-300	• All outdoor activities held indoors • All non-essential movement between buildings avoided • Buildings & Grounds staff ensure closed windows
AQI 300+	• All outdoor events held indoors • Staff prohibited from all nonessential outdoor work • Staff working outdoors use masks • Buildings & Grounds staff ensure closed windows & minimal air intake to buildings

Board of Trustees
