SUBJECT: Proposed Revised Policies and Administrative Regulations

RECOMMENDATION: Approve the **Second Reading** of revisions, and/or deletions of the following policies, administrative regulations and exhibits.

NUMBER

DESCRIPTION

BP 6158

Independent Study

Policy updated to reflect NEW LAW (AB 167, 2021) which relaxes certain independent study (IS) requirements with respect to any student who is unable to attend in-person instruction due to a quarantine or school closure during the 2021-22 school year and to incorporate California Department of Education program clarifications, including that a district is permitted to (1) require students who cannot participate in classroom-based instruction during the school year due to quarantine or school closure because of infection with or exposure to COVID-19 to participate in IS, (2) claim apportionment credit for such students' participation in IS for fewer than the minimum three consecutive days generally required for IS, and (3) obtain a signed written agreement from each participating student not later than 30 days after IS begins, rather than before a student may participate in IS.

AR 6158

Independent Study

Regulation updated to reflect NEW LAW (AB 167, 2021) which permits districts to offer Independent Study (IS) to students who are unable to attend in-person instruction due to a quarantine pursuant to local or state public health guidance because of exposure to or infection with COVID-19. Regulation also revised to clarify that a student must be enrolled in school in order to participate in IS.

Definitions

Live interaction means interaction between the student and classified or certificated staff, and may include peers, provided for the purpose of maintaining school connectedness, including, but not limited to, wellness checks, progress monitoring, provision of services, and instruction. This interaction may take place in person, or in the form of Internet or telephonic communication. (Education Code 51745.5)

Student-parent-educator conference means a meeting involving, at a minimum, all parties who signed the student's written independent study agreement pursuant to Education Code 51747 or the written learning agreement pursuant to Education Code 51749.6. (Education Code 51745.5)

Synchronous instruction means classroom-style instruction or designated small group or one-on-one instruction delivered in person, or in the form of Internet or telephonic communications, and involving live two-way communication between the teacher and student. Synchronous instruction shall be provided by the teacher of record for that student pursuant to Education Code 51747.5 or the certificated employee providing instruction for course-based independent study. (Education Code 51745.5)

Long-Term Independent Study Educational Opportunities

For the 2021-22 school year, the district shall offer independent study to meet the educational needs of students as specified in Education Code 51745 unless the district has obtained a waiver. (Education Code 51745)

Educational opportunities offered through long-term independent study may include, but are not limited to more than 15 consecutive school days of the following: (Education Code 51745)

1. Special assignments extending the content of regular courses of instruction

(*cf. 6143 - Courses of Study*)

2. Individualized study in a particular area of interest or in a subject not currently available in the regular school curriculum
3. Individualized alternative education designed to teach the knowledge and skills of the core curriculum, but not provided as an alternative curriculum
4. Continuing and special study during travel

(cf. 5112.3 - Student Leave of Absence)

5. Volunteer community service activities and leadership opportunities that support and strengthen student achievement
6. Individualized study for a student whose health, as determined by the student's parent/guardian, would be put at risk by in-person instruction or for a student who is unable to attend in-person instruction due to a quarantine due to exposure to, or infection with, COVID-19, pursuant to local or state public health guidance

(cf. 0420.4 - Charter School Authorization)
(cf. 6142.4 - Service Learning/Community Service Classes)
(cf. 6181 - Alternative Schools/Programs of Choice)

In addition, when requested by a parent/guardian due to an emergency or illness, independent study may be used on a short-term basis to ensure that the student is able to maintain academic progress in the student's regular classes.

(cf. 5113 - Absences and Excuses)

No course required for high school graduation shall be offered exclusively through independent study. (Education Code 51745)

(cf. 6146.1 - High School Graduation Requirements)

Equivalency

The district's independent study option shall be substantially equivalent in quality and quantity to classroom instruction to enable participating students to complete the district's adopted course of study within the customary timeframe. Students in independent study shall have access to the same services and resources that are available to other students in the school and shall have equal rights and privileges. (5 CCR 11700, 11701.5)

(cf. 0410 - Nondiscrimination in District Programs and Activities)

Students participating in independent study shall have access to Internet connectivity and devices adequate to participate in the educational program and complete assigned work. (Education Code 51747)

The district shall not provide independent study students and their parents/guardians with funds or items of value that are not provided for other students and their parents/guardians. Providing access to Internet connectivity and local educational agency-owned devices adequate to participate in an independent study program and complete assigned work consistent with Education Code 51747, or to participate in an independent study course, as authorized by Education Code 51749.5, shall not be considered funds or other things of value. (Education

Code 46300.6, 51747.3)

Eligibility for Long-term Independent Study

To participate in independent study, a student shall be enrolled in a district school. (Education Code 51748)

For the 2022-23 school year and thereafter, the Superintendent or designee may approve the participation of a student who demonstrates the motivation, commitment, organizational skills, and academic skills necessary to work independently provided that experienced certificated staff are available to effectively supervise students in independent study. The Superintendent or designee may also approve the participation of a student whose health would be put at risk by in-person instruction. A student whose academic performance is not at grade level may participate in independent study only if the program is able to provide appropriate support, such as supplemental instruction, tutoring, counseling, ongoing diagnostic assessments, and/or differentiated materials, to enable the student to be successful. For an elementary student, the Superintendent or designee may consider the parent/guardian's level of commitment to assist the student.

A student participating in independent study must be a resident of the county or an adjacent county. Full-time independent study shall not be available to students whose district residency status is based on their parent/guardian's employment within district boundaries pursuant to Education Code 48204. (Education Code 46300.2, 51747.3)

(cf. 5111.1 - District Residency)

A student with disabilities, as defined in Education Code 56026, shall not participate in independent study unless the student's individualized education program specifically provides for such participation. (Education Code 51745)

(cf. 6159 - Individualized Education Program)

With the exception of students who, during the 2021-2022 school year, cannot participate in classroom-based instruction due to a COVID-19 quarantine or school closure, a temporarily disabled student shall not receive individual instruction pursuant to Education Code 48206.3 by means of independent study. (Education Code 51747)

(cf. 6183 - Home and Hospital Instruction)

Students age 21 or older, and students age 19 or older who have not been continuously enrolled in school since their 18th birthday, may participate in independent study only through the adult education program for the purpose of enrolling in courses required for a high school diploma by Education Code 51225.3 or the Governing Board. (Education Code 46300.1, 46300.4)

(cf. 6200 - Adult Education)

No more than 10 percent of the students enrolled in a continuation high school or opportunity school or program, not including pregnant students and parenting students who are primary caregivers for one or more of their children, shall be enrolled in long-term independent study. (Education Code 51745)

(cf. 5146 - Married/Pregnant/Parenting Students)
(cf. 6184 - Continuation Education)

Monitoring Student Progress

The independent study administrator and/or supervising teacher shall promptly and directly address any failure by the student to meet the terms of the student's written agreement. The following supportive strategies may be used:

1. A letter to the student and/or parent/guardian
2. A meeting between the student and the teacher and/or counselor
3. A meeting between the student and the independent study administrator, including the parent/guardian if appropriate
4. An increase in the amount of time the student works under direct supervision

When the student has failed to make satisfactory educational progress or missed the number of assignments specified in the written agreement as requiring an evaluation, the Superintendent or designee shall conduct an evaluation to determine whether or not independent study is appropriate for the student. This evaluation may result in termination of the independent study agreement and the student's return to the regular classroom program or other alternative program.

A written record of the findings of any such evaluation shall be treated as a mandatory interim student record which shall be maintained for three years from the date of the evaluation. (Education Code 51747)

Responsibilities of Independent Study Administrator

The responsibilities of the independent study administrator include, but are not limited to:

1. Recommending certificated staff to be assigned as independent study teachers at the required teacher-student ratios pursuant to Education Code 51745.6 and supervising staff assigned to independent study functions who are not regularly supervised by another administrator
2. Approving or denying the participation of students requesting independent study
3. Facilitating the completion of written independent study agreements

4. Ensuring a smooth transition for students into and out of the independent study mode of instruction
5. Approving all credits earned through independent study
6. Completing or coordinating the preparation of all records and reports required by law, Board policy, or administrative regulation

Assignment and Responsibilities of Independent Study Teachers

Each student's long-term independent study shall be coordinated, evaluated, and carried out under the general supervision of a district employee who possesses a valid certification document pursuant to Education Code 44865 or emergency credential pursuant to Education Code 44300, registered as required by law, and who consents to the assignment. (Education Code 44865, 51747.5; 5 CCR 11700)

The ratio of student average daily attendance for independent study students age 18 years or younger to full-time equivalent certificated employees responsible for independent study shall not exceed the equivalent ratio for all other education programs in the district, unless a new higher or lower ratio for all other educational programs offered is negotiated in a collective bargaining agreement or the district enters into a memorandum of understanding that indicates an existing collective bargaining agreement contains an alternative ratio. (Education Code 51745.6)

The responsibilities of the supervising teacher shall include, but are not limited to:

1. Completing designated portions of the written independent study agreement and signing the agreement
2. Supervising and approving coursework and assignments
3. Maintaining records of student assignments showing the date the assignment is given and the date the assignment is due
4. Maintaining a daily or hourly attendance register in accordance with item #4 in the section on "Records for Audit Purpose" in the accompanying Board policy
5. Providing direct instruction and counsel as necessary for individual student success
6. Regularly meeting with the student to discuss the student's progress
7. Determining the time value of assigned work or work products completed and submitted by the student
8. Assessing student work and assigning grades or other approved measures of achievement

9. Documenting each student's participation in live interaction and/or synchronous instruction pursuant to Education Code 51747 on each school day, as applicable, in whole or in part, for which live interaction or synchronous instruction is provided as part of the independent study program

The Superintendent or designee shall ensure that long-term independent study teachers have access to professional development and support comparable to classroom-based teachers.

Board Policy

Independent Study

BP 6158

Instruction

The Governing Board authorizes independent study as an optional alternative instructional strategy for students whose needs may be best met through study outside of the regular classroom setting. Independent study shall offer a means of individualizing the educational plan to serve students who desire a more challenging educational experience, whose health or other personal circumstances make classroom attendance difficult, who are unable to access course(s) due to scheduling problems, and/or who need to make up credits or fill gaps in their learning. As necessary to meet student needs, independent study may be offered on a full-time or part-time basis and in conjunction with part- or full-time classroom study.

The Superintendent or designee may provide a variety of independent study opportunities, including, but not limited to, through a program or class within a comprehensive school, an alternative school or program of choice, a charter school, and an online course.

(cf. 0420.4 - Charter School Authorization)

(cf. 6181 - Alternative Schools/Programs of Choice)

Except for students who, during the 2021-2022 school year, cannot participate in classroom-based instruction due to quarantine or school closure for exposure to or infection with COVID-19, student in **Long Term Independent Study** shall be voluntary. (Education Code 51747, 51749.5, 51749.6)

Independent study for each student shall be under the general supervision of a district employee who possesses a valid certification document pursuant to Education Code 44865 or an emergency credential pursuant to Education Code 44300. Students' independent study shall be coordinated, evaluated, and documented, as prescribed by law and reflected in the accompanying administrative regulation. (Education Code 51747.5)

General Independent Study Requirements

For the 2021-22 school year, the district shall offer independent study, as specified in Education Code 51745, to meet the educational needs of students unless the district has obtained a waiver. (Education Code 51745)

For the 2022-23 school year and thereafter, the Superintendent or designee may offer and approve independent study for an individual student upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than the student would in the regular classroom setting.

(cf. 5147 - Dropout Prevention)

(cf. 6011 - Academic Standards)

(cf. 6143 - Courses of Study)

(cf. 6146.1 - High School Graduation Requirements)

(cf. 6146.11 - Alternative Credits Toward Graduation)

(cf. 6172 - Gifted and Talented Student Program)

(cf. 6200 - Adult Education)

The minimum instructional minutes for students participating in independent study shall be the same as required for their peers at the school who are receiving in-person instruction, except as otherwise permitted by law. (Education Code 46100)

Because excessive leniency in the duration of independent study assignments may result in a student falling behind peers and increase the risk of dropping out of school, independent study assignments shall be completed no more than one week after assigned for all grade levels and types of program. When necessary based on the specific circumstances of the student's approved program, the Superintendent or designee may allow for a longer period of time between the date an assignment is made and when it is due. However, in no event shall the due date of an assignment be extended beyond the termination date of the agreement.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student fails to make satisfactory educational progress and/or misses three assignments. Satisfactory educational progress shall be determined based on all of the following indicators: (Education Code 51747)

1. The student's achievement and engagement in the independent study program, as indicated by the student's performance on applicable student-level measures of student achievement and engagement specified in Education Code 52060
2. The completion of assignments, assessments, or other indicators that evidence that the student is working on assignments
3. Learning of required concepts, as determined by the supervising teacher
4. Progress towards successful completion of the course of study or individual course, as determined by the supervising teacher

The Superintendent or designee shall ensure that students participating in independent study are provided with content aligned to grade level standards at a level of quality and intellectual challenge substantially equivalent to in-person instruction. For high schools, this shall include access to all courses offered by the district for graduation and approved by the University of California or the California State University as creditable under the A-G admissions criteria. (Education Code 51747)

The Superintendent or designee shall ensure that students participating in independent study for 15 school days or more receive the following throughout the school year: (Education Code 51747)

1. For students in grades transitional kindergarten, kindergarten, and grades 1 to 3, opportunities for daily synchronous instruction
2. For students in grades 4-8, opportunities for both daily live interaction and at least weekly synchronous instruction
3. For students in grades 9-12, opportunities for at least weekly synchronous instruction

The Superintendent or designee shall ensure that procedures for tiered reengagement strategies are used for all students participating in an independent study program for 15 school days or more who: (Education Code 51747)

1. Are not generating attendance for more than three school days or 60 percent of the instructional days in a school week, or 10 percent of required minimum instructional time over four continuous weeks of the district's approved instructional calendar
2. Are found to be not participatory pursuant to Section 51747.5 for more than the greater of three schooldays or 60 percent of the scheduled days of synchronous instruction in a school month as applicable by grade span
3. Are in violation of their written agreement

Tiered reengagement strategies procedures used in district independent study programs shall include, but are not necessarily limited to, all of the following: (Education Code 51747)

1. Verification of current contact information for each enrolled student
2. Notification to parents/guardians of lack of participation within one school day of the recording of a non-attendance day or lack of participation
3. A plan for outreach from the school to determine student needs, including connection with health and social services as necessary
4. A clear standard for requiring a student-parent-educator conference to review a student's written agreement and reconsider the independent study program's impact on the student's achievement and well-being

The Superintendent or designee shall develop a plan to transition students whose families wish to return to in-person instruction from independent study expeditiously, and, in no case later, than five instructional days. This requirement only applies to students participating in an independent study program for 15 school days or more. (Education Code 51747)

The Superintendent or designee shall ensure that a written master agreement exists for each participating student as prescribed by law. (Education Code 51747, 51749.5)

The district shall provide written notice to the parents/guardians of all enrolled students of the option to enroll their child in in-person instruction or independent study during the 2021-22

school year. This notice shall be posted on the district's web site, and shall include, at a minimum, information about the right to request a student-parent-educator conference before enrollment, student rights regarding procedures for enrolling, disenrolling, and reenrolling in independent study, and the instructional time, including synchronous and asynchronous learning, that a student will have access to as part of independent study. (Education Code 51747)

Upon the request of the parent/guardian of a student, and before signing a written agreement as described below in the section "Master Agreement," the district shall conduct a telephone, videoconference, or in-person student-parent-educator conference or other meeting during which the student, parent/guardian, and, if requested, their advocate may ask questions about the educational options, including which curriculum offerings and nonacademic supports will be available to the student in independent study. (Education Code 51747)

Master Agreement

A written agreement shall be developed and implemented for each student participating in independent study for three or more consecutive school days. (Education Code 46300, 51747; 5 CCR 11703)

However, for the 2021-22 school year only, the district shall obtain a signed written agreement from each student participating in an independent study program for any length of time, no later than 30 days after the first day of instruction in the independent study program.

The agreement shall include general student data, including the student's name, address, grade level, birth date, school of enrollment, and program placement.

The independent study agreement for each participating student also shall include, but are not limited to, all of the following: (Education Code 51747; 5 CCR 11700, 11702)

1. The frequency, time, place and manner for submitting the student's assignments, reporting the student's academic progress, and communicating with a student's parent/guardian regarding the student's academic progress
2. The objectives and methods of study for the student's work and the methods used to evaluate that work
3. The specific resources that will be made available to the student, including materials and personnel, and access to Internet connectivity and devices adequate to participate in the educational program and complete assigned work
4. A statement of the Board's policy detailing the maximum length of time allowed between an assignment and its completion, the level of satisfactory educational progress, and the number of missed assignments which will trigger an evaluation of whether the student should be allowed to continue in independent study
5. The duration of the independent study agreement, including the beginning and ending dates for the student's participation in independent study under the agreement, with a maximum

of one school year

6. A statement of the number of course credits or, for the elementary grades, other measures of academic accomplishment appropriate to the agreement, to be earned by the student upon completion
7. A statement detailing the academic and other supports that will be provided to address the needs of students who are not performing at grade level, or need support in other areas, such as English learners, students with disabilities with an individualized education program or a Section 504 plan in order to be consistent with their program or plan, students in foster care or experiencing homelessness, and students requiring mental health supports.
8. A statement that independent study is an optional educational alternative in which no student may be required to participate

For the 2021-22 school year, this statement shall not be required for a student's participation in independent study if the student is unable to attend in-person instruction because of a quarantine or school closure mandated by a local or state health order or guidance due to the student's exposure to or infection with COVID-19.

9. In the case of a suspended or expelled student who is referred or assigned to any school, class, or program pursuant to Education Code 48915 or 48917, a statement that instruction may be provided through independent study only if the student is offered the alternative of classroom instruction

(cf. 5144.1 - Suspension and Expulsion/Due Process)

10. Before the commencement of independent study, the agreement shall be signed and dated by the student, the student's parent/guardian or caregiver if the student is under age 18 years, the certificated employee responsible for the general supervision of independent study, and all persons who have direct responsibility for providing assistance to the student.

However, for the 2021-22 school year, the district shall obtain a signed written agreement for independent study from the student, or the student's parent/ guardian if the student is less than 18 years of age, the certificated employee who has been designated as having responsibility for the general supervision of independent study, and all persons who have direct responsibility for providing assistance to the student, no later than 30 days after the first day of instruction in the independent study program or October 15, whichever date comes later.

Written agreements may be signed using an electronic signature that complies with state and federal standards, as determined by the California Department of Education (CDE). (Education Code 51747)

The parent/guardian's signature on the agreement shall constitute permission for the student to receive instruction through independent study.

Course-Based Independent Study

The district's course-based independent study program for students in grades K-12 shall be subject to the following requirements: (Education Code 51749.5)

1. A signed learning agreement shall be completed and on file for each participating student, pursuant to Education Code 51749.6

(cf. 4112.2 - Certification)

3. Courses shall be annually certified by Board resolution to be of the same rigor and educational quality and to provide intellectual challenge that is substantially equivalent to in-person, classroom-based instruction, and shall be aligned to all relevant local and state content standards. For high schools, this shall include access to all courses offered by the district for graduation and approved by the University of California or the California State University as creditable under the A-G admissions criteria. The certification shall, at a minimum, include the duration, number of equivalent daily instructional minutes for each school day that student is enrolled, number of equivalent total instructional minutes, and number of course credits for each course, consistent with that of equivalent classroom-based courses. The certification shall also include plans to provide opportunities throughout the school year, for students in transitional kindergarten, kindergarten, and grades 1-3 to receive daily synchronous instruction, for students in grades 4-8, to receive both daily live interaction and at least weekly synchronous instruction, and for students in grades 9-12 to receive at least weekly synchronous instruction.
4. Students enrolled in independent study courses shall meet the applicable age requirements established pursuant to Education Code 46300.1, 46300.4, 47612, and 47612.1, and the applicable residency and enrollment requirements established pursuant to Education Code 46300.2, 47612, 48204, and 51747.3.
5. For each student participating in an independent study course, satisfactory educational progress shall be determined based on the student's achievement and engagement in the independent study program, as indicated by their performance on applicable student-level measures of student achievement and student engagement set forth in Education Code 52060, completion of assignments, assessments, or other indicators that evidence that the student is working on assignments, learning of required concepts, as determined by the supervising teacher, and progress toward successful completion of the course of study or individual course, as determined by the supervising teacher.

If satisfactory educational progress in an independent study class is not being made, the teacher shall notify the student and, if the student is under age 18 years, the student's parent/guardian. The teacher shall conduct an evaluation to determine whether it is in the student's best interest to remain in the course or whether the student should be referred to an alternative program, which

may include, but is not limited to, a regular school program. A written record of the evaluation findings shall be a mandatory interim student record maintained for three years from the date of the evaluation. If the student transfers to another California public school, the record shall be forwarded to that school.

Procedures for tiered reengagement strategies shall be used for all students who are not making satisfactory educational progress in one or more courses or who are in violation of the written learning agreement, as described in the section "Learning Agreement for Course-Based Independent Study" below. These procedures shall include, but are not necessarily limited to, the verification of current contact information for each enrolled student, notification to parents/guardians of lack of participation within one school day of the absence or lack of participation, a plan for outreach from the school to determine student needs, including connection with health and social services as necessary, and a clear standard for requiring a student-parent-educator conference to review a student's written agreement and reconsider the independent study program's impact on the student's achievement and well-being.

(cf. 5125 - Student Records)

6. Examinations shall be administered by a proctor.
7. Statewide testing results shall be reported and assigned to the school at which the student is enrolled and shall be included in the aggregate results of the district. Test results also shall be disaggregated for purposes of comparisons with the test results of students enrolled in classroom-based courses.

(cf. 6162.51 - State Academic Achievement Tests)

8. A student shall not be required to enroll in courses included in the course-based independent study program.
9. The student-teacher ratio in the courses in this program shall meet the requirements of Education Code 51745.6.
10. For each student, the combined equivalent daily instructional minutes for courses in this program and all other courses shall meet applicable minimum instructional day requirements, and the student shall be offered the minimum annual total equivalent instructional minutes pursuant to Education Code 46200-46208.

(cf. 6111 - School Calendar)

(cf. 6112 - School Day)

11. Courses required for high school graduation or for admission to the University of California or California State University shall not be offered exclusively through independent study.
12. A student participating in this program shall not be assessed a fee that is prohibited by Education Code 49011.

(cf. 3260 - Fees and Charges)

13. A student shall not be prohibited from participating in independent study solely on the basis that the student does not have the materials, equipment, or access to Internet connectivity necessary to participate in the course.
14. A student with disabilities, as defined in Education Code 56026, shall not participate in course-based independent study, unless the student's individualized education program specifically provides for that participation.

5. The specific resources that will be made available to the student, including materials and personnel, and access to Internet connectivity and devices adequate to participate in the educational program and complete assigned work
6. A statement detailing the academic and other supports that will be provided to address the needs of students who are not performing at grade level, or need support in other areas, such as English learners, students with disabilities with an individualized education

program or a Section 504 plan in order to be consistent with their program or plan, students in foster care or experiencing homelessness, and students requiring mental health supports.

7. A statement that enrollment is an optional educational alternative in which no student may be required to participate. In the case of a student who is suspended or expelled, or who is referred or assigned to any school, class, or program pursuant to Education Code 48915 or 48917, the agreement also shall include the statement that instruction may be provided to the student through course-based independent study only if the student is offered the alternative of classroom instruction.

Short-Term Independent Study

A student's participation in short-term independent study shall be voluntary. Student participating in independent study shall have the right, at any time, to enter or return to the regular classroom mode of instruction. (Education Code 51747; 5 CCR 11700) The minimum period of time for any short-term independent study options shall be five consecutive school days. The maximum period of time for any short-term independent study option shall be 10 consecutive school days. Parents/ guardians must make a request for short-term independent study at least two weeks in advance, unless the request is due to an urgent health related concern

of the student or the student's immediately family that doesn't allow for prior notice. If the request is not received by the school at least two weeks in advance, and not due to a health related concern, it may not be granted.

Parents/ guardians of students who are interested in short-term independent study shall contact the Site Administrator. The Site Administrator or designee shall approve short-term independent study for an individual student only upon determining that the student is prepared to meet the district's requirements for independent study and is likely to succeed in independent study as well as or better than they would in the regular classroom setting.

The Superintendent or designee shall ensure that a written master agreement and, as appropriate, a learning agreement for students participating in course-based independent study exist for each participating student as prescribed by law. (Education Code 51747, 51749.5)

The master agreement shall specify the length of time in which each independent study assignment must be completed. Because excessive leniency in the duration of independent study assignments may result in a student falling behind their peers, and increase the risk of dropping out of school, independent study assignments shall due upon the students return to school at the conclusion of the 10 school day period. If, due to a health related concern of a student, the student does not return to school within 10 days, work that has been assigned must be submitted at the 10 day mark. The remaining work would then be due when the student returned to school.

An evaluation shall be conducted to determine whether it is in a student's best interest to remain in independent study whenever the student misses three assignments, unless the student's written agreement specifies a lower or higher number of missed assignments based on the nature of the assignments, the total number of assignments, and/or other unique circumstances. Furthermore, if a student fails to successfully complete any short-term independent study contract, any request for independent study for the current school year or following school year will be denied unless the request is made due to an urgent health related concern for the student.
