4.1—RESIDENCE REQUIREMENTS

Definitions

"In loco parentis" means relating to the responsibility to undertake the care and control of another person in the absence of:

1. Supervision by the person's parent or legal guardian; and
2. Formal legal approval.

"Reside" means to be physically present and to maintain a permanent place of abode for an average of no fewer than four (4) calendar days and nights per week for a primary purpose other than school attendance.

"Resident" means a student whose parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis reside in the school district.

"Residential address" means the physical location where the student's parents, legal guardians, persons having lawful control of the student or persons standing in loco parentis reside. A student may use the residential address of a parent, legal guardian, person having lawful control of the student or person standing in loco parentis only if the student resides at the same residential address and if the guardianship or other legal authority is not granted solely for educational needs or school attendance purposes.

The schools of the District shall be open and free through the completion of the secondary program to all persons between the ages of five (5) and twenty one (21) years whose parents, legal guardians, persons having lawful control of the student, or person standing in loco parentis reside within the District and to all persons between those ages who have been legally transferred to the District for educational purposes.

Any person eighteen (18) years of age or older may establish a residence separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing in loco parentis for school attendance purposes.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District's schools separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing in loco parentis, the student is required to reside in the District for a primary purpose other than that of school attendance.; however, a student previously enrolled in the district whose parents move the student into another district or who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools.[2] A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.[3]

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and the employee's child or ward reside outside the district.[4]

Children whose parent or legal guardian relocates within the state due to a mobilization, deployment, or available military housing while on active duty in or serving in the reserve component of a branch of the United States Armed Forces or National Guard may continue attending school in the school district the children were attending prior to the relocation or attend school in the school district where the children have relocated. A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian.

Notes: [1] Residency requirements of homeless students is governed by policy 4.40—HOMELESS STUDENTS. Residency requirements governing foster children are governed by policy 4.52—STUDENTS WHO ARE FOSTER CHILDREN. If a student's primary residence is on an undivided tract of land that is located partially in one (1) school district and partially in another school district or the student's principal place of residence is located partially in one (1) school district and partially in another school district, then the student shall be eligible to attend the school in either of the school districts in which the tract of land or principal place of residence is located regardless of the location of the home on the property.

[2] The Interstate Compact on Educational Opportunity for Military Children and the ARKANSAS MILITARY CHILD SCHOOL TRANSITIONS ACT OF 2021 are the sources for this sentence. It is codified at A.C.A. § 6-4-302 and 6-28-108. The language allowing any student who moves from one district into another district to continue to attend the original district comes from A.C.A. § 6-18-203.

[3] This is a provision of A.C.A. § 9-28-113(a) and (b).

[4] Rather than duplicate the law on the attendance of children of employees who reside outside of the district into the policy which would make for a long policy affecting a relatively small number of students, we suggest you consult A.C.A. § 6-18-203 and have a copy handy for affected employees or potential employees.

4.2—ENTRANCE REQUIREMENTS

Students may enter kindergarten if they will attain the age of five (5) on or before August 1 of the year in which they are seeking initial enrollment. Any student who has been enrolled in a state-accredited or state-approved kindergarten program in another state for at least sixty (60) days, will become five (5) years old during the year in which he/she is enrolled in kindergarten, and meets the basic residency requirement for school attendance may be enrolled in kindergarten upon written request to the District. Any child who will be six (6) years of age on or before October 1 of the school year of enrollment and who has not completed a state-accredited kindergarten program shall be evaluated by the district and may be placed in the first grade if the results of the evaluation justify placement in the first grade and the child's parent or legal guardian agrees with placement in the first grade; otherwise the child shall be placed in kindergarten.

Any child may enter first grade in a District school if the child will attain the age of six (6) years during the school year in which the child is seeking enrollment and the child has successfully completed a kindergarten program in a public school in Arkansas.

Any child who has been enrolled in the first grade in a state-accredited or state-approved elementary school in another state for a period of at least sixty (60) days, who will become age six (6) years during the school year in which he/she is enrolled in grade one (1), and who meets the basic residency requirements for school attendance may be enrolled in the first grade.

Students who move into the District from an accredited school shall be assigned to the same grade as they were attending in their previous school (mid-year transfers) or as they would have been assigned in their previous school. Private school students shall be evaluated by the District to determine their appropriate grade placement. Home school students enrolling or re-enrolling as a public school student shall be placed in accordance with policy 4.6—HOME SCHOOLING.

The district shall make no attempt to ascertain the immigration status, legal or illegal, of any student or his/her parent or legal guardian presenting for enrollment.

Prior to the child's admission to a District school:

1. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall furnish the child's social security number, or if they request, the district will assign the child a nine (9) digit number designated by the Division of Elementary and Secondary education.
2. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall provide the district with one (1) of the following documents indicating the child's age:
   a. A birth certificate;
   b. A statement by the local registrar or a county recorder certifying the child's date of birth;
   c. An attested baptismal certificate;
   d. A passport;
   e. An affidavit of the date and place of birth by the child's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis;
   f. United States military identification; or
   g. Previous school records.
3. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall indicate on school registration forms whether the child has been expelled from school in any other school district or is a party to an expulsion proceeding. Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.
4. In accordance with Policy 4.57—IMMUNIZATIONS, the child shall be age appropriately immunized or have an exemption issued by the Arkansas Department of Health.

"Activated reserve components" means members of the reserve component of the uniformed services who have received a notice of intent to deploy or mobilize under Title 10 of the United States Code, Title 32 of the United States Code, or state mobilization to active duty.

The superintendent shall designate an individual as the District's military education coordinator, who shall serve as the primary point of contact for an eligible child and for the eligible child's parent, legal guardian, person having lawful control of the eligible child, or person standing in loco parentis. The individual the superintendent designates as the District's military education coordinator shall have specialized knowledge regarding the educational needs of children of military families and the obstacles that children of military families face in obtaining an education.[5]

An eligible child as defined in this policy shall:

1. Be allowed to continue his/her enrollment at the grade level commensurate with his/her grade level he/she was in at the time of transition from his/her previous school, regardless of age;

2. Be eligible for enrollment in the next highest grade level, regardless of age if the student has satisfactorily completed the prerequisite grade level in his/her previous school;

4. Be enrolled in courses and programs the same as or similar to the ones the student was enrolled in his/her previous school to the extent that space is available. This does not prohibit the District from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the courses/and/or programs;
5. Be provided services comparable to those the student with disabilities received in his/her previous school based on his/her previous Individualized Education Program (IEP). This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;
6. 8. Be eligible to continue attending District schools if he/she has been placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty.

a. Academic courses;
b. Electives;
c. Sports; and
d. Other relevant information regarding the public school.

In the event that official copies of an eligible child’s education records are not available at the time the eligible child is transferring, then the District shall:

- Pre-register and place an eligible child based on the eligible child’s unofficial education records pending receipt of the eligible child’s official records; and
- Request the eligible child’s official education records from the sending district.

To facilitate a smooth transition between the student’s previous coursework and the curriculum best suited to ensure educational success in the student’s new school, the District may enroll an inbound transitioning eligible student in digital coursework, if available, at the request of the military family.

International Exchange Sstudents

"Host family" means the individual or family with whom an international exchange student is placed by an international student exchange visitor placement organization under the

International Student Exchange Visitor Placement Organization Registration Act, § 6-18-1701 et seq..

"International exchange student" means a student who is placed with a host family by an international student exchange visitor placement organization under the International Student Exchange Visitor Placement Organization Registration Act, § 6-18-1701 et seq.

Before an international exchange student may attend a District school , the District requires all international student exchange visitor placement organizations that are placing international exchange students within the District to:

- Be certified by the Council on Standards for International Educational Travel;
- Provide documented proof of the international exchange student's English proficiency; and
- Notify the District at least three (3) weeks before the beginning of the academic semester the international exchange student plans to enroll in the District.

The District shall admit for enrollment and attendance an international exchange student who has been placed with a host family who resides within the District boundaries. The international exchange student shall attend the school in the District based on the attendance zone where the host family resides.[6]

Upon an international exchange student's arrival, the international exchange student may be required to submit to quarantine to prevent the spread of infectious diseases as may be necessary, which shall not exceed seven (7) days unless otherwise recommended by the Arkansas Department of Health or the Centers for Disease Control and Prevention.

International exchange students are expected to follow the District handbook and student code of conduct as the District has the authority to expel a student for violations of the school district's written student discipline policies or if the international exchange student presents a danger to the District's students or employees.

Statewide assessment results achieved by an international exchange student enrolled in the District shall be included in the District's results on the statewide assessments.[7]

The District shall provide English-language services to international exchange students as necessary.[8]

Notes: [1] The US Supreme Court has held that public schools may not use immigration status as a criterion for admitting and educating students.

[2] A.C.A. § 9-28-113 requires schools to "immediately" enroll foster children whether or not they produce "required clothing or required records" noted in #2 and #4. ASBA does not believe this means schools are required to admit students currently under expulsion from their previous school. See policies 4.4 and 4.5.

[3] A.C.A. § 6-18-510 requires that districts adopt this policy language, or similar, **AND** provide a hearing before the board for the student seeking to enroll in the district while currently serving an expulsion from another district in order for the district to exclude the student until the expiration of the student's expulsion. Districts who do not include this policy language, or similar, **AND** provide the hearing before the board may **NOT** prohibit the enrollment of a student who is currently serving an expulsion from another district.

[4] A.C.A. § 6-4-302 and 6-28-104 define both "uniformed services" and "active duty." Consult the statutes to determine if the student wishing to enroll in your district qualifies under the definitions.

[5] While A.C.A. § 6-28-116 only makes this a requirement for districts with at least twenty (20) children of military families enrolled or an average daily membership of three thousand (3,000) students, the language is recommended for all districts.

[6] While A.C.A. § 6-18-234(c)(3) allows a district to limit the number of exchange students that the district is required to admit to a single school to one (1) exchange student for every fifty (50) traditional students enrolled in the school, we have not included such limiting language as we believe that to do so violates the intent that the public schools are open to all students between the ages of five (5) and twenty-one (21) who lawfully reside within the district.

[7] You are not required to include exchange student statewide assessment scores in your district results. The law requires that if you include or exclude exchange student assessment results to be done as a group rather than on an individual student basis.

[8] The law allows districts to opt-out of providing English language services.

4.3—COMPULSORY ATTENDANCE REQUIREMENTS

Every parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of any child age five (5) through seventeen (17) years on or before August 1 of that year who resides, as defined by policy (4.1—RESIDENCE REQUIREMENTS), within the District shall enroll the child and ensure the attendance of the child at a District school with the following exceptions:

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (4.6—HOME SCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that particular school year and the parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of the child elects not to have him/her attend kindergarten. A kindergarten waver form prescribed by regulation of the Division of Elementary and Secondary Education must be signed and on file with the District administrative office.
4. The child has received a high school diploma or its equivalent as determined by the State Board of Education.
5. The child is age sixteen (16) or above and is enrolled in a post-secondary vocational-technical institution, a community college, or a two-year or four-year institution of higher education.
6. The child is age sixteen (16) or seventeen (17) and has met the requirements to enroll in an adult education program as defined by A.C.A. § 6-18-201 (b).

4.4—STUDENT TRANSFERS

Transfer applications received by the District shall be placed on the Board's next meeting agenda.[1] At least five (5) days before the meeting where the transfer application appears on the agenda, the superintendent shall notify the Board regarding:

- All transfer applications received since the last meeting; and
- The superintendent's recommendation concerning each transfer application.

Each transfer application shall be considered individually and receive a separate vote by the Board. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to a student who submits a transfer application shall be given at least five (5) minutes to present the student's case for a transfer to the Board.

The Board may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school.[2] The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

If the superintendent intends to recommend the Board deny the transfer application, the superintendent shall provide a written explanation of the reasons for the recommendation to the Board and the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student.

The parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to the student who submitted a transfer application that was rejected may appeal the decision of the Board to the State Board of Education.

Any student transferring from a school accredited by the Division of Elementary and Secondary Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from a school that is not accredited by the DESE to a District school shall be evaluated by District staff to determine the student's appropriate grade placement. A student transferring from home school will be placed in accordance with Policy 4.6—HOME SCHOOLING.

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.[3]

Except as otherwise required or permitted by law,[4] the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident district may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

Notes:-Applications are required to be placed at the earliest meeting following their receipt, whether that is the next regularly scheduled meeting or a special board meeting. Consult A.C.A. § 6-18-317 for restrictions on transfers where either the resident or the receiving district is under a desegregation related court order.

[2] Your application of "capacity" should be consistent in order to avoid potential exposure to liability for unlawful discrimination against individuals with disabilities. For example, you should not choose to accept a student who requires no special services, but would require you to add an additional elementary teacher, but refuse to accept a student with a disability because it would require you to add an additional special education teacher. You may refuse to accept the transfer of a student with a disability whose acceptance would necessitate the hiring of an aide, interpreter, or other additional staff member.

[3] A.C.A. § 6-18-510 requires that districts adopt this policy language, or similar, **AND** provide a hearing before the board for the student seeking to enroll in the district while currently serving an expulsion from another district in order for the district to exclude the student until the expiration of the student's expulsion. Districts who do not include this policy language, or similar, **AND** provide the hearing before the board may **NOT** prohibit the enrollment of a student who is currently serving an expulsion from another district.

[4] A.C.A. § 9-28-113(b)(4) encourages districts to arrange for transportation for foster children who have had a change in placement to a new school, but have been kept in their previous school by a DHS or court ruling. The statute's language would permit the change in placement to be in a different district and the policy language would allow the district to arrange for the transportation at district expense.

4.5—SCHOOL CHOICE

Standard School Choice

Definition

"Sibling" means each of two (2) or more children having a parent in common by blood, adoption, marriage, or foster care.

Transfers into the District
Capacity Determination and Public Pronouncement

The Board of Directors will annually adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.[5]

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline; the requirements and procedures for participation in the program; and include contact information for the primary point of contact at the District for school choice questions. Such pronouncements shall be made no later than January 1.[6]

Application Process

The student's parent shall submit a school choice application on a form approved by DESE to this District and the student's resident district. Except for students who are transferring under Uniformed Service Member Dependent School Choice, the transfer application must be postmarked, emailed, or hand delivered between January 1 and May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications the District receives as both the resident and nonresident district as they are received in the District's central office. Except for applications from students who are transferring under Uniformed Service Member Dependent School Choice, applications postmarked, emailed, or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

Except for students who are transferring under Uniformed Service Member Dependent School Choice, no earlier than January 1 of each year, the Superintendent will consider all properly

submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.[7]

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who fails to initially enroll under the timelines and provisions provided in this policy; chooses to return to his/her resident district; or enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School Choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.[8]

An application may be provisionally rejected if it is for an opening that was included in the District's capacity resolution, but was provisionally filled by an earlier applicant. If the provisionally approved applicant subsequently does not enroll in the District, the provisionally rejected applicant could be provisionally approved and would have to meet the acceptance requirements to be eligible to enroll in the District.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. Unless the student's application was rejected due to the application not being timely received by both the resident and nonresident districts, a student whose application was rejected may request a hearing before the State Board of Education to reconsider the application. The request for a hearing must be submitted in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Transfers Out of the District

All Standard School Choice applications for transfers out of the District shall be granted.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences:

- The receiving district cannot be in facilities distress;
- The transfer is only available for the duration of the time the student's resident district remains in facilities distress;
- The student is not required to meet the May 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

Opportunity School Choice

Transfers Into or Within the District[9]

For the purposes of this section of the policy, a "lack of capacity"[9] is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the DESE Rules for the Standards for Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity[9] at the District's school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student may transfer from the student's assigned school to another school in the District[9] or from the student's resident district into the District if:

- Either:
  - The student's resident district has been classified by the state board as in need of Level 5 — intensive support; or
  - The student's assigned school has a rating of "F"; and

- Except for students who are transferring under Uniformed Service Member Dependents School Choice, the student's parent, guardian, or the student if the student is over eighteen (18) years of age has submitted an application of the student's request to transfer by no earlier than January 1 and no later than May 1 of the school year before the school year the student intends to transfer to both the sending and receiving school districts.

transferring under Uniformed Service Members Dependent School Choice or seeking to transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, and the student's resident district whether the Opportunity School Choice application has been accepted or rejected by no later than July 1 of the school year the student is seeking to enroll. If the student is seeking a transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected within fifteen (15) days from receipt of the student's application. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection.[121] Unless the student's application was rejected due to the application not being timely received by both the resident and nonresident districts, a parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via hand delivery or certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

Except for students who are transferring under Uniformed Service Member Dependent School Choice, a student's transfer under Opportunity School choice is effective at the beginning of the next school year and the student's enrollment is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity School Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.[2]

Transfers out of, or within, the District[9]

If a District school receives a rating of "F" or the District has been classified by the State Board as in need of Level 5 Intensive Support, the District shall timely notify parents, guardians, or students, if over eighteen (18) years of age, as soon as practicable after the school or district designation is made of all options available under Opportunity School Choice. The District shall

offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to submit an application to enroll the student in:

1. A school district that has not been classified by the State Board as in need of Level 5 Intensive Support; or
2. If there is more than one school within the District covering the grade level of the student seeking to transfer that does not have a rating of "F", a public school within the District that is nearest to the student's legal residence that does not have a rating of "F"; or
3. If there is not more than one school within the District covering the grade level of the student seeking to transfer that does not have a rating of "F", a public school that does not have a rating of "F" within a School district that has not been classified by the State Board as in need of Level 5 Intensive Support.

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.[3]

Uniformed Service Member Dependent School Choice

"Uniformed service member" means an active or reserve component member of the:

- United States Army, United States Navy, United States Air Force, United States Marine Corps, United States Space Force, or United States Coast Guard;
- National Oceanic and Atmospheric Administration Commissioned Officer Corps; or
- United States Commissioned Corps of the Public Health Service.

"Uniformed service veteran" means a former uniformed service member who has been discharged under conditions other than dishonorable.

A student shall be eligible for school choice under Uniformed Service Member Dependent School Choice if the student is a dependent of a:

- Uniformed service member in full-time active-duty status;
- Surviving spouse of a uniformed service member;
- Reserve component uniformed service member during the period six (6) months before until six (6) months after a Title 10, Title 32, or state active duty mobilization and service; or
- Uniformed service veteran who is returning to civilian status at the conclusion of the uniformed service veteran's active duty status.

A student's parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to the student shall submit a school choice application by mail, e-mail, or in person to the student's nonresident district and resident district. The application shall be accompanied by:

a. A copy of the identification card of the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis that qualifies the student under this section; and

b. A copy of the official orders, assignment notification, or notice of mobilization of the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The application deadline required under Standard School Choice and Opportunity School Choice shall not apply to uniformed service member dependents.

The superintendent of the nonresident district shall notify the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis of the student in writing whether the student's application has been accepted or rejected within fifteen (15) days of the nonresident district's receipt of the application. A student's transfer under the Uniformed Services Member Dependent School Choice is effective immediately upon the nonresident district's written notification of an acceptance.

A student shall be permitted only one (1) school transfer per academic year.

The parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to a student shall be responsible for transportation of the student.

Unsafe School Choice Program

Any student that becomes the victim of a violent criminal offense while in or on the grounds of a District school or who is attending a school classified by DESE as a persistently dangerous public school shall be allowed to attend a safe public school within the District.

Notes: [1] Select the version of the desegregation order that applies to your district.

[2] A.C.A. § 6-13-113 requires a district under a desegregation court order or court-approved desegregation plan to submit to DESE by January 1, 2016:

- A copy of the desegregation order or desegregation-related order;
- The case heading and case number of each court case in which the order was entered;
- The name and location of each court that maintains jurisdiction over the order; and
- A description of the school choice student transfer desegregation obligations, if any, that the school district is subject to, related to the order.

Should the district be released by the court, the district is responsible to promptly notify DESE. DESE will post all districts who have submitted the proper paperwork on its website.

In addition, A.C.A. § 6-18-1906 requires districts claiming an exemption based on a desegregation order/desegregation plan to submit documentation by January 1 of each year that contains the following:

- Documentation that the desegregation order or court-approved desegregation plan is still active and enforceable; and

- Documentation showing the specific language the school district believes limits its participation in Standard School Choice.

DESE will notify the district within thirty (30) calendar days of receipt of the submitted documentation whether or not it is required to participate in standard school choice. If DESE does not provide a written exemption to the district, then the district is required to participate in Standard School Choice. The district may submit a written petition to the State Board to review DESE's decision.

3 If your district doesn't meet the provisions of this paragraph, delete it and, for your master copy of the policy, renumber the remaining footnotes accordingly.

While the policy language requiring the district to notify its contiguous districts that it is exempt from the school choice provisions is not statutorily required, it is advocated by Commissioner's Memo Com-13-061 and we believe it is necessary if potential receiving districts are going to be able to intelligently inform parents who have applied to their school.

4 If the desegregation court order/court-approved desegregation plan your district is under would prohibit standard school choice but would not prohibit Opportunity School Choice, remove the references to Opportunity Choice in this paragraph and add the following sentence:
While the District's desegregation court order/court-approved-desegregation-plan exempts the District from the provisions of Standard School Choice, the District's desegregation court order/court-approved-desegregation-plan does not exempt it from the transfer provisions of the Arkansas Opportunity Public School Choice Act (Opportunity School Choice).

We advise districts to consult with their attorney about the district's desegregation court order/court-approved-desegregation-plan applicability to the exemption provisions in A.C.A. § 6-18-1906 and A.C.A. § 6-18-227 and whether you will need to include both, either, or neither policy provisions on standard School Choice or Opportunity School Choice in your final version of this policy.

5 For the Resolution, see Form 4.5F. There is no real flexibility in setting capacity as you can no longer take growth into account when setting slots for Standard School Choice. Districts may only deny a transfer if the transfer would place the district above the ninety percent (90%) maximum under law ~~or the student's resident district has reached its three percent (3%) cap~~. Your application of a lack of capacity must be consistent; you can't choose to add a teacher due to accepting a student, but refuse to add a staff member because the applicant requires special education.

Once the resolution has been made, the Board's role in determining acceptance is finished and no further board action is required to accept school choice students.

[6] The statute does not stipulate a date and you can choose your own, but it should give parents a reasonable opportunity to submit their application. While the statute gives districts a choice between advertising in print or on the Internet, it also doesn't prohibit advertising in both. To help inform parents before they try to apply so they will know in advance if it's actually a possibility that their child could be accepted, we suggest either including your capacity resolution in the public announcements or state where the resolution can be found.

[7] Consider the following about the timing of your acceptance of an application and why it's important to provisionally accept each application until the notification letter is returned to you:
The later you accept an application, the more confident you can be about accepting or denying based on capacity. (For example, have as many students as usual moved into your district and were they in the expected grade level patterns?) However, an earlier, **provisional**, acceptance, such as June 1, gives you more time to determine through the use of your acceptance notification letter whether the student's reality matches the information supplied on the application. For example, would the applicant have been held back in 3rd grade in the resident school and the parent is trying to keep that from happening by transferring. While you may have an opening in 4th grade (the grade the parent would have applied for), you may not have an opening in 3rd grade and so would need to deny the application once the paperwork was submitted.

Another example would be an application for a kindergarten choice transfer. When reviewing the completed paperwork, you discover the child is medically fragile and will require additional staff to meet the student's needs. Provisional acceptance gives you the time and opportunity to reconsider your acceptance and still meet the July 1 deadline.

[8] You are required to hold a hearing before the board of directors about the student's expulsion. (See A.C.A. § 6-18-510.) It is possible that the expulsion was for a disciplinary infraction that does not result in expulsion in your district. If this is the case, you have the choice of whether or not to admit the student under school choice due to the resident district's expulsion of the student, but you may **NOT** deny a student unless you hold a hearing.

[9] Only include "or within" if your district has more than one school with the same grade(s).

[0] The capacity standards under "Opportunity Choice" are slightly more strict than under "Standard Choice" standards and are limited to what is stated in the policy. Additionally, by Rule, you are required to base your decision on ninety-five (95%) of capacity at the time of the application with no provision for consideration of your district's normal growth. Just as with Standard School Choice, your application of a lack of capacity must be consistent; you can't choose to add a teacher due to accepting a student, but refuse to add a staff member because the applicant requires special education.

[1] The student or his/her parents may appeal to the State Board a decision to deny admission.

[2] Sending districts are required to spend up to four hundred dollars ($400) per year to transport the student. The statute and the Rules are unclear. They both state that receiving districts **may** transport opportunity choice students, but sending districts **shall** pay up to four hundred dollars ($400) per year to transport the student. The policy's language makes no attempt to settle the discrepancy. The financial responsibility of the transferring district goes away when the school no longer has a rating of "F" or the student's resident district is no longer classified by the state board as in need of Level 5 — intensive support. At that time the statute states that the receiving district may choose to pay for the transportation.

[3] Opportunity Choice does not give you the option contained in Standard Choice of advertising on the Internet in place of print media.

4.5F—SCHOOL CHOICE CAPACITY RESOLUTION

- The Board of Directors of the Lafayette County School District has approved by a vote of the Board, the following capacity resolution for school choice applicants for the __ school-year under the provisions of policy 4.5—SCHOOL CHOICE and applicable Arkansas law.

- Except for applicants who are transferring under Uniformed Service Member Dependent School Choice, applicants, whose applications meet the provisions of policy 4.5—SCHOOL CHOICE, will be sent a provisional acceptance notification letter which will give instructions on the necessary steps and timelines to enroll in the District. Provisional acceptance shall be determined prior to July 1 with a final decision to be made by July 1 based on the district's available capacity for each academic program, class, grade level, and individual school.

- Applications will not be accepted if the applications:
  - Are received, electronically timestamped, or postmarked before January 1, unless the application is from a student who is transferring under Uniformed Service Member Dependent School Choice;
  - Are received, electronically timestamped, or postmarked after May 1, unless the application is postmarked before May 1 or is from a student who is transferring under Uniformed Service Member Dependent School Choice;
  - Are to a student's resident district that has declared itself exempt due to an existing desegregation order; or
  - The student is transferring under Uniformed Service Member Dependent School Choice and the application is not accompanied by relevant documentation.

- The district reserves to itself the ability to determine, based on an examination of student records obtained from the prior district, and other information, whether any student would require a different class, course or courses, program of instruction, or special services than originally applied for. If such an examination determines that capacity has been reached in the appropriate class, course or program of instruction, or that additional staff would have to be hired for the applicant, the District shall rescind the original provisional acceptance letter and deny the Choice transfer for that student.

- The district reserves to itself the ability to decline to accept under school choice any student whose acceptance would require the district to add additional staff–to exceed the District's current grade, program, or building capacity.

THEREFORE, let it be resolved that these shall constitute the School Choice openings at the beginning of the School Choice enrollment period for the school-year ____.:

4.7—ABSENCES

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school, whether in person or digitally, is essential to their social and cultural development and helps prepare them to accept responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in synchronous digital courses shall be determined in the same manner as for District students attending courses in person.

Students may miss only 8 days per semester. No more than 4 of these being unexcused.

Excused Absences

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons the student's illness or when attendance could jeopardize the health of other students. A maximum of eight (8) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal. The student's illness or when attendance could jeopardize the health of other students. A maximum of eight (8) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.[2]

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of eight (8) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.[2]
2. Death or serious illness in their immediate family;[3]
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal;
7. Participation in an FFA, FHA, or 4-H sanctioned activity;[4]
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.

10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
11. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.[5]
12. Absences due to conditions related to pregnancy or parenting, including without limitation:
    - Labor, delivery, and recovery;
    - Prenatal and postnatal medical appointments and other medically necessary, pregnancy-related absences;
    - The illness or medical appointment of a child belonging to a parent who is enrolled at a District school;
    - A legal appointment related to pregnancy or parenting, including without limitation:
        - Adoption;
        - Custody; and
        - Visitation;
    - A reasonable amount of time to accommodate a lactating student's need to express breast milk or to breastfeed the student's child on the District's campus; and
    - At least ten (10) school days of absences for both a parenting mother and a parenting father after the birth of a child.[6]

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.[7]

Up to one (1) time during each scheduled election, a student shall not be considered absent from school for the time the student accompanies the student's parent when the parent is exercising the parent's right to vote in a scheduled election.

In order for the absence to be considered excused, the student must:

a. Bring a written statement to the principal or designee upon the student's return to school from the student's parent, legal guardian, or treating physician stating the reason for the student's absence; ~~or~~
b. If the student is attending the District's courses digitally, upload a written statement from the student's parent, legal guardian, or treating physician stating the reason for the student's absence through the District's digital course management platform for review by the principal or designee.; or
c. Provide documentation as proof of a student's participation in an activity or program scheduled and approved by the 4-H program that is provided by a 4-H

county extension agent, 4-H educator, or other appropriate entity associated with the 4-H activity or program.

A written statement presented or uploaded for an absence having occurred more than five (5) school days prior to its presentation or upload will not be accepted.

Unexcused Absences

Absences that are not defined above; do not have an accompanying note from the parent, legal guardian, person having lawful control of the student, ~~or~~ person standing in loco parentis, the student's treating physician, or a 4-H county extension agent, 4-H educator, or other appropriate entity associated with the 4-H activity or program; or have an accompanying note that is not presented or uploaded within the timeline required by this policy shall be considered as unexcused absences. Students with (*4*)[6]8 unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the unexcused absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has (*2*) unexcused absences, his/her parents, legal guardians, persons with lawful control of the student, or persons standing in loco parentis shall be notified[9]. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds (*4*) unexcused absences in a semester, the District shall notify the prosecuting authority and the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of unexcused absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may petition the school or district's administration for special arrangements to address the student's unexcused absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student; the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis; and the school or district administrator or designee.[10]

Students who attend in-school suspension shall not be counted absent for those days.[11]

Days missed due to out-of-school suspension or expulsion shall be unexcused absences.[11]

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

Notes: If your district's penalties for absences include an impact on the student's grades, it is important to note that A.C.A. § 9-28-113(f) prohibits the lowering of grades of foster children for absences due to 1) a change in the student's school enrollment; 2) the student's attendance at a court ordered dependency-neglect court proceeding; or 3) the student's attendance at court-ordered counseling or treatment.

[1] If you have asynchronous digital courses in addition to or in place of synchronous digital courses, you will need to add to or replace this paragraph with the manner you will use to determine a student's attendance in such classes. The exact manner you use to determine the student's attendance will depend on the options within the digital course platform you are using. Be sure to note that a student who is taking an asynchronous course but who was assigned a class period during the school day for the course may be considered truant under your discipline policies for failure to be physically were they are assigned to be but would not be considered absent for the digital course itself if the student satisfied the attendance requirements for the asynchronous digital course.

[2] Limiting the number of excused absences for illness is an option which you can choose to include or not include. The number of absences can be changed as you feel appropriate.

[3] Your board may want to define the meaning of "immediate family." One source for a definition is A.C.A. § 6-17-1202.

[4] A.C.A. § 6-18-220 requires that a student be given an excused absence for attending a 4-H activity even if your district does not have a FFA or FHA program.

[5] The law is silent on how to treat absences for students excluded from school in this manner. While you may elect to have such absences treated as unexcused absences, we do not recommend doing so due to the truancy requirements and

the potential for a student to not be able to make up homework based on the language in Policy 4.8—MAKE-UP WORK.

[6] A.C.A. § 6-18-234 exempts the student parent from being dropped from the district enrollment for being absent for more than ten (10) consecutive days when the absences are related to pregnancy or the birth of the student's child.

[7] Statutorily, the day the student serves as a page cannot be counted as an absence, but the school may grant additional days (such as for travel time) in conjunction with the day as a page that would also not be counted as absences. The choice is up to the district.

[8] A.C.A. § 6-18-222(a)(1)(A)(i) requires school boards to adopt an attendance policy that includes a "certain number" of excessive unexcused absences. The code leaves the specific number up to the individual board's discretion. The number your board chooses determines the number of absences that triggers the notices being sent to the student's parents.

[9] If your district has a Community Truancy Board as defined in A.C.A. § 6-18-225 & 226, notification will also need to be sent to the chairman of the truancy board. The truancy board will then need to proceed as defined by A.C.A. § 6-18-222(a)(4)(A).

[10] Students are specifically permitted to initiate the agreement on their own; their parents may be unavailable or unwilling to meet with the administration.

[11] The statutes are silent on whether in-school-suspensions shall count as absences. You can choose to amend this sentence and make either or both forms of suspension count as unexcused absences. In making your decision, we suggest you consider the number of days of allowable unexcused absences you have chosen for this policy, the lower the number, the greater the consequences for including an in-school-suspension as an unexcused absence. A.C.A. § 6-18-507(g) requires districts to note on each student's attendance record if the student's absence was due to an out-of-school suspension.

4.8—MAKE-UP WORK

Students who miss school due to an excused absence shall be allowed to make up the work they missed during their absence under the following rules:[1]

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up. Elementary staff are to provide missed assignments when they return to school.
2. Teachers are responsible for providing the missed assignments when asked by a returning student. Elementary teachers must provide the missed assignments to student.
3. Students are required to ask for their assignments on their first day back at school or their first class day after their return. Elementary teachers are required to give missed assignments on their first day back at school or their first class day after their return.
4. Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.
5. Students shall have one class day to make up their work for each class day they are absent. [3]
6. Make-up work which is not turned in within the make-up schedule for that assignment shall receive a zero.[4]
7. Students are responsible for turning in their make-up work without the teacher having to ask for it. Elementary staff is responsible for collecting students assignments.
8. Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.
9. As required/permitted by the student's Individual Education Program or 504 Plan.

Work may not be made up for credit for unexcused absences **unless** the unexcused absences are part of a signed agreement as permitted by policy 4.7—ABSENCES.[5]

Work for students serving an out-of-school suspension or expulsion shall be in accordance with the District's programs, measures, or alternative means and methods to continue student engagement and access to education during the student's period of suspension or expulsion.

In lieu of the timeline above, assignments for students who are excluded from school by the Arkansas Department of Health during a disease outbreak are to be made up as set forth in Policy 4.57—IMMUNIZATIONS.

In addition to the make-up work process above, at the conclusion of a pregnancy-related or parenting-related period of absence, a student may choose from various options to make up missed work, including without limitation:

a. Retaking a semester at the District school where the student is enrolled;
b. Participating in an online course credit recovery program;
c. Being granted six (6) weeks to continue at the same pace and finish the semester at a later date, provided that the student may:

- Complete the student's coursework within the current school year; or
- Attend previously scheduled summer school classes made available by the District Where the student is enrolled; and

d. Receiving home-based instruction services.

Notes: [1] Your district has the right to require students to make up work for both excused and unexcused absences; requiring work to be made up for all absences could serve as a deterrent for unexcused absences.

[2] This sentence should be modified for elementary school classes.

[3] Select the number of days your district deems reasonable and feasible.

[4] Your district may choose to adopt a different schedule such as docking the work a certain percentage for each day it is late.

[5] The contents of this paragraph are optional and can be adjusted to the extent it remains aligned with your personalization of policy 4.7. While the law requires that students be provided an opportunity and a process to maintain education services during the student's suspension or expulsion, whether or not a student receives credit for assignments as part of this process is dependent on the student completing the work and on whether or not you have adopted specific language prohibiting the student from receiving credit.

[6] The program and method(s) you provide for students to maintain their educational opportunity should be in accordance with the requirements from Policy 4.30 and Policy 4.31.

4.9—TARDIES

Promptness is an important character trait that District staff is to encourage to model and help develop in our schools' students. At the same time, promptness is the responsibility of each student. Students who are late to class show a disregard for both the teacher and their classmates which compromises potential student achievement.

Offenses:
1st Tardy – Warning with parent contact.
2nd Tardy – Warning with parent contact.
3rd Tardy – lunch detention
4th Tardy – 3 days lunch detention
5th Tardy – 5 days lunch detention

4.10—CLOSED CAMPUS

All schools in the District shall operate closed campuses. Students are required to stay on campus from their arrival until dismissal at the end of the regular school day, unless given permission to leave the campus by a school official. Students must sign out in the office upon their departure.

4.11—EQUAL EDUCATIONAL OPPORTUNITY

No student in the Lafayette County School District shall, on the grounds of race, color, religion, national origin, sex, sexual orientation, gender identity, age, or disability be excluded from participation in, or denied the benefits of, or subjected to discrimination under any educational program or activity sponsored by the District. The District has a limited open forum granting equal access to the Boy Scouts of America and other youth groups.

Inquiries on non-discrimination may be directed to the Federal Programs/Curriculum Coordinator, who may be reached at:
andersono@lcs.k12.ar.us
725 Chestnut Street Lewisville, AR
and/or 870-921-5094.

Any person may report sex discrimination, including sexual harassment, to the Title IX Coordinator in person or by using the mailing address, telephone number, or email address provided above. A report may be made at any time, including during non-business hours, and may be on the individual's own behalf or on behalf of another individual who is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment.

For further information on notice of non-discrimination or to file a complaint, visit https://www2.ed.gov/about/offices/list/ocr/complaintintro.html; for the address and phone number of the office that serves your area, or call 1-800-421-3481.

Notes: A copy of this non-discrimination notification should be included in all district publications to students and parents.

[1] A.C.A. § 6-10-132 requires that youth patriotic societies, such as the Boy Scouts of America, be provided access to students during the school day; as a result, all districts now have a limited open forum and are required to provide the same access to groups who follow the procedure set forth in the statute to request access to students regardless of the groups viewpoint.

[2] Insert the position(s) designated to be contacted on discrimination inquiries. If you have different positions designated to answer questions on disability discrimination (504 coordinator) and sex discrimination (Title IX coordinator), then you will need to include the position responsible for each area. Do not include the name(s) of the person(s) to be contacted in the policy; changing the name of the person (due to a staffing change) would necessitate amending the policy, which would require it to go through the entire adoption process.

[3] Insert the office address, phone number, and email address to be used to contact the designated position. If you have more than one position designated as set forth in footnote 2, you will need to include a contact number, email address, and office address for each position. The contact number and office address may be the school/district address and phone number. We recommend making the email address specific to the position, such as titleix@districtdomain.org, and having the emails sent to the coordinator's inbox to prevent having to amend the policy due to staff changes.

While 34 C.F.R. § 106.8 requires that an individual be able to submit a report, including by

telephone, both inside and outside of business hours, we do not believe that this requires that the Title IX Coordinator must be on-call to receive phone calls at any time; instead, the number provided for individuals to use must allow individuals wanting to report sexual discrimination or sexual harassment to the Title IX Coordinator to be able to leave a voice message for the Title IX Coordinator.

4.12—STUDENT ORGANIZATIONS/EQUAL ACCESS

Non-curriculum-related secondary school student organizations wishing to conduct meetings on school premises during noninstructional time shall not be denied equal access on the basis of the religious, political, philosophical, or other content of the speech at such meetings. Such meetings must meet the following criteria.

1. The meeting is to be voluntary and student initiated;
2. There is no sponsorship of the meeting by the school, the government, or its agents or employees;
3. The meeting must occur during noninstructional time;
4. Employees or agents of the school are present at religious meetings only in a nonparticipatory capacity;
5. The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
6. Nonschool persons may not direct, conduct, control, or regularly attend activities of student groups.

All meetings held on school premises must be scheduled and approved by the principal. The school, its agents, and employees retain the authority to maintain order and discipline, to protect the wellbeing of students and faculty, and to assure that attendance of students at meetings is voluntary.

Fraternities, sororities, and secret societies are forbidden in the District's schools. Membership to student organizations shall not be by a vote of the organization's members, nor be restricted by the student's race, religion, sex, national origin, or other arbitrary criteria. Hazing, as defined by law, is forbidden in connection with initiation into, or affiliation with, any student organization, extracurricular activity or sport program. Students who are convicted of participation in hazing or the failure to report hazing shall be expelled.

4.12.1 LCSD Service Learning Student Supervision and Safety Policy

Student safety and supervision are of the utmost importance of Lafayette County School District. The following guidelines have been established to provide students with a safe and proper environment for their service learning experiences.

1. It is required that the service learning site provides adult supervision and guidance for the student at all times.
2. Students should be clear as to their responsibilities, and to whom at the service learning site they are to report.
3. Students may not handle monetary transactions nor collect pledges.
4. Students may not participate in any activity involving the use of dangerous or potentially dangerous tools and/or equipment. Hazardous areas are dangerous and unsuitable for student learners. Under no circumstances will students perform their service learning in an area that involves dangerous activities.
5. Each student will be assigned responsibilities and activities consistent with his/her age, experience and maturity level.
6. Students may not operate a motor vehicle while performing service learning. The service learning site will not assign and/or allow students to drive while engaged in the service learning experience. Students may not transport individuals in a motor vehicle as part of their service learning experience. (This does not include transportation to and from the service learning site.)
7. Students will not be expected to participate in service learning activities at either unreasonably early or late hours of the day or evening.
8. Students engaged in clinical, medical, hospital or related settings will not attend to any duties resulting in exposure to fluids, excretions, or contaminations known to be harmful, contagious, or injurious.
9. The service learning site may not allow students to participate in service without the expressed written consent of both the parent/guardian and the school Service Learning Coordinator and /or Principal.
10. In case of injury or illness, the service learning site will notify, as per the medical release information on the Service Learning Agreement Form and/or the Student Emergency Contact Information Form.

Liability

Lafayette County School District shall not be liable for any injuries unless directly caused by the District and unless the District would otherwise be liable under applicable law. If a student becomes ill or injured at a service site, the student's primary insurance will be responsible for all medical treatment. The school's insurance will be secondary. If a student becomes ill or injured at the site, the service learning site coordinator and/or school sponsor/service learning coordinator will attempt to notify the student's parent or legal guardian. If a student becomes seriously ill or is injured while participating in a service learning project/activity and the parent cannot be contacted, the failure to make such contact shall not unreasonably delay the service learning site coordinator and/or school sponsor/ service learning coordinator expeditious transport of the student to an appropriate medical facility. The school assumes no responsibility for treatment of student.

.

Medical Release Information
Each parent must complete an Emergency Medical Release Form prior to any student participating in a service learning project. In case of emergency, the parent or their designee must be contacted. If the parent or designee cannot be reached, the Medical Release information allows for the transportation and treatment of the student.

Transportation
Transportation to and from a service learning site will be the responsibility of the student, and or parent. Some school-based group projects may allow for the district bus transportation with the approval of the Service Learning Coordinator and Principal.

Discipline
Students are to maintain the high level of behavior that is expected of all Lafayette County High School students. Students come under the jurisdiction of all LCSD discipline policies. Service Learning is a school sponsored program, and all school rules apply.

Any high school student in grades 9-12 who fails to meet his obligations, including absences and tardiness, or who fails to perform in an acceptable manner may be removed from the service learning experience. In the event of dismissal of any student in grades 9-12, the service learning site coordinator and/or the service learning school coordinator and /or principal may elect to withhold hours. Dismissal of any student from a service learning site/activity may warrant an office referral. Students with continual behavior difficulties at service learning sites/activities may be dismissed from participating in any other service learning activity/project.

Falsifying Documents
Falsifying service learning documents will result in an office referral and appropriate discipline as per the Student Handbook Discipline Policy.

4.13—PRIVACY OF STUDENTS' RECORDS/ DIRECTORY INFORMATION

Except when a court order regarding a student has been presented to the district to the contrary, all students' education records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of eighteen (18), the right to inspect and copy a student's records transfers to the student. A student's parent or the student, if over the age of 18, requesting to review the student's education records will be allowed to do so within no more than forty-five (45) days of the request. The district forwards education records, including disciplinary records, to schools that have requested them and in which the student seeks or intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The district shall receive written permission before releasing education records to any agency or individual not authorized by law to receive and/or view the education records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interests. A personal record kept by a school staff member is **not** considered an education record if it meets the following tests.

- it is in the sole possession of the individual who made it;
- it is used only as a personal memory aid; and
- Information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

For the purposes of this policy a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without getting prior consent of the parent (or the student if the student is over eighteen (18)). For the District to release the student's PII without getting permission:

- The student must be in foster care;
- The individual to whom the PII will be released must have legal access to the student's case plan; and
- The Arkansas Department of Human Services, or a sub-agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses PII from an education record to appropriate parties, including parents, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release PII in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For purposes of this policy, the Lafayette County School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the district to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file-marked copy of such order to the building principal and the superintendent. The school will make good-faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parents or guardians, their attorneys and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, disciplinary rulings, disability placements, or other such determinations, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will be provided information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of eighteen [18]) objects, "directory information" about a student may be made available to the public, military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbooks and graduation announcements. "Directory information" includes, but is not limited to, a student's name, address, telephone number, electronic mail address, photograph, date and place of birth, dates of attendance, his/her

placement on the honor role (or the receipt of other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "Directory information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and a student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password or other factor known or possessed only by the authorized user.

A student's name and photograph will only be displayed on the district or school's web page(s) after receiving the written permission from the student's parent or student if over the age of 18.

The form for objecting to making directory information available is located in the back of the student handbook and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The district is required to continue to honor any signed-opt out form for any student no longer in attendance at the district.

The right to opt out of the disclosure of directory information under Family Educational Rights and Privacy Act (FERPA) does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled.

Parents and students over the age of 18 who believe the district has failed to comply with the requirements for the lawful release of student records may file a complaint with the U.S. Department of Education (DOE) at

Student Privacy Policy Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

The District shall ensure that all contracts that disclose or make available student personally identifiable information to vendors, including school service contract providers, school service on-demand providers, and other third parties, including without limitation subcontractors of contract providers, include express provisions that safeguard the privacy and security of student personally identifiable information that meet the requirements under A.C.A. § 6-18-2601 et seq. The District shall maintain a list of the school service contract providers that the District contracts with for school services that include or make available student personally identifiable information. The list shall be updated at least once at the beginning of each semester and provided to parents upon request.

Notes: With very few exceptions, Health Insurance Portability and Accountability Act (HIPAA) privacy requirements don't apply to public K-12 schools and, for that reason, ASBA has no model policy addressing HIPAA. An excellent explanation of the relation between FERPA and HIPAA is available at https://www.arsba.org/page/policy-resources.

Districts must annually notify parents or students if over the age of eighteen (18) of the provisions of this policy and "…shall effectively notify parents who have a primary or home language other than English." (34 CFR 99.7(b)(2)

Districts may release directory information (DI) (as presently defined by the district) of former students to the extent there is not a signed prohibition against such release. As the definition of DI changes over time (for example, the addition of email addresses to the definition of DI), districts may release DI according to the current definition. It also applies to the release of information that is now defined as DI for students who left the district prior to 1974, when there was no such thing as DI.

As stated in this policy, once a student turns eighteen (18), the rights to his/her educational records transfers to the student. The release of educational records to a parent becomes permissive and not a right. At that point, the school gets to decide if it wants to release educational records to parents. The student, however, doesn't have the right to object one way or the other. If the parents don't establish dependency, once the student turns eighteen (18), the parents don't have an absolute **right** to see their student's educational records. "Dependency" in this regard is defined according to the IRS; if the student is claimed by either of their parents (regardless of custody issues, or filing jointly or separately) as a dependent, then the rights of the parent once the student turns eighteen (18) is as described. Without dependency, the parents have no right to see their student's educational records once the student turns eighteen (18).

There are several areas of permissible release of students' PII that are not mentioned in this policy (it's not required and would make the policy very long), but that are listed in 34 CFR § 99.31. One of the areas that has been greatly elaborated on in the DOE Rules, released 12/2/11, relates to the district's release of PII to an "authorized representative" for the purpose conducting an audit or evaluation of federal or state education programs. This new area is covered in 34 CFR 99.35. Both documents are available by calling the ASBA office and requesting a copy. They could come in handy when answering parents' questions regarding the release of PII.

The Arkansas Supreme Court, Division of Elementary and Secondary Education, and ASBA collaborated in the creation of a form in an effort to aid juvenile intake and probation officers in acquiring necessary information for the officer to make more knowledgeable decisions/recommendations on a course of action for each juvenile's case. The Form allows for parents to authorize the officer to access certain portions of the student's education records and the parent's ESchool PLUS Home Access Center. The form, when completed by the parent and probation officer, will be sent to the district by

the officer. A copy of the form, along with a background letter, may be found at https://www.arsba.org/page/policy-resources.

[1] You may choose a lesser number of days, but you may not exceed forty-five (45) days.

[2] This paragraph along with the preceding paragraph are added (and permitted) due to the amendments in the Code of Federal Regulations resulting from the Virginia Tech shootings in 2007. The paragraph can also apply to the release of PII to state health officials during outbreaks of communicable diseases. This would apply, for example, to immunization records to determine which students need to be removed from the school. (See Policy 4.34).

[3] The requirements for conducting a hearing are addressed in 34 CFR § 99.22. The district's obligations regarding the results of the hearing are covered in 34 CFR § 99.21. Both are available by calling the ASBA office and requesting a copy.

[4] The 12/2/11 DOE Rules now provide districts with the option of greater specificity in choosing to whom it will release DI. ASBA has not amended the model policy to include this expanded option because we feel it can result in unintentional restrictions for desired release of DI. The following is the language from 34 CFR § 99.37 governing this option:

> *In its public notice to parents and eligible students in attendance, … an educational agency or institution may specify that disclosure of directory information will be limited to specific parties, for specific purposes, or both. When an educational agency or institution specifies that disclosure of directory information will be limited to specific parties, for specific purposes, or both, the educational agency or institution must limit its directory information disclosures to those specified in its public notice.*

[5] Dates of attendance means the period of time during which a student attends or attended your district, e.g. an academic year or semester. It does not mean specific daily records of attendance.

[6] This paragraph is language from the amended 34 CFR § 99.37 and is included to help eliminate the potential problem of a student (who is in a class where the student really doesn't want to be - for example JAG), who has opted out of release of DI, refusing to give the information necessary for the class.

Notes: With very few exceptions; Health Insurance Portability and Accountability Act (HIPAA) privacy requirements don't apply to public K-12 schools and, for that reason, ASBA has no model policy addressing HIPAA. An excellent explanation of the relation between FERPA and HIPAA is available at https://arsba.org/policy-resources.

Districts must annually notify parents or students if over the age of 18 of the provisions of this policy and "…shall effectively notify parents who have a primary or home language other than English." (34 CFR 99.7(b)(2)

Districts may release directory information (DI) (as presently defined by the district) of former students to the extent there is not a signed prohibition against such release. As the definition of DI changes over time (for example, the addition of email addresses to the definition of DI), districts may release DI according to the current definition. It also applies to the release of information that is now defined as DI for students who left the district prior to 1974, when there was no such thing as DI.

As stated in this policy, once a student turns 18, the rights to his/her educational records transfers to the student. The release of educational records to a parent becomes permissive and not a right. At that point, the school gets to decide if it wants to release educational records to parents. The student, however, doesn't have the right to object one way or the other. If the parents don't establish dependency, once the student turns 18, the parents don't have an absolute **right** to see their student's educational records. "Dependency" in this regard is defined according to the IRS; if the student is claimed by either of their parents (regardless of custody issues, or filing jointly or separately) as a dependent, then the rights of the parent once the student turns 18 is as described. Without dependency, the parents have no right to see their student's educational records once the student turns 18.

4.13F—OBJECTION TO PUBLICATION OF DIRECTORY INFORMATION

(Not to be filed if the parent/student has no objection)

I, the undersigned, being a parent of a student, or a student eighteen (18) years of age or older, hereby note my objection to the disclosure or publication by the Lafayette County School District of directory information, as defined in Policy No. 4.13 (Privacy of Students' Records), concerning the student named below. The district is required to continue to honor any signed opt-out form for any student no longer in attendance at the district.

I understand that the participation by the below-named student in any interscholastic activity, including athletics and school clubs, may make the publication of some directory information unavoidable, and the publication of such information in other forms, such as telephone directories, church directories, *etc.*, is not within the control of the District.

I understand that this form must be filed with the office of the appropriate building principal within ten (10) school days from the beginning of the current school year or the date the student is enrolled for school in order for the District to be bound by this objection. Failure to file this form within that time is a specific grant of permission to publish such information.

I object and wish to deny the disclosure or publication of directory information as follows:

Deny disclosure to military recruiter's ____

Deny disclosure to Institutions of postsecondary education ____

Deny disclosure to Potential employer's ____

Deny disclosure to all public and school sources ____

Selecting this option will prohibit the release of directory information to the three categories listed above along with all other public sources (such as newspapers), **AND** result in the student's directory information **not** being included in the school's yearbook and other school publications.

Deny disclosure to all public sources ____

Selecting this option will prohibit the release of directory information to the first three categories listed above along with all other public sources (such as newspapers), but permit the student's directory information **to be included** in the school's yearbook and other school publications.

4.14—STUDENT MEDIA AND THE DISTRIBUTION OF LITERATURE

The Superintendent and the student media advisors(s)[1] shall jointly develop administrative regulations for the implementation of this policy. The regulations shall include definitions of terms and the time(s), place(s), and manner(s) of the dissemination of student media, which shall include timelines for the review of materials.

Definitions

"School-sponsored media" means all student media that are:

- Supported financially by the school;
- Supported by the use of school facilities; or
- Produced in conjunction with a class.

"Student journalist" means a student who gathers, writes, edits, photographs, records, video tapes, or prepares information for dissemination in student media.

"Student media" means any means of communication that are:[2]

- Prepared, substantially written, published, or broadcasted by a student;
- Distributed or generally made available, either free of charge or for a fee, to members of the student body; and
- Prepared under the direction of a student media advisor.

"Student media" does not include media that is intended for distribution or transmission solely in the classroom in which it is produced.

"Student media advisor" means an individual who is employed, appointed, or designated by the District to supervise or provide instruction with respect to student media.

Student Media

While the District recognizes a student's right of expression under the First Amendment of the Constitution of the United States, school-sponsored media does not provide an open public forum for public expression. Student media, as well as the content of student expression in school-sponsored activities, shall be subject to the editorial review of the District's administration, whose actions shall be reasonably related to legitimate pedagogical concerns and adhere to the following limitations:

1. Advertising may be accepted for media that does not condone or promote products that are inappropriate for the age and maturity of the audience or that endorses such things as tobacco, alcohol, or drugs.
2. Media may be regulated to prohibit communications determined by the appropriate teacher, student media advisor, and/or administrator to be ungrammatical; poorly written; inadequately researched; biased or prejudiced; vulgar or profane; or unsuitable for immature audiences.
3. Media may be regulated to prohibit the dissemination of material that may reasonably be perceived to advocate drug or alcohol use; irresponsible sex; conduct that is otherwise

inconsistent with the shared values of a civilized social order; or to associate the school with any position other than neutrality on matters of political controversy.

4. Prohibited media includes those that:
   a. Are obscene as to minors;
   b. Are libelous or slanderous, including material containing defamatory falsehoods about public figures or governmental officials, and made with knowledge of their falsity or a reckless disregard of the truth;
   c. Constitute an unwarranted invasion of privacy as defined by state law;
   d. Suggest or urge the commission of unlawful acts on the school premises;
   e. Suggest or urge the violation of lawful school regulations;
   f. Scurrilously attacks ethnic, religious, or racial groups; or
   g. Harass, threaten, or intimidate a student.

Student Media on School Web Pages

Student media displayed on school web pages shall follow the same guidelines as listed above and shall also:

1. Not contain any non-educational advertisements;
2. Adhere to the restrictions regarding use of Directory Information as prescribed in Policy 4.13 including not using a student's photograph when associated with the student's name unless written permission has been received from the student's parent or student if over the age of eighteen (18);
3. State that the views expressed are not necessarily those of the School Board or the employees of the district.

Student Distribution of Non-school Literature, Publications, and Materials

A student or group of students who distribute ten (10) or fewer copies of the same non-school-sponsored literature, publications, or materials shall do so in a time, place, and manner that does not cause a substantial disruption of the orderly education environment. A student or group of students wishing to distribute more than ten (10) copies of non-school-sponsored materials [3] shall have school authorities[4] review their non-school-sponsored materials at least three (3) school days[4] in advance of their desired time of dissemination. School authorities shall review the non-school-sponsored materials, prior to their distribution and will bar from distribution those non-school-sponsored materials that are obscene, libelous, pervasively indecent, or advertise unlawful products or services. Material may also be barred from distribution if there is evidence that reasonably supports a forecast that a substantial disruption of the orderly operation of the school or educational environment will likely result from the distribution.[6] Concerns related to any denial of distribution by the principal shall be heard by the superintendent, whose decision shall be final.

The school principal or designee shall establish reasonable regulations governing the time, place, and manner of student distribution of non-school-sponsored materials. The regulations shall:

1. Be narrowly drawn to promote orderly administration of school activities by preventing disruption and may not be designed to stifle expression;
2. Be uniformly applied to all forms of non-school-sponsored materials;

3. Allow no interference with classes or school activities;
4. Specify times, places, and manner where distribution may and may not occur[7]; and
5. Not inhibit a person's right to accept or reject any literature distributed in accordance with the regulations.[8]

Students shall be responsible for the removal of excess literature that is left at the distribution point for more than 2 days.[9]

Notes: The goal of the footnotes are to assist principals in the implementation and enforcement of the policy by trying to improve the identification of the parameters of the policy. While the footnotes are not intended to be included in the distributed version of the policy, they should be helpful in adapting the policy for inclusion in the student handbook.

In accordance with A.C.A. § 6-18-1203, expression made by a student journalist in student media is not the expression of a school district's policy and school district officials and members of the school district board of directors are not to be held responsible in any civil or criminal action for any expression made or published by a student journalist in student media unless the individual interfered with, altered, or made substantial decisions with respect to the content of the student expression.

[1] In addition to being included in reviewing any amendments to the regulations resulting from this policy, A.C.A. § 6-18-1202 and Policy 1.9 require that the student media advisors are included when reviewing any proposed updates to this policy.

[2] When developing your regulations, be sure to include provisions for all of the different school-sponsored dissemination methods your district makes available to your student journalists. The procedures should be sure to align with the timelines and methods from the course(s) relevant to the dissemination method (print publication, posted to district site, covered in district television broadcast, etc.)

[3] You may change this number, but the inclusion of a number below which prior inspection is not required permits the exchange of such items as personal notes between students, CDs, party invitations, or birthday cards. The review requirement also applies to materials distributed at extracurricular events that are not intended primarily for adults.

[4] Consider naming the specific school authority (i.e. Superintendent, assistant superintendent, etc.) responsible for the review.

[5] You may change this length of time to suit your district, but it may not exceed three (3) days without putting the district at risk of facing a legal challenge that you are inhibiting free speech.

[6] While you can prohibit material for the stated reasons, you may not do so merely because it contains a controversial message or content the district disagrees with.

[7] The time, place, and manner of distribution may vary by the age of the students attending the school. For example, elementary schools may wish to have more narrowly tailored times and places for the distribution and restrict how the materials are made available. It is more difficult for elementary students to tell the difference between school-sponsored and non-school-sponsored materials, which could affect who would be appropriate distributors of the materials. Schools also have the option of putting up a notice at the distribution site such as a designated table in a foyer or hallway that the materials do not represent the viewpoint of the school. You might also choose to add a qualifier permitting the principal to impose additional requirements when deemed appropriate to avoid disruption, congestion, or other problems that could be associated with the distribution.

[8] Students are not to be coerced into taking non-school-sponsored materials.

[9] If you choose to include this optional sentence, select a reasonable amount of time for any specific item to be available at one stretch. Some materials could conceivably be appropriately left for distribution for significantly longer periods of time than other materials. You may also choose to add an additional sentence requiring the student(s) who distribute the materials to be responsible for picking up any materials thrown on school grounds.

4.15—CONTACT WITH STUDENTS WHILE AT SCHOOL

CONTACT BY PARENTS

Parents wishing to speak to their children during the school day shall register first with the office.

CONTACT BY NON-CUSTODIAL PARENTS

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered "no contact" or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file-marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date-stamped copy of current court orders granting unsupervised visitation may eat lunch, volunteer in their child's classroom, or otherwise have contact with their child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property on normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

CONTACT BY LAW ENFORCEMENT, SOCIAL SERVICES, OR BY COURT ORDER

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen (18) years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, legal guardian,

person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

Contact by Professional Licensure Standards Board Investigators

Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

4.17—STUDENT DISCIPLINE

The Lafayette county School Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs:

At any time on the school grounds;
Off school grounds at a school sponsored function, activity, or event; and
Going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to: a felony or an act that would be considered a felony if committed by an adult; an assault or battery; drug law violations; or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.[1]

The District shall incorporate the District's implementation of positive behavioral supports in accordance with Policy 4.60 in the application of student discipline.

The District's personnel policy committees shall annually review the District's student discipline policies, including State and District student discipline data, and may recommend changes in the policies to the Lafayette County School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall sign and return to the school an acknowledgement form documenting that they have received the policies.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion.

The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall

Inform the Board of Directors of any such report made to law enforcement.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

Note: [1] To satisfy a student's due process rights, for events both on and off campus, make sure that all special education requirements are met when those requirements apply.

Students are expected to display appropriate behavior during virtual online sessions and when participating in online discussions. Failure to follow the code of conduct as outlined in the student handbook may result in the student having to return to campus for on-site instruction.

4.18—PROHIBITED CONDUCT

Students and staff require a safe and orderly learning environment that is conducive to high student achievement. Certain student behaviors are unacceptable in such an environment and are hereby prohibited by the Board. Prohibited behaviors include, but shall not be limited to the following:

1. Disrespect for school employees and failing to comply with their reasonable directions or otherwise demonstrating insubordination;
2. Disruptive behavior that interferes with orderly school operations;
3. Willfully and intentionally assaulting or threatening to assault or physically abusing any student or school employee;

10. Inappropriate public displays of affection;
11. Cheating, copying, or claiming another person's work to be his/her own;
12. Gambling;
13. Inappropriate student dress;
14. Use of vulgar, profane, or obscene language or gestures;
15. Truancy;

17. Engaging in behavior designed to taunt, degrade, or ridicule another person on the basis of race, ethnicity, national origin, sex, sexual orientation, gender identity, or disability;
18. Possess, view, distribute or electronically transmit sexually explicit or vulgar images or representations, whether electronically, on a data storage device, or in hard copy form;
19. Hazing, or aiding in the hazing of another student;
20. Gangs or gang-related activities, including belonging to secret societies of any kind, are forbidden on school property. Gang insignias, clothing, “throwing signs” or other gestures associated with gangs are prohibited;
21. Sexual harassment;
22. Bullying;
23. Operating a vehicle on school grounds while using a wireless communication device; and
24. Theft of another individual’s personal property.
25. Students are not to sell merchandise on school property unless it is approved by the school principal.

The Board directs each school in the District to develop implementation regulations for prohibited student conduct consistent with applicable Board policy, State and Federal laws, and judicial decisions.

4.24—DRUGS AND ALCOHOL

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. Their use is illegal, disruptive to the educational environment, and diminishes the capacity of students to learn and function properly in our schools.

Therefore, no student in the Lafayette County School District shall possess, attempt to possess, consume, use, distribute, sell, buy, attempt to sell, attempt to buy, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. 4.24.1—CHEMICAL SCREEN/TEST

The Lafayette County School District recognizes that chemical abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual. The Lafayette County Board of Education is determined to help students by providing another option for them to say "No". Chemical abuse includes, but is not limited to, the use of illegal drugs, alcohol, and the misuse of legal drugs and medications.

Purpose of a Chemical Abuse Policy

1. To inform students of Lafayette County School District that the school is concerned about their total well being. The School District is interested in helping students who may be having problems.

2. To emphasize concerns for the health of student in areas of safety while they are participating in activities as well as the long-term physical and emotional effects of chemical use on their health.

3. To confirm and support state laws which restrict the use of such mood-altering chemicals.

4. To assist students of Lafayette County Schools to resist the peer pressure that directs them toward the abuse or misuse of chemical substances.

5. To establish standards of conduct for students of Lafayette County Schools who are considered leaders among their peers.

6. To work cooperatively with parents by assisting them in keeping their children free from mood-altering chemicals.

7. To assist students by providing counseling and by giving parents information of other resources.

8. To deter chemical abuse or misuse by all students through the use of random drug testing.

Scope

The provisions of this policy apply to students in Lafayette County Schools in grades seven through twelve. The proposed policy would require all students who participate in extracurricular activities or have a parking permit to be subject to random drug testing. No student will be allowed to participate in any school activity (*any activity outside the regular curriculum whether it is during the school day or out) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal or designee. Positive screening results are kept for a maximum of two years or as long as the student is enrolled in the District.

Definition

Illegal Drugs are defined as any substance, including alcohol, considered illegal by Arkansas Statues or which is controlled by the Food and Drug Administration unless prescribed by a licensed physician.

Refusal to Consent to Testing
Students not consenting to be tested (in the random pool) are allowed to join clubs or organizations but are not allowed to attend after school meetings, participate in any activities, or park on campus.

Refusal to Submit to Testing
Any participant who refused to submit to random drug testing and/or retesting is considered having tested positive.

Testing Procedure
All test results from the laboratory will be communicated to the Superintendent or designee. All urine specimens will be taken at a designated restroom. Any student who is requested to provide a urine specimen will be directed to the collection site where the student will complete the necessary forms. Students who test positive will be required to sign an additional consent form.

The following precautions will be taken, as appropriate, at the collection site:

1. The examinee will be positively identified.

2. The observer will ask the individual to remove any unnecessary outer garments (i.e., coat, jacket, etc.) that might conceal items or substances that could be used to tamper with or alter the urine specimen. All personal belongings (i.e., purse backpack, etc.) must remain with the outer garments. The observer will note any unusual behavior or appearance.

3. The student will not be outside of the presence of the observer and not have access to faucets, soaps dispensers, or cleaning agents until after the specimen has been provided and sealed.

4. The student will be allowed to provide the specimen in a stall or other partitioned area that allows for privacy. After the specimen has been provided, the student should leave the stall.

5. At the collection site, toilet bluing agents will be placed in the toilet tanks whenever possible. No other source of water will be available in the enclosure where urination occurs.

6. If a student fails to provide the necessary amount of urine for a valid specimen, the student will be given reasonable amounts of water for drinking and extra time to produce an adequate sample. During this time, the student will remain in the vicinity of the collection area and under the observation of the district staff.
7. Immediately after collection, the observer will check the temperature of the specimen and inspect the specimen for color and signs of contaminants.

8. Both the observer and students being tested will keep the specimen in view at all times prior to its being sealed and labeled.

Analysis Process
Testing protocol involves on-site collection and testing of urine samples. If a sample initially test positive for any substance, that sample will be immediately retested. In the event that the second test reports negative, the sample will be considered negative for reporting purposes. A second positive test will result in the sample's being immediately delivered to the district's contracted certified laboratory for confirmation with results provided to the school in one or two days.

Results and Notification
Test results will be reported to the Superintendent or his/her designee and to the parties outlined in the consent form. All reports will be in writing. All specimens testing negative on the initial test or negative on the confirmation test will be reported as negative. Only specimens confirmed as positive will be reported as positive for a specific drug(s).

Records
All records concerning chemical abuse testing will be maintained by the Superintendent or his/her designee in a separate, locked file.

The records will not be kept in a student's regular file. Only the Superintendent or his/her designee will have access to the files. The files on each student will be destroyed upon graduation or two years after termination of enrollment. A student and the student's custodial parents/legal guardians may obtain a copy of his chemical abuse testing records upon written request.

First Positive Test
Upon receipt of a positive test result for any student, a custodial parent or legal guardian will be notified and a meeting will be scheduled with the superintendent or his designee, the student, the custodial parent or legal guardian, and the student's principal. Counseling will be strongly recommended for the student who test positive and the district will provide general counseling services. A referral/resource list will be made available to the student and parent/legal guardian. Any rehabilitation or special counseling services costs will be the responsibility of the student and or/parent.

The student will be placed on probation for thirty days. If there are not thirty days left in the school year, the thirty-day period will carry forward to the following school year. During the probation time, the student will not be allowed to participate in any school activity (*any activity outside the regular curriculum whether it is during the school day or out) or park on campus. Students participating in a sport or activity that requires a physical must have doctor's approval to continue practicing during the probationary period. In order to regain eligibility after the thirty-day probationary period, the student must be tested again at the district's expenses and a written copy of the results will be given to the Superintendent or his designee. If the test is negative, the probation will be lifted. If the test is positive, the student will not be allowed to participate in or attend extracurricular activities or park on campus for 30 additional days. A

positive retest at the end of the thirty-day probation period will be considered a second positive test. To regain eligibility for participation in activities, a student must have a negative Chemical Screening Test. This will be administered by the district's chemical screening company.

Clarification
Exception: A student must be retested on day thirty-one to regain eligibility. However, certain chemicals that take more than thirty days to leave the student's system will be considered differently if a doctor's written opinion details said residual effects of that particular substance.

Secondary Positive Test
For the second positive test, the student will not be allowed to participate in any school activity until the 30-day probation has ended. To regain eligibility for participation in activities, a student must have a negative chemical screen test. The test will be administered by the school nurse and the specimen will be sent to the District's chemical screening company for final results.

Third Positive Result
For the third positive result, the student will be suspended from participating in or attending any activity program and park on campus for the remainder of the school year. A third positive screen could come from a third positive test from the random pool or a result of a re-screen at the end of the probation period.

Nature of Policy
No student will be penalized academically for testing positive of illegal drugs. The results of any drug test pursuant to this policy will not be documented in any student's academic records.

Other Disciplinary Measures
The district, by accepting this policy, is not precluded from utilizing other disciplinary measures set forth in the student handbook and this policy does not preclude the district from taking disciplinary procedure and resulting action when founded upon reasonable belief and suspicion that a student has participated in drug-related activities.

**Examples of school activities:* club trips & meetings, pep rally participation, homecoming, dances, FFA & 4-H shows, cheerleading & sports games & after school practice.

Prescription Medication
The existence of lawfully prescribed medication in the student's sample is not a violation of this policy when taken in accordance with a physician's recommendation or prescription to a specific student. Some over-the –counter medications may have similarities to unlawful drugs when tested. Students who are taking prescription medication may provide a copy of the prescription or a doctor's verification in a sealed envelope to school personnel at the time the sample is collected or no less than (3) working days after testing positive. Failure to provide documentation in the (3) working will be considered testing positive (no exceptions). The specific name of over-the-counter medication should also be disclosed to the school official. Students who refuse to provide verification and test positive will be subject to the actions specified in this policy for "positive test."

Consent Form
Students and parents/guardians will be strongly encouraged to sign a consent form to the random testing. The consent form must be co-signed by the student's custodial parent/legal guardian. No student will be allowed to participate in any school activity (*any activity outside the regular curriculum whether it is during the school day or out) or park on campus until the consent form has been signed by both student and custodial parent/legal guardian and returned to the principal or designee. Consent forms for students participating in fall sports or extracurricular activities must sign the consent form during the first two weeks of school. Students moving into the district during the school year must sign the consent form during the first two weeks of enrollment. No student will be allowed to sign the consent form after these dates.

Selection Process
While students are in school, they will be subject to random selection for testing. Particular days will be selected for testing. If a student is selected for testing but is absent on that day, he/she will be tested on the next date. The number of names drawn will be no less than (2%) or greater than (15%) of the students in grades seven through twelve. A urinalysis will be the method utilized to test for the presence of chemicals in the body. All students selected must report to the designated testing site.

Testing Agency
The district will choose a qualified agency for the purpose of processing samples and maintaining privacy with respect to test results and related matters.

Cost
The cost of the test to be given during random selection will be paid by the district. Any test administered to a student to regain eligibility will be at the parent's expense.

- Spreading rumors related to a person's alleged sexual activities;
- Discussions of sexual experiences;
- Rating other students or employees as to sexual activity or performance;
- Circulating or showing e-mails or Web sites of a sexual nature;
- Intimidation by words, actions, insults, or name calling; and
- Teasing or name-calling related to sexual characteristics or the belief or perception that an individual is not conforming to expected gender roles or conduct or is homosexual, regardless of whether or not the individual self-identifies as homosexual or transgender.

Students who believe they have been subjected to sexual harassment, or the parent/legal guardian/other responsible adult of a student who believes their student has been subjected to sexual harassment, are encouraged to bring their concerns to **any** District staff member, including a counselor, teacher, Title IX coordinator, or administrator. If the District staff member who received a report of alleged sexual harassment is not the Title IX Coordinator, then the District staff person shall inform the Title IX Coordinator of the alleged sexual harassment. As soon as reasonably possible after receiving a report of alleged sexual harassment from another District staff member or after receiving a report directly through any means, the Title IX Coordinator shall contact the complainant to:

- Discuss the availability of supportive measures;
- Consider the complainant's wishes with respect to supportive measures;
- Inform the complainant of the availability of supportive measures with or without the filing of a formal complaint; and
- Explain to the complainant the process for filing a formal complaint.

Supportive Measures

The District shall offer supportive measures to the complainant and make supportive measures available to the respondent that are designed to restore or preserve equal access to the District's education program or activity without unreasonably burdening the other party before or after the filing of a formal complaint or where no formal complaint has been filed. The District shall provide the individualized supportive measures to the complainant unless declined in writing by the complainant and shall provide individualized supportive measures that are non-disciplinary and non-punitive to the respondent. A complainant who initially declined the District's offer of supportive measures may request supportive measures at a later time and the District shall provide individualized supportive measures based on the circumstances when the subsequent request is received.

Formal Complaint

A formal complaint may be filed with the Title IX Coordinator in person, by mail, or by email. Upon receipt of a formal complaint, a District shall simultaneously provide the following written notice to the parties who are known:

- Notice of the District's grievance process and a copy of the procedures governing the grievance process;
- Notice of the allegations of sexual harassment including sufficient details known at the time and with sufficient time to prepare a response before any initial interview. Sufficient details include:
  - The identities of the parties involved in the incident, if known;
  - The conduct allegedly constituting sexual harassment; and
  - The date and location of the alleged incident, if known;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility is made at the conclusion of the grievance process;
- That the parties may have an advisor of their choice, who may be, but is not required to be, an attorney;
- That the parties may inspect and review evidence relevant to the complaint of sexual harassment; and

- That the District's code of conduct prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

If, in the course of an investigation, the District decides to investigate allegations about the complainant or respondent that are not included in the previous notice, the District shall simultaneously provide notice of the additional allegations to the parties whose identities are known.

The District may consolidate formal complaints of allegations of sexual harassment where the allegations of sexual harassment arise out of the same facts or circumstances and the formal complaints are against more than one respondent; or by more than one complainant against one or more respondents; or by one party against the other party. When the District has consolidated formal complaints so that the grievance process involves more than one complainant or more than one respondent, references to the singular "party", "complainant", or "respondent" include the plural, as applicable.

When investigating a formal complaint and throughout the grievance process, a District shall:

- Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the District and not on the parties;
- Not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege or access, consider, disclose, or otherwise use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party unless the District obtains the parent, legal guardian, or other responsible adult of that party's voluntary, written consent or that party's voluntary, written consent if the party is over the age of eighteen (18) to do so for the grievance process;
- Provide an equal opportunity for the parties to present witnesses, including fact and expert witnesses, and other inculpatory and exculpatory evidence;
- Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence;
- Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice, who may be, but is not required to be, an attorney, and not limit the choice or presence of advisor for either the complainant or respondent in any meeting or grievance proceeding;
- Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate;
- Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in the formal complaint so that each party can meaningfully respond to the evidence prior to the conclusion of the investigation ; this includes evidence:
  - Whether obtained from a party or other source,;

- The District does not intend to rely upon in reaching a determination regarding responsibility; and
- That is either Inculpatory or exculpatory; and

- Create an investigative report that fairly summarizes relevant evidence.

At least ten (10)[3] days prior to completion of the investigative report, the District shall send to each party and the party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy. The parties shall have at least ten (10)[3] days to submit a written response to the evidence. The investigator will consider the written responses prior to completion of the investigative report. All evidence subject to inspection and review shall be available for the parties' inspection and review at any meeting to give each party equal opportunity to refer to such evidence during the meeting.

After the investigative report is sent to the parties, the decision-maker shall:

- Provide each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness;
- Provide each party with the answers;
- Allow for additional, limited follow-up questions from each party; and
- Provide an explanation to the party proposing the questions any decision to exclude a question as not relevant. Specifically, questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

No earlier than ten (10) days following the completion of the investigation period, the decision-maker, who cannot be the same person as the Title IX Coordinator or the investigator, shall issue a written determination regarding responsibility. The written determination shall include—

1. Identification of the allegations potentially constituting sexual harassment;
2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including:
   a. Any notifications to the parties;
   b. Interviews with parties and witnesses;
   c. site visits;
   d. Methods used to gather other evidence,; and
   e. Hearings held;
3. Findings of fact supporting the determination;
4. Conclusions regarding the application of the District's code of conduct to the facts;
5. A statement of, and rationale for, the result as to each allegation, including:
   a. A determination regarding responsibility;
   b. Any disciplinary sanctions imposed on the respondent; and
   c. Whether remedies designed to restore or preserve equal access to the District's education program or activity will be provided by the District to the complainant; and
6. The procedures and permissible bases for the complainant and respondent to appeal.

The written determination shall be provided to the parties simultaneously. The determination regarding responsibility shall become final on the earlier of:

- If an appeal is not filed, the day after the period for an appeal to be filed expires; or
- If an appeal is filed, the date the written determination of the result of the appeal is provided to the parties.

The District shall investigate the allegations in a formal complaint. If the conduct alleged in the formal complaint would not constitute sexual harassment as defined in this policy even if proved; did not occur in the District's education program or activity; or did not occur against a person in the United States, then the District shall dismiss the complaint as not meeting the definition of sexual harassment under this policy. A dismissal for these reasons does not preclude action under another provision of the District's code of conduct.

The District may dismiss the formal complaint or any allegations therein, if at any time during the grievance process:

- The complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- The respondent is no longer enrolled at the District; or
- Specific circumstances prevent the District from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon the dismissal of a formal complaint for any reason, the District shall promptly send written notice of the dismissal and reason(s) for the dismissal simultaneously to the parties.

The District may hire an individual or individuals to conduct the investigation or to act as the determination-maker when necessary.

Appeals

Either party may appeal a determination regarding responsibility or from a dismissal of a formal complaint or any allegations therein, on the following bases:

a. The existence of a procedural irregularity that affected the outcome of the matter;
b. Discovery of new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
c. The Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter; or
d. An appeal of the disciplinary sanctions from the initial determination.[4]

For all appeals, the District shall:

1. Notify the other party in writing when an appeal is filed;
2. Simultaneously Provide all parties a written copy of the District's procedures governing the appeal process;
3. Implement appeal procedures equally for both parties;

4. Ensure that the decision-maker[5] for the appeal is not the same person as the decision-maker that reached the original determination regarding responsibility or dismissal, the investigator, or the Title IX Coordinator;
5. Provide all parties a reasonable, equal opportunity to submit a written statement in support of, or challenging, the outcome;
6. Issue a written decision describing the result of the appeal and the rationale for the result; and
7. Provide the written decision simultaneously to both parties.

Confidentiality

Reports of sexual harassment, both informal reports and formal complaints, will be treated in a confidential manner to the extent possible. Limited disclosure may be provided to:

- individuals who are responsible for handling the District's investigation and determination of responsibility to the extent necessary to complete the District's grievance process;
- Submit a report to the child maltreatment hotline;
- Submit a report to the Professional Licensure Standards Board for reports alleging sexual harassment by an employee towards a student; or
- The extent necessary to provide either party due process during the grievance process.[5]

Except as listed above, the District shall keep confidential the identity of:

- Any individual who has made a report or complaint of sex discrimination;
- Any individual who has made a report or filed a formal complaint of sexual harassment;
- Any complainant;
- Any individual who has been reported to be the perpetrator of sex discrimination;
- Any respondent; and
- Any witness.

Any supportive measures provided to the complainant or respondent shall be kept confidential to the extent that maintaining such confidentiality does not impair the ability of the District to provide the supportive measures.

Emergency removal[6]

The District may remove a respondent from the District's education program or activity on an emergency basis only after the completion of an individualized safety and risk analysis that determines that an immediate threat to the physical health or safety of any student or other individual arising from the allegations of sexual harassment justifies removal. A removed student will be provided with notice and an opportunity to challenge the removal decision immediately following the removal.

Retaliation Prohibited

Students, or the parents/legal guardians/ other responsible adult of a student, who submit a report or file a formal complaint of sexual harassment,; testified; assisted; or participate or refused to participate in any manner in an investigation, proceeding, or hearing on sexual harassment shall not be subjected to retaliation or reprisal in any form, including threats; intimidation; coercion; discrimination; or charges for code of conduct violations that do not involve sex discrimination

or sexual harassment, arise out of the same facts or circumstances as a report or formal complaint of sex discrimination, and are made for the purpose of interfering with any right or privilege under this policy. The District shall take steps to prevent retaliation and shall take immediate action if any form of retaliation occurs regardless of whether the retaliatory acts are by District officials, students, or third parties.

Disciplinary Sanctions

It shall be a violation of this policy for any student to be subjected to, or to subject another person to, sexual harassment. Following the completion of the District's grievance process, any student who is found by the evidence to more likely than not[7] have engaged in sexual harassment will be subject to disciplinary action up to, and including, expulsion. No disciplinary sanction or other action that is not a supportive measure may be taken against a respondent until the conclusion of the grievance process.

Students who knowingly fabricate allegations of sexual harassment or purposely provide inaccurate facts shall be subject to disciplinary action up to and including expulsion. A determination that the allegations do not rise to the level of sexual harassment alone is not sufficient to conclude that any party made a false allegation or materially false statement in bad faith.

Records

The District shall maintain the following records for a minimum of seven (7) years:

- Each sexual harassment investigation including:
- Any determination regarding responsibility;
- any disciplinary sanctions imposed on the respondent;
- Any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;
- Any appeal and the result therefrom;
- All materials used to train Title IX Coordinators, investigators, and decision-makers;
- Any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment, which must include:
    - The basis for the District's conclusion that its response was not deliberately indifferent; and
    - Document:
        - If supportive measures were provided to the complainant, the supportive measures taken designed to restore or preserve equal access to the District's education program or activity; or
        - If no supportive measures were provided to a complainant, document the reasons why such a response was not clearly unreasonable in light of the known circumstances.

Notes: [1] 34 C.F.R. § 106.44 requires that a district have procedures governing the grievance process and the appeals process to accompany this policy. The procedures are required to cover all of the following:

- Direct that complainants and respondents shall be treated equitably by:

- Offering supportive measures to the complainant;
- Completing the District's grievance process before the imposition of any disciplinary sanctions or other actions that are not supportive measures against a respondent.
- Providing remedies to a complainant where a determination of responsibility for sexual harassment has been made against the respondent that are designed to restore or preserve equal access to the District's education program or activity, which may include the same individualized supportive measures;
- Require an objective evaluation of all relevant evidence – including both inculpatory and exculpatory evidence;
- Provide that credibility determinations may not be based on a person's status as a complainant, respondent, or witness;
- Require that any individual designated by the District as a Title IX Coordinator, investigator, or decision-maker not have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent;

- Indicate that individuals selected by the District as Title IX Coordinators, investigators, and decision-makers have received training on:
  - The definition of sexual harassment;
  - The scope of the District's education program or activity;
  - How to conduct an investigation and the grievance process, including appeals;
  - How to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias; and
  - Issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant; and
  - Issues of relevance to create an investigative report that fairly summarizes relevant evidence;
- Provide the District webpage where the materials used to train the District's Title IX Coordinators, investigators, and decision-makers is located;
- Include a presumption that the respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process;
- Include reasonably prompt time frames for conclusion of the grievance process, including reasonably prompt time frames for filing and resolving appeals;[3]
- A process that allows for the temporary delay of the grievance process or the limited extension of time frames for good cause with written notice to the complainant and the respondent of the delay or extension and the reasons for the action, which may include:
  - The absence of a party, a party's advisor, or a witness;
  - Concurrent law enforcement activity; or
  - The need for language assistance or accommodation of disabilities;
- Describe the range of possible disciplinary sanctions and remedies or list the possible disciplinary sanctions and remedies that the District may implement following any determination of responsibility;

- State whether the standard of evidence to be used to determine responsibility is the preponderance of the evidence standard or the clear and convincing evidence standard;[7]
- Include the procedures and permissible bases for the complainant and respondent to appeal;
- Describe the range of supportive measures available to complainants and respondents; and
- Indicate that the District shall not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege or use a party's records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's or paraprofessional's capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party unless the District obtains the parent, legal guardian, or other responsible adult of that party's voluntary, written consent or that party's voluntary, written consent if the party is over the age of eighteen (18) to do so for the grievance process.

[2] While the definition for sexual harassment from 34 C.F.R. § 106.30 includes that the sexual conduct with an employee must be "unwelcome", we have removed the word "unwelcome" from the student policy as A.C.A § 12-18-103 prohibits sexual conduct between district employees and students regardless of whether the student considers the sexual conduct to be welcome or unwelcome.

[3] The minimum number of days you are required to provide for the parties to review the evidence is ten (10) days. Make sure that the number of days you include here matches with the time frame included in your procedures governing the grievance process.

[4] A.C.A. § 6-18-502(c)(1)(B) provides that the superintendent has the authority to "modify the prescribed penalties for a student on a case-by-case basis". 34 C.F.R. § 106.45 requires that either party must have an equal opportunity to appeal for the stated reasons; therefore both the complainant and respondent have the right to appeal the initial determination-maker's disciplinary sanctions.

[5] While the Family Educational Rights and Privacy Act (FERPA) ordinarily requires that documents containing information about more than one student be redacted so that a student may only view the portion of the educational record that is relevant to that particular student, 34 C.F.R. § 106.6 provides that FERPA does not apply to the extent necessary to provide due process to both parties involved in the grievance process; this includes allowing either party to review the names of the other party as well as any witnesses who have provided evidence relevant to the investigation.

[6] The language here does not change an individual's rights under the IDEA, Section 504, or the ADA.

[7] We have opted to use the preponderance of the evidence standard for determination of responsibility. If you choose to use the clear and convincing evidentiary standard instead, change the language here to indicate so and make sure that your procedures indicate so as well. 34 C.F.R. § 106.45 requires that you use the same evidentiary standard for both students and employees.

4.29—INTERNET SAFETY and ELECTRONIC DEVICE USE POLICY

Definition
For the purposes of this policy, "electronic device" means anything that can be used to transmit or capture images, sound, or data.

The District makes electronic device(s) and/or electronic device Internet access available to students, to permit students to perform research and to allow students to learn how to use electronic device technology. Use of district electronic devices is for educational and/or instructional purposes only. Student use of electronic device(s) shall only be as directed or assigned by staff or teachers; students are advised that they enjoy no expectation of privacy in any aspect of their electronic device use, including email, and that monitoring of student electronic device use is continuous.

No student will be granted Internet access until and unless an Internet and electronic device use agreement, signed by both the student and the parent or legal guardian (if the student is under the age of eighteen [18]) is on file. The current version of the Internet and electronic device use agreement is incorporated by reference into board policy and is considered part of the student handbook.

Technology Protection Measures

Internet Use and Safety

The District is dedicated to ensuring that students are capable of using the Internet in a safe and responsible manner. The District uses technology protection measures to aid in student safety and shall also educate students on appropriate online behavior and Internet use[3] including, but not limited to:

- interacting with other individuals on social networking websites and in chat rooms;
- Cyberbullying awareness; and
- Cyberbullying response.

Misuse of Internet

The opportunity to use the District's technology to access the Internet is a privilege and not a right. Students who misuse electronic devices or Internet access in any way will face disciplinary action, as specified in the student handbook[4] and/or Internet safety and electronic device use agreement. Misuse of the Internet includes:

- The disabling or bypassing of security procedures, compromising, attempting to compromise, or defeating the district's technology network security or Internet filtering software;
- The altering of data without authorization;
- Disclosing, using, or disseminating passwords, whether the passwords are the student's own or those of another student/faculty/community member, to other students;
- Divulging personally identifying information about himself/herself or anyone else either on the Internet or in an email unless it is a necessary and integral part of the student's academic endeavor. Personally identifying information includes full names, addresses, and phone numbers.

2. Daily Use of Devices. Unless otherwise instructed, the device is intended for use at school every day. If students are permitted to use the device at home, they are responsible for bringing it to school every day, fully charged.

3. No Unauthorized Software or Data. Only legally licensed software, apps, media, or other data is permitted on the device. Students will not download software, apps, media or other data (including songs, photos, or videos) without a District employee's prior approval. Students will not replace the manufacturer's operating system with custom software (i.e., "jailbreak" the device), or remove or modify the District-Installed device configuration.

4. No Right to Privacy. The devices are District property; therefore, the District may examine the devices and search their contents at any time for any reason. Neither students nor parents/guardians have any right to privacy of any data saved on the device or in a cloud-based account to which the device connects. The school administration may involve law enforcement, if it is possible the device may have been used for an illegal purpose.

Additional Terms

1. **Damage to or Loss of device.** Parent(s)/guardian(s) are responsible for their child's use of the device, including any damage to or loss of the device.
    a. Damage/Theft: In the event of damage to the device, the parent is responsible for covering the entire replacement cost.
    b. Loss: In the event that the device is lost, the parent is responsible for covering the entire replacement cost.

The decision to assess a charge, as well as the amount of any charge, is at the sole discretion of the District, but will not be greater than the full replacement value of the device.

2. **Hardware or Functionality Problems.** If a problem arises with the functionality of a student's device, the student must notify his or her classroom teacher of the problem within 24 hours or on the next school day. Under no circumstances may the student or his/her parent(s)/gardian(s) attempt to fix or allow anyone but District staff the attempt to fix suspected hardware faults or the device's operating system. Do not take the device to any repair shop; the student should report the issue to his/her classroom teacher, who will report it to the District's Technology Department.

3. **Failure to Return the Device.** If a student fails to return the device and any

4.30—SUSPENSION FROM SCHOOL

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to, that:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension (OSS) shall not be used to discipline a student in kindergarten through fifth (5^{th}) grade unless the student's behavior:

a. Poses a physical risk to himself or herself or to others;
b. Causes a serious disruption that cannot be addressed through other means; or
c. Is the act of bringing a firearm on school campus.

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

1. The student shall be given written notice or advised orally of the charges against him/her;
2. If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
3. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), person(s) having lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or

property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the responsibility of a student's parents, legal guardians[2], person having lawful control of the student, or person standing in loco parentis to provide current contact information to the district, which the school shall use to immediately notify the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number;
  - The contact may be by voice, voice mail, or text message.
- An email address;
- A regular first class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of OSS.

During the period of their suspension, students serving OSS are not permitted on campus except to attend a student/parent/administrator conference or when necessary as part of the District's engagement or access to education program.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

4.30.1 – LAFAYETTE COUNTY SCHOOL DISTRICT ON CAMPUS SUSPENSION (OCS)

Purpose: The policy of the Lafayette County School District is to establish an on-campus suspension (OCS) program designed to provide a structured disciplinary atmosphere in which a student is isolated or removed from regular classroom activities, but is not dismissed from the school setting.
The OCS program is a disciplinary action and is intended to provide an alternative to out of school suspension and to attempt to modify disruptive behavior by isolating the disruptive student from his/her classmates.

Program Objectives
The on-campus suspension program provides a safe and constructive place for students who need to be removed from the classroom. On-campus suspension aims to reduce future suspensions of a student by teaching appropriate skills and by providing resources to prevent further problem behaviors. It is important to remember, however, that the on-campus suspension program is a strategy generally intended to be a punishment for code of conduct violations.
Additional program objectives for the on-campus suspension program implemented at LCSD include the following:

- To reduce the number of out-of-school suspensions
- To provide a learning environment for students assigned to on-campus suspension
- To identify inappropriate behavior
- To improve each student's behavior, academic performance, personal and social adjustment, and attitude toward school
- To offer specific suggestions to administrators, counselors, and teachers that may minimize adjustment problems of students assigned to on-campus suspension
- To provide follow-up contact to those students formerly assigned to on-campus suspension
- To involve parents in efforts to resolve displayed behaviors

General Information
The basic philosophy of OCS is to provide an alternative to out of school suspension and to attempt to modify disruptive behavior by isolating the disruptive student from classmates. Hence, the following guidelines and basic information should be noted in regards to the operation of the OCS Program in the LCSD:

1. Students will be assigned to OCS for a certain period of days according to guidelines in the student handbook. If the student continues to have disciplinary problems after having been in OCS, an alternative form of discipline should be considered to redirect unacceptable behavior (i.e. suspension, expulsion, or other disciplinary action as deemed appropriate by the administrators. Or a consideration of a possible non-punitive action of reassignment to the Alternative Learning Environment ALE).
2. Days students attend in OCS will not be counted as an absence from class. Students will be able to make-up work missed during his/her stay in OCS.

3. If a student is absent from school for part or all of a school day (and is assigned to OCS), he/she will be expected to make up the time originally assigned to OCS upon return to school.
4. In order for students to receive their assignments while assigned to OCS, it is suggested that the OCS paraprofessional send an e-mail to each of the student's teachers informing them that the student has been assigned to OCS and likewise requesting work for the student to complete.
5. For those students who have a laptop, it is permissible for the teacher to send the student's assignments via e-mail.
6. In order to maintain accurate documentation of those students assigned to OCS, it is suggested that the OCS para-pro e-mail the school's front office with the OCS roster for the school day.
7. Student's assignment to OCS can be extended if work assignments are not completed accurately and neatly, or if students are disruptive or display inappropriate behavior while assigned to OCS. However, the student will not be allowed to make-up any work missed during his/her extension in OCS.
8. Students assigned to OCS will have their lunch at a time separate from the other lunch waves on the school campus. This is done in an effort to prevent students from being able to associate with other students. Students will not be allowed to attend any breaks given on the school campus.
9. Students assigned to OCS **will not** be allowed to participate in extracurricular activities during the time of their stay in OCS.
10. Students assigned to OCS **will not** be allowed to attend any assemblies, pep rallies, or other special programs that are held on the school campus during the school day.
11. Students who are tardy, absent, or do not complete the daily work (for any reason) will be assigned additional time in OCS.
12. Parents of students assigned to OCS will be notified – preferably by either the principal or assistant principal. If necessary, an administrator/parent conference should be arranged to discuss the following issues: the student's behavior problems which have been noted and the need to enlist the support of the parents in establishing procedures at home which will impact positively on the student's behavior.
13. Upon arrival to OCS for the first time, students will receive a detailed student orientation from the OCS Program Coordinator for the purpose of clearly communicating the OCS guidelines, consequences for non-compliance, and establishing clear expectations while assigned to OCS. Returning students will be given a review/re-teach for these rules.

Academic Assignment for Students Assigned to OCS

1. Students will be assigned work to complete during their stay in OCS by their regular classroom teachers. Students will be expected to complete all assignments given by their teachers prior to their dismissal from the OCS room.
2. Assignments made by the teachers should be related to the work that is presently being covered in the classroom.
3. When possible, teachers will be notified by 3:00 pm on the day preceding the student's first day in the OCS classroom. This will enable teachers to have ample time to prepare assignments for students during their stay in OCS.

4. Teachers are asked to make the student's assignments extensive so that their time will be completely occupied with classwork.
5. Teachers may send tests for the student to take during his/her time in OCS, or the teachers may opt to allow the students to make-up the test(s) missed upon their return to the classroom.
6. OCS personnel should have resource materials available to supplement teacher's assignments.
7. OCS personnel shall have the responsibility of ensuring that all work assignments have been completed in a neat and accurate fashion prior to dismissing students from the OCS room back to the regular classroom setting.
8. Computer games will not be permitted in OCS. Students who should have an assignment that requires the use of the computer will obey the policies set forth in the Internet Safety and Electronic Device Use Policy set forth by the LCSD.

Physical Environment for Students Assigned to OCS

1. Students assigned to OCS will report to a designated area on the school campus immediately.
2. Where available, a specific room should be used for OCS. Preferably, cubicles should be constructed to provide isolation for those students assigned to OCS.
3. All students will have assigned seating, and they will be expected to keep their area clean and graffiti-free. Defacing cubicles, desks, and/or walls will not be tolerated.
4. Students assigned to OCS should not be allowed to communicate with other students on the school campus, nor should they be allowed to communicate with other students assigned to OCS.
5. . All students will enter, leave, and move about the OCS area in a controlled, regimented manner. Students will be lined up and supervised at all times.
6. All restroom breaks will be regimented and supervised by the OCS personnel.
7. No students will leave the OCS area without cleaning his/her area. Students will only be dismissed by the OCS personnel.

On Campus Suspension Rules

1. Students are to remain seated at all times.
2. Students are not to talk without permission.
3. Students will not be allowed to sleep and may possibly be asked to stand up if they cannot stay awake.
4. Students are not allowed to leave the room except at designated times or with the permission of the OCS teacher.
5. Students who are tardy, absent, or do not complete their daily work will be assigned an additional day in OCS.
6. All students will have assigned seating (cubicles/desks) and will be expected to keep their cubicles/desk clean.
7. No food, drinks, gum, candy, or tobacco products of any kind will be allowed in the OCS room.
8. While assigned to OCS, all regular school rules apply—including dress and grooming codes.

9. Students will be required to write a one-page summary on why they were assigned to OCS, and they will also be asked to include a positive resolution to their behavior in that situation.
10. Students must work on an assignment at all times. Once an assignment(s) has been completed, students should raise their hands so that they can be provided additional work to complete.
11. All assignments must be completed by following the directions provided by the classroom teacher.
12. No magazines, drawing, or coloring is allowed unless approved by the OCS teacher or is necessary for the completion of assignments given by classroom teachers.
13. Students should raise their hand to ask a question, get help with an assignment, or when an assignment has been completed. Talking, making noises, and/or communication with other students will not be tolerated.
14. Instructions and/or directions from the OCS teacher will be followed at all times.
15. Students who choose not to follow the OCS rules are subject to further disciplinary actions, which may include off campus suspension and/or expulsion.
16. Students will be dismissed from the OCS room after their area has been inspected for cleanliness, all trash and debris has been picked up, and your chair has been pushed in.

NOTICE OF ON-CAMPUS SUSPENSION

(Name of Student)

(Parent's Name and Address)

(Today's Date)

Dear (Name of Parents):

Following a conference on (date) with your child, this office determined that your child engaged in improper conduct that warrants assigning him/her to on campus suspension (OCS) on (date of OCS). Your child was informed of his/her wrongful conduct and of the information the school had regarding this conduct. Your child was given an opportunity to respond. The specific wrongful conduct for which your child is being assigned to OCS can be found on the disciplinary referral notice enclosed with this correspondence.

On campus suspension means that your child will be isolated from his/her regular classes beginning (length of OCS). Your child will be required to complete class assignments, examination(s), or behavioral packets while assigned to OCS. However, your child is not considered absent from school while assigned and attending on campus suspension. A parent conference will not be required for student re-instatement.

Students who fail to follow the rules and regulations of on campus suspension will be subject to further disciplinary action, which may include an out-of-school suspension and/or expulsion.

Please feel free to contact me if you have any concerns regarding this incident.

Sincerely,

4.31—EXPULSION

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5^{th}) grade unless the student's behavior:

a. Poses a physical risk to himself or herself or to others;
b. Causes a serious disruption that cannot be addressed through other means; or
c. Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardian, person having lawful control of the student, person standing in loco parentis, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, who gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of one (1) year for possession of any firearm prohibited on school campus by

law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion.

The District will use Edgenuity, or other electronic or paper forms, for learning tools for expelled students.
Edgenuity : https://www.edgenuity.com/
Notes: To satisfy a student's due process rights, make sure that all the IDEA requirements are met for students receiving special education services.

[1] The ten (10) school days are on a traditional school calendar. If your district uses a 4x4 block schedule, the number of days of suspension will need to be modified accordingly.

4.32—SEARCH, SEIZURE, AND INTERROGATIONS

The District respects the rights of its students against arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness; however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children

Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

4.33—STUDENTS' VEHICLES

A student who has presented a valid driver's license and proof of insurance to the appropriate office personnel, may drive his/her vehicle to school. Vehicles driven to school shall be parked in the area designated for student parking. Parking on school property is a privilege which may be denied to a student for any disciplinary violation, at the discretion of the student's building principal.

Students are not permitted to loiter in parking areas and are not to return to their vehicles during the school day for any reason unless given permission to do so by school personnel.

It is understood that there is no expectation of privacy in vehicles in parking areas. Drivers of vehicles parked on a school campus will be held accountable for illegal substances or any other item prohibited by District policy found in their vehicle. The act of a student parking a vehicle on campus is a grant of permission for school or law enforcement authorities to search that vehicle.

4.34—COMMUNICABLE DISEASES AND PARASITES

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant Staphylococcus aureus), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally). A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a health care provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood borne, foodborne, and airborne pathogens exposures. Standard precautions shall be followed relating to the handling, disposal, and cleanup of blood and other potentially infectious materials such as all body fluids, secretions and excretions (except sweat).

In accordance with 4.57 – Immunizations, the District shall maintain a copy of each student's immunization record and a list of individuals with exemptions from immunization which shall be education records as defined in policy 4.13. That policy provides that an education record may be disclosed to appropriate parties in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

A student enrolled in the District who has an immunization exemption may be removed from school at the discretion of the Arkansas Department of Health during an outbreak of the disease for which the student is not vaccinated. The student may not return to school until the outbreak has been resolved and the student's return to school is approved by the Arkansas Department of Health.

The parents or legal guardians of students found to have live human host parasites that are transmittable in a school environment will be asked to pick their child up at the end of the school day. The parents or legal guardians will be given information concerning the eradication and control of human host parasites. A student may be readmitted after the school nurse or designee has determined the student no longer has live human host parasites that are transmittable in a school environment.

Each school may conduct screenings of students for human host parasites that are transmittable in a school environment as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

4.34.1— COVID-19 - COMMUNICABLE DISEASES

Face Coverings
There is significant evidence that face coverings decrease the spread of COVID-19. "Face coverings" include any material that covers the nose and mouth and prevents respiratory particles from traveling beyond the immediate area of the person wearing the face covering. Face coverings should fully cover the mouth and nose and fit snugly against the side of the face with no gaps. Examples of face coverings include masks, neck gaiters or "buffs," and face shields. Reusable face coverings should be machine washed or washed by hand and allowed to dry completely after each use.

LCSD will follow all guidance given by the governor, ADH, CDC, and DESE regarding face coverings.

Students
Students, 10 years and older, enrolled in Lafayette County School District must wear face coverings during school when physical distancing of six feet is not possible or not practical. Students 10 years and younger are strongly encouraged to wear a face covering. (School entry, exit, classroom, hall passing, bathroom). Also, students are required to wear a face covering/mask to protect others and themselves any time a student is on district property, district-owned transportation, waiting at bus stops, or at school-sponsored activities.

Face coverings must cover student's nose and mouth areas.

Physical distancing should be maintained as much as practicable during these times. Throughout the day, students will be given face covering breaks. Students will adhere to social distancing guidelines during face covering breaks.

Face coverings may be removed:

- while eating meals or snacks,
- when appropriate social-distancing measures are in place as determined by the governor, ADH, CDC, DESE, school administrator or classroom teacher,
- on a case-by-case basis for specific instructional needs, including physical education activities, as determined by a teacher, in which case the teacher will require appropriate social-distancing measures to the extent possible,
- while participating in athletic activities where a 6-foot distance cannot be achieved but a mask is inhibitory to the activity or active exercise.

**Exceptions to face covering requirements will be made for those for whom it is not possible to wear face coverings due to medical conditions, disability impact, or other health or safety factors. Requests for face covering exceptions must be approved by the student's principal and accompanied by appropriate medical documentation. Additionally, students may be exempted from the policy due to special behavioral or individualized needs as determined by the director of special education or school administrator.

The District will provide two face coverings for students. Parents are responsible for supplying face coverings for their child/ren if they choose to not participate in the district provided face coverings.

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer, or otherwise authorized by this policy students are not allowed to carry any medications, including over-the-counter (OTC) medications or any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, while at school. Medications, including those for self-administration, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose for the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double locked cabinet.

Students with an individualized health plan (IHP) may be given OTC medications to the extent giving such medications are included in the student's IHP.

The district's supervising registered nurse is responsible for creating procedures for the administration of medications on and off campus.

The school shall not keep outdated medications or any medications past the end of the school year. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and rules.

doctor has specifically authorized such attendance and participation. A doctor's prescription for a student's Schedule II medication is **not** an authorization. Attendance authorization shall specifically state the degree and potential danger of physical exertion the student is permitted to undertake in the student's classes and extracurricular activities. Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall **not** be eligible to attend classes, but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

Districts are not under any obligation to "recruit" volunteers and 4.11 of the Rules explicitly states that no employee shall be pressured into volunteering.

[1] The time frame in this paragraph is not statutorily mandated and may be changed to better suit your district and the employment contract of the school nurse. Any changes you make, however, need to address the need for students to have their medications through the last day of school and the reality of parent's work schedules.

[2] This policy offers two different options regarding permissibility of students attending and participating in classes while taking Schedule II medications. Be sure only one option is included in the adopted policy and delete the "Option One" or "Option Two" language after your selection along with the language for the unchosen option in the final version. Be sure to consult with your school nurse when selecting an option.

[3] Here is a helpful, but not all-inclusive, list of prohibited Schedule II medications: Opium, morphine, codeine, hydromorphone (Dilaudid), methadone, meperidine (Demerol), cocaine, oxycodone (Percodan), amobarbital, pentobarbital, sufentanile, etorphine hydrochloride, phenylactone, dronabinol, secobarbital, and fentanyl.

[4] A student who has surgery or is in an accident may be taking a Schedule II medication outside of those a student may take and be permitted to attend classes under Option 1 or may have been told by his/her doctor to not attend class during the time the student is taking the Schedule II medication. In such cases, a 504 plan can be developed to cover the duration of the student's recovery, which could include homebound instruction.

[5] The specific authorization should be provided on the doctor's letterhead along with the completed Medication Administration Consent Form (4.35F).

[6] The certification may be received through training that is provided by a nationally recognized organization experienced in training laypersons in emergency health treatment or other persons approved by the Department of Health. Examples of National programs are those provided by the American Heart Association and the American Red Cross.

Notes: districts are required to conduct a comprehensive school safety assessment to assess the safety, security, accessibility, and emergency preparedness of district buildings and grounds in collaboration with local law enforcement, fire, and emergency management officials. The school safety assessment must be conducted at least once every three (3) years, with the initial school safety assessment being completed by no later than August 1, 2024. The comprehensive school safety assessment shall be conducted by more than one (1) individual, which must include at least one (1) individual who is not assigned to the district facility being assessed. The comprehensive school safety assessment shall include at least all of the following:

- Safety and security of the site and exterior of buildings;
- Access control;
- Safety and security of the interior of buildings;
- Monitoring and surveillance, including without limitation type and extent;
- Communication and information security;
- Review of emergency operation plans; and
- School climate and culture.

When developing your school safety plan, be sure to review and address the items set forth in A.C.A. § 6-15-1303(j).

[1] If your district is determined to be within an area susceptible to earthquakes, add the following:
Earthquake safety drills shall be conducted in accordance with the District's safety plan.

[2] Students who only ride buses occasionally, such as to go to and/or from a field trip will also have to participate in the evacuation drills.

[3] Due to the State opting to not appropriate funding for an emergency communication method with law enforcement, including a panic button alert system, districts are no longer required to have an emergency communication method with law enforcement, such as a panic button alert system, but may continue to do so if they choose. If you choose not to continue to provide an emergency communication method with law enforcement, remove references to it from this policy. If you choose to continue to provide a panic button alert system as your emergency communication method with law enforcement, A.C.A. § 6-15-1302 requires that a district's Panic Button Alert System meet the following requirements:

a) Connect the caller with 911 while simultaneously notifying designated on-site personnel;
b) Directly integrate into the existing statewide Smart911 system.
c) Be available for use as a smartphone application and have a mechanism for panic notifications to be triggered by non-smartphone wireless callers and landline callers; and
d) Be limited to users designated, approved, and confirmed by school administrators.

Smart911 is required to provide a way for schools to geo-fence the school campus and provide and manage floor plans and other documents to assist emergency responders when they automatically display during a 911 call. Districts are responsible for keeping the floor plans and pertinent emergency contact information for the statewide Smart911 system up to date, which must be done at least annually or if substantial building modifications or changes are made.

[4] The purpose of the training is to allow participants to:

- Assess the plan and ability of the district to prevent and respond to a threat on campus;
- Clarify the roles and responsibilities of each individual when an emergency occurs;
- Discuss the logistics of handling an emergency on the school campus;

- Identify areas in which the school safety plan should be modified; and
- Collaborate with local law enforcement, fire, and emergency management officials.

[5] Student involvement will need to be worked out school by school and determined relative to grade and age considerations in conjunction with the actual content of the drill. There may be drills conducted that do not include any students due to the explicit nature of the drill and the age of the students while a drill in another school would include students. There are so many facets of responding to a school intruder/shooting incident that it's difficult to know when your planning has dealt with all the contingencies. A good resource on active shooter drills is the "I Love You Guys" Foundation, which was created by the parents of the victim of the school shooting at Platte Canyon High School in Colorado to develop a protocol to advance school safety. The Foundation has **free** materials for districts that can be a big help when developing protocols and training for both personnel and students. A description of the Foundation's recommended protocol and the materials can be found at http://iloveuguys.org/srp.html. An additional resource is the Federal government's "Federal School Safety Clearinghouse", which is located at schoolsafety.gov. Some of these sites' information could also be applied to the other emergency plans required by statute and this policy.

4.38—PERMANENT RECORDS

Permanent school records, as required by the Division of Elementary and Secondary Education (DESE), shall be maintained for each student enrolled in the District until the student receives a high school diploma or its equivalent or is beyond the age of compulsory school attendance[1]. A copy of the student's permanent record shall be provided to the receiving school district within ten (10) school days after the date a request from the receiving school district is received[2].

Notes: [1] the legal requirement for retention of student records is as written. ASBA strongly advises districts, however, to retain the records of graduates indefinitely due to the potential for future need of the records by students for college admissions, security clearances, background checks, etc.

[2] The law prohibits districts from refusing to provide the records to receiving schools due to a student owing money to the district.

4.39—CORPORAL PUNISHMENT

The Lafayette County School Board authorizes the use of corporal punishment to be administered in accordance with this policy by the Superintendent or the superintendent's designated staff members who are required to have a state-issued license as a condition of their employment.

Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be given an explanation of the reasons for the punishment and be given an opportunity to refute the charges.

All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, shall not be excessive, or administered with malice, and shall be administered in the presence of another school administrator or designee who shall be a licensed staff member employed by the District.

Corporal punishment shall not be used as a form of discipline for a student who is intellectually disabled, non-ambulatory, non-verbal, or autistic.

4.40—HOMELESS STUDENTS

The Lafayette County School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational agency (LEA) liaison for homeless children and youth whose responsibilities shall include, but are not limited to:

- Receive appropriate time and training in order to carry out the duties required by law and this policy;
- Coordinate and collaborate with the State Coordinator, community, and school personnel responsible for education and related services to homeless children and youths;
- Ensure that school personnel receive Professional development and other support regarding their duties and responsibilities for homeless youths;
- Ensure that unaccompanied homeless youths:
  - Are enrolled in school;
  - Have opportunities to meet the same challenging State academic standards as other children and youths; and
  - Are informed of their status as independent students under the Higher Education Act of 1965 and that they may obtain assistance from the LEA liaison to receive verification of such status for purposes of the Free Application for Federal Student Aid;
- Ensure that public notice of the educational rights of the homeless children and youths is disseminated in locations frequented by parents or guardians of such youth, and unaccompanied homeless youths, including schools, shelters, public libraries, and soup kitchens, in a manner and form that is easily understandable.

To the extent possible, the LEA liaison and the building principal shall work together to ensure no homeless child or youth is harmed due to conflicts with District policies solely because of the homeless child or youth's living situation; this is especially true for District policies governing fees, fines, and absences.[1]

Notwithstanding Policy 4.1, homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict with Policy 4.1 or 4.2, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute, including all appeals. It is the responsibility of the District's LEA liaison for homeless children and youth to carry out the dispute resolution process.

For the purposes of this policy "school of origin" means:

- The school that a child or youth attended when permanently housed or the school in which the child or youth was last enrolled, including a preschool; and

- The designated receiving school at the next grade level for all feeder schools when the child completes the final grade provided by the school of origin.

The District shall do one of the following according to what is in the best interests of a homeless child:

1. Continue the child's or youth's education in the school of origin for the duration of homelessness:
   - In any case in which a family becomes homeless between academic years or during an academic year; and
   - For the remainder of the academic year, if the child or youth becomes permanently housed during an academic year; or
2. Enroll the child or youth in any public school that nonhomeless students who live in the attendance area in which the child or youth is actually living are eligible to attend.

In determining the best interest of the child or youth, the District shall:

- Presume that keeping the child or youth in the school of origin is in the child's or youth's best interest, except when doing so is contrary to the request of the child's or youth's parent or guardian, or (in the case of an unaccompanied youth) the youth;
- Consider student-centered factors related to the child's or youth's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless children and youth, giving priority to the request of the child's or youth's parent or guardian or (in the case of an unaccompanied youth) the youth.

If the District determines that it is not in the child's or youth's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied youth) the youth, the District shall provide the child's or youth's parent or guardian or the unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal. For an unaccompanied youth, the District shall ensure that the LEA liaison assists in placement or enrollment decisions, gives priority to the views of such unaccompanied youth, and provides notice to such youth of the right to appeal.

The homeless child or youth must be immediately enrolled in the selected school regardless of whether application or enrollment deadlines were missed during the period of homelessness.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the LEA Liaison), to and from the child's school of origin.[2]

A homeless student shall be immediately eligible to participate in interscholastic activities at the school in which the student is enrolled.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and:

a. Are:
   - Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
   - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
   - Living in emergency or transitional shelters;
   - Abandoned in hospitals; or

b. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;

c. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

d. Are migratory children who are living in circumstances described in clauses (a) through (c).

In accordance with Federal law, information on a homeless child or youth's living situation is part of the student's education record and shall not be considered, or added, to the list of directory information in Policy 4.13.[3]

Notes: LEA liaisons who receive appropriate training may now affirm that a child or youth who is eligible for and participating in a program provided by the LEA, or the immediate family of such a child or youth, is eligible for homeless assistance programs administered under Title IV of the McKinney – Vento Homeless Education Assistance Improvements Act without further determinations from other governmental entities.

A.C.A. § 9-25-106 includes additional rights for unaccompanied youth who are certified by the district LEA to be homeless.

[1] 42 U.S.C. § 11432(g)(1)(I) requires that SEAs and LEAs demonstrate they have developed policies to remove barriers to the identification, enrollment, and retention of homeless children and youths, including barriers to enrollment and retention due to outstanding fees or fines, or absences. The policy language is designed to provide as much flexibility as possible to allow a homeless student to succeed while still holding the homeless student responsible for circumstances that are unrelated to the student's living situation.

[2] The District's liability for transportation is more fully covered by 42 U.S.C. § 11432(g)(1)(J)(iii)(I) and (II), which read as follows:
(I) If the child or youth continues to live in the area served by the local educational agency in which the school of origin is located, the child's or youth's transportation to and from the school of origin shall be provided or arranged by the local educational agency in which the school of origin is located.
(II) If the child's or youth's living arrangements in the area served by the local educational agency of origin terminate and the child or youth, though continuing the child's or youth's education in the school of origin, begins living in an area served by another local educational agency, the local educational agency of origin and the local educational agency in which the child or youth is living shall agree upon a method to apportion the responsibility and costs for providing the child or youth with transportation to and from the school of origin. If the local educational agencies are unable to agree upon such method, the responsibility and costs for transportation shall be shared equally.

[3] The prohibition on the release of a student's homeless status is from 42 U.S.C. § 11432(g)(3)(G).

4.41—PHYSICAL EXAMINATIONS OR SCREENINGS

The district conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The intent of the exams or screenings is to detect defects in hearing, vision, or other elements of health that would adversely affect the student's ability to achieve to his/her full potential.

The rights provided to parents under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student.

Note: This policy is not intended to and does not cover invasive physical examinations.

"Invasive Physical Examinations" is defined in federal law as any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body. It is our understanding that most students who would receive an invasive physical examination would do so as part of the student's individual health plan (IHP) or while at a school based health clinic; neither situation is intended to be covered by this policy.

In the event a student did not fall under one of the above situations, districts should be aware that an invasive physical examination requires that the student's parent/legal guardian be "directly" notified of the specific or approximate dates (to the extent known) during the school year when the invasive physical examination is scheduled within a reasonable period of time that would provide the parent and opportunity to object. Parents of a student whose IHP covers an invasive physical examination have granted permission for that specific type of exam as part of the establishment of the IHP.

"Directly notified" means by mail or email; inclusion in the student handbook does not meet the law's requirements.

Districts with students who participate as athletes in the Arkansas Special Olympics programs should be aware that the student's physical examination for participation in the program must be signed by either an advanced practice nurse or a licensed physician. Many of the participating students often have multiple health challenges, which can sometimes be deadly in the right circumstances (These are often referred to as "co-morbidities".) As a result, it is important that the Special Olympics athlete medical form be completed by the parent and the qualified health care provider. A copy of the medical form can be found on the Policy Resources Page https://arsba.org/policy-resources.

4.42—STUDENT HANDBOOK

It shall be the policy of the Lafayette County School district that the most recently adopted version of the Student Handbook be incorporated by reference into the policies of this district. In the event that there is a conflict between the student handbook and a general board policy or policies, the more recently adopted language will be considered binding and controlling on the matter provided the parent(s) of the student, or the student if 18 years of age or older have acknowledged receipt of the controlling language.

Principals shall review all changes to student policies and ensure that such changes are provided to students and parents, either in the Handbook or, if changes are made after the handbook is printed, as an addendum to the handbook.

Principals and counselors shall also review Policies 4.45—SMART CORE CURRICULUM AND UIREMENTS and the current DESE Standards for Accreditation Rules to ensure that there is no conflict. - Exhibition of other behaviors by students or educational staff that substantially interfere with the learning environment.

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function,

activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

Students are encouraged to report behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, to their teacher or the building principal. The report may be made anonymously. Teachers and other school employees who have witnessed, or are reliably informed that, a student has been a victim of behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, shall report the incident(s) to the building principal, or designee, as soon as possible. Parents or legal guardians may submit written reports of incidents they feel constitute bullying, or if allowed to continue would constitute bullying, to the building principal, or designee.

The person or persons reporting behavior they consider to be bullying shall not be subject to retaliation or reprisal in any form.

A building principal, or designee, who receives a credible report or complaint of bullying shall:

1. As soon as reasonably practicable, but by no later than the end of the school day following the receipt of the credible report of bullying:
    a. Report to a parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student that their student is the victim in a credible report of bullying; and
    b. Prepare a written report of the alleged incident of bullying;
    2. Promptly investigate the credible report or complaint of bullying, which shall be completed by no later than the fifth (5^{th}) school day following the completion of the written report.
    3. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student who was the alleged victim in a credible report of bullying whether the investigation found the credible report or complaint of bullying to be true and the availability of counseling and other intervention services.
    4. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of the student, or person acting in loco parentis of the student who is alleged to have been the perpetrator of the incident of bullying:
    a. That a credible report or complaint of bullying against their student exists;
    b. Whether the investigation found the credible report or complaint of bullying to be true;
    c. Whether action was taken against their student upon the conclusion of the investigation of the alleged incident of bullying; and
    d. Information regarding the reporting of another alleged incident of bullying, including potential consequences of continued incidents of bullying;
    5. Make a written record of the investigation, which shall include:
    a. A detailed description of the alleged incident of bullying, including without limitation a detailed summary of the statements from all material witnesses to the alleged incident of bullying;
    b. Any action taken as a result of the investigation; and

6. Discuss, as appropriate, the availability of counseling and other intervention services with students involved in the incident of bullying.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. In determining the appropriate disciplinary action, consideration may be given to other violations of the student handbook which may have simultaneously occurred. In addition to any disciplinary actions, the District shall take appropriate steps to remedy the effects resulting from bullying.

Notice of what constitutes bullying, the District's prohibition against bullying, and the consequences for students who bully shall be conspicuously posted in every classroom, cafeteria, restroom, gymnasium, auditorium, and school bus. Parents, legal guardians, person having lawful control of a student, persons standing in loco parentis, students, school volunteers, and employees shall be given copies of the notice annually.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation, the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

Copies of this policy shall be available upon request.

Notes: DESE has created a guidance document on bullying that could be useful in developing staff and student training on bullying. The document can be found at https://dese.ade.arkansas.gov/Offices/communications/safety/anti-bullying-and-violence-prevention. Different consequences are permitted depending on the age or grade of the bullying student.

[1] Example: a student might be disciplined both for bullying and sexual harassment, in an appropriate situation, or bullying and assault.

[2] Suggestion for the posted notice: Create a circle with a line through it over the word Bullying (similar to a non-smoking logo). Beside the logo write: Mean talk or hurting other people is called bullying. Bullying is against the rules and can get you in trouble, suspended, or expelled. If someone bullies you, or you see someone being bullied, get help by telling an adult.

[3] Copies of the notices are required to be published in any district Publication that sets forth the comprehensive rules, procedures, and standards of conduct for the schools within the district as well as the student handbook.

[4] There should be a statement in the Student Handbook to this effect.

Part of this requirement may be met by students taking post-secondary courses. Eligible students' enrollment and attendance at a post-secondary institution shall count toward the required weekly time of school attendance. Attendance in virtual learning courses shall be determined by the online attendance and time the student is working on the coursework as monitored by the teacher of record to ensure the student progresses toward standard mastery and credit attainment for the course.

Study Halls

Students may be assigned to no more than one (1) class period each day for a study hall that the student shall be required to attend and participate in for the full period. Such study halls are to be used for the purposes of self-study or for organized tutoring which is to take place in the school building.

Extracurricular Classes

Students may be assigned to no more than one (1) class period each day for organized and scheduled student extracurricular classes that the student shall be required to attend and participate in for the full class period. Extracurricular classes related to a seasonal activity shall meet for an entire semester whether or not the season ends prior to the end of the semester. Students must attend and participate in the class for the entire semester in order to receive credit for the course. For the purpose of this policy, extracurricular classes is defined as school sponsored activities which are not an Arkansas Department of Education approved course counting toward graduation requirements or classes that have not been approved by the Arkansas Department of Education for academic credit. Such classes may include special interest, fine arts, technical, scholastic, intramural, and interscholastic opportunities.

Course Enrollment Outside of District

Enrollment and attendance in vocational-educational training courses, college courses, school work programs, and other department-sanctioned educational programs may be used to satisfy the student attendance requirement even if the programs are not located at the public schools. Attendance in such alternative programs must be pre-approved by the school's administration. The district shall strive to assign students who have been dropped from a course of study or removed from a school work program job during the semester into another placement or course of study. In the instances where a subsequent placement is unable to be made, the district may grant a wavier for the student for the duration of the semester in which the placement is unable to be made.

In rare instances, students may be granted waivers from the mandatory attendance requirement if they would experience proven financial hardships if required to attend a full day of school. For the purpose of this policy, proven financial hardships is defined as harm or suffering caused by a student's inability to obtain or provide basic life necessities of food, clothing, and shelter for the student or the student's family. The superintendent shall have the authority to grant such a waiver, on a case-by-case basis, only when convinced the student meets the definition of proven financial hardships.

In any instance where a provision of a student's Individual Education Plan (IEP) conflicts with a portion(s) of this policy, the IEP shall prevail.

4.45 SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS for the Classes of 2024 and 2025

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, a *Smart Core Information Sheet* and a *Smart Core Waiver Form*[1] will be sent home with students prior to their enrolling in seventh (7^{th}) grade, or when a seventh (7^{th}) through twelfth (12^{th}) grade student enrolls in the district for the first time and there is not a signed waiver form in the student's permanent record. This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the Alternate Pathway to Graduation when required by their IEP to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the deadline for them to sign and return the waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year.[2] Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents as part of the annual school district support plan development process[3] to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each.; this shall be accomplished through holding an informational meeting for parents, legal guardians, or persons standing in loco parentis to students enrolled in grades six through twelve (6-12) with the school counseler and may be accomplished through any or all of the additional following means:[4]

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.[5]

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children and the Arkansas Military Child School Transitions Act of 2021 for all students who meet the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS including the waiving of specific courses that are required for graduation if similar coursework has been satisfactorily completed.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. In addition to the twenty-two (22) units required for graduation by the Division of Elementary and Secondary Education (DESE), the district requires an additional 2 units to graduate for a total of (24) units. The additional required units may be taken from any electives offered by the district.[6] There are some distinctions made between Smart Core units and Graduation units. Notes: [1] The Smart Core Information Sheet and the Smart Core Waiver Form are available on the ADE website at http://dese.ade.arkansas.gov/Offices/learning-services/curriculum-support/arkansas-graduation-requirements under the "Related Links" heading.

[2] The DESE's Guidelines stipulate completion by the end of the senior year. We believe this is not in agreement with A.C.A. § 6-18-202(b)(1), which requires public schools to be open through the completion of the secondary program to students between the ages of five (5) and twenty-one (21). Therefore, we suggest that students be allowed to switch from Core to Smart Core if they could successfully complete its requirements by the time they attained their twenty first (21st) birthday. Acceptance of a diploma negates a student's right to switch programs.

[3] We recommend including the review of this policy in the school district support plan process so that the resources intended to be provided from the district level are in alignment with your graduation requirements (including any changes to the state level graduation requirements).

[4] Schools are required to retain documentation procedures and methods used.

[5] The Guidelines require the policy to include the training "procedure." If you prefer a different procedure than inclusion in your district's annual professional development process, change this sentence accordingly.

[6] This sentence is necessary if your district requires more than twenty-two (22) units to graduate; without the sentence and you substitute a number greater than twenty-two (22), it appears that the DESE requires more than twenty-two (22) units to graduate. If you

have specific requirements for the additional units, change the sentence's wording to reflect those requirements.

[8] The Rules specify the option is dependent upon the licensure of the teacher. Specifically, if the course is taught by a licensed social studies teacher, both options exist. If the course is taught by a licensed business education teacher, the credit must be applied toward the career focus requirement.

[9] In order for students to receive the community service learning (CLS) credit, the district must have completed and submitted a CLS plan to DESE. In addition, a partner site application must be approved by the district's board of directors if an organization the District has partnered with, rather than a District employee, is responsible for certifying a student's hours of service. Districts who do not intend to submit a CLS plan should not include this language.

4.45.2—SMART CORE CURRICULUM AND GRADUATION REQUIREMENTS FOR THE CLASS OF 2027 AND THEREAFTER

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a *Smart Core Waiver Form* to not participate. While Smart Core is the default option, a *Smart Core Information Sheet* and a *Smart Core Waiver Form*[1] will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12th) grade student enrolls in the district for the first time and there is not a signed waiver form in the student's permanent record. This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the Alternate Pathway to Graduation when required by their IEP to be eligible for graduation. Counseling by trained personnel shall be available to students and their parents or legal guardians prior to the deadline for them to sign and return the waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year.[2] Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents as part of the annual school district support plan development process[3] to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each; this shall be accomplished through holding an informational meeting for parents, legal guardians, or persons standing in loco parentis to students enrolled in grades six through twelve (6-12) with the school counseler and may be accomplished through any or all of the additional following means:[4]

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter; and/or

- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.[5]

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children and the Arkansas Military Child School Transitions Act of 2021 for all students who meet the definition of "eligible child" in Policy 4.2— ENTRANCE REQUIREMENTS including the waiving of specific courses that are required for graduation if similar coursework has been satisfactorily completed.

GRADUATION REQUIREMENTS

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. In addition to the twenty-two (22) units required for graduation by the Division of Elementary and Secondary Education (DESE), the district requires an additional __ units to graduate for a total of __ units. The additional required units may be taken from any electives offered by the district.[6] There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements. Career education courses that are determined by DESE to be eligible for use in the place of a listed course may be substituted for the course as designated by DESE.

All students must receive a passing score on the Arkansas Civics Exam in order to graduate.

Students shall be trained in quality psychomotor skill bases in cardiopulmonary resuscitation and the use of automated external defibrillators in order to graduate.

Personal and Family Finance

Each student must receive seventy-five (75) clock hours of community service that is certified by the service agency or organization where the student volunteers.

The community service must be in programs or activities, either in Arkansas or outside of Arkansas, that meet the requirements established by the State Board and the District Board of Directors and include preparation, action, and reflection components. Except as provided by this policy, a student must receive at least the following documented clock hours of community service each year:

- Fifteen (15) hours for students in grade nine (9);
- Twenty (20) hours for students in grade ten (10);
- Twenty (20) hours for students in grade eleven (11); and
- Twenty (20) hours for students in grade twelve (12).

Students transferring into the District after grade nine (9) or students who are graduating early may receive a diploma provided that the minimum requirement for each year the student attends the District is met. The District Board of Directors may grant a waiver of the community service requirement for extenuating circumstances on a case-by-case basis, which may include without limitation:

- A major illness associated with a student or a family member of a student;
- Student homelessness or housing insecurity; and
- Notice to the public school district board of directors if the student is a major contributor to family income.

Notes: [1] The Smart Core Information Sheet and the Smart Core Waiver Form are available on the ADE website at https://dese.ade.arkansas.gov/Offices/learning-services/curriculum-support/arkansas-graduation-requirements under the "Related Links" heading.

[2] The DESE's Guidelines stipulate completion by the end of the senior year. We believe this is not in agreement with A.C.A. § 6-18-202(b)(1), which requires public schools to be open through the completion of the secondary program to students between the ages of five (5) and twenty-one (21). Therefore, we suggest that students be allowed to switch from Core to Smart Core if they could successfully complete its requirements by the time they attained their twenty first (21st) birthday. Acceptance of a diploma negates a student's right to switch programs.

[3] We recommend including the review of this policy in the school district support plan process so that the resources intended to be provided from the district level are in alignment with your graduation requirements (including any changes to the state level graduation requirements).

[4] Schools are required to retain documentation procedures and methods used.

[5] The Guidelines require the policy to include the training "procedure." If you prefer a different procedure than inclusion in your district's annual professional development process, change this sentence accordingly.

[6] This sentence is necessary if your district requires more than twenty-two (22) units to graduate; without the sentence and you substitute a number greater than twenty-two (22), it appears that the DESE requires more than twenty-two (22) units to graduate. If you have specific requirements for the additional units, change the sentence's wording to reflect those requirements.

[7] The Rules specify the option is dependent upon the licensure of the teacher. Specifically, if the course is taught by a licensed social studies teacher, both options exist. If the course is taught by a licensed business education teacher, the credit must be applied toward the career focus requirement.

4.47— POSSESSION AND USE OF CELL PHONES AND OTHER ELECTRONIC DEVICES

Students are responsible for conducting themselves in a manner that respects the rights of others. Possession and use of any electronic device, whether district or student owned, that interferes with a positive, orderly classroom environment does not respect the rights of others and is expressly forbidden.

To protect the security of statewide assessments, no electronic device, as defined in this policy, shall be accessible by a student at any time during assessment administration unless specifically permitted by a student's individualized education program (IEP) or individual health plan this means that when a student is taking an AESAA assessment, the student shall not have his/her electronic device in his/her possession. Any student violating this provision shall be subject to this policy's disciplinary provisions. The prohibition in this policy does not extend to the electronic device the District provides the student for the student's use during assessment administration to the extent the student is using the District provided device to complete the assessment.

As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data.

Misuse of electronic devices includes, but is not limited to:

1. **Using electronic devices during class time in any manner other than specifically permitted by the classroom instructor;**
2. Permitting any audible sound to come from the device when not being used for reason #1 above;
3. Engaging in academic dishonesty, including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, or wrongfully obtaining test copies or scores;
4. Using the device to record audio or video or to take photographs in areas where a general expectation of personal privacy exists, including but not limited to locker rooms and bathrooms;
5. Creating, sending, sharing, viewing, receiving, or possessing an indecent visual depiction of oneself or another person.

Use of an electronic device is permitted to the extent it is approved in a student's IEP or it is needed in an emergency that threatens the safety of students, staff, or other individuals.

Before and after normal school hours, possession of electronic devices is permitted on the school campus. The use of such devices at school sponsored functions outside the regular school day is permitted to the extent and within the limitations allowed by the event or activity the student is attending. **Each Campus will establish procedures for the use of cell phones and electronic devices.**

A parent shall obtain approval from the student's building principal before operating a student-tracking safety device at school or at a school-sponsored event if the device has recording or listen-in capability. The District requires the device's recording and listen-in technology to be disabled while the device is on the campus or at the school-sponsored event because of student privacy concerns. The District prohibits unauthorized audio or visual recordings or transmission of audio or images of other students. The student's parent shall agree in writing to the requirement for the device's recording and listening-in technology to be disabled and that the District may prohibit future use of the device on campus or at a school-sponsored activity if it is determined that the device's recording or listening-in capabilities were used in violation of this policy before the student safety tracking device may be on campus or at a school-sponsored event.

The student and/or the student's parents or guardians expressly assume any risk associated with students owning or possessing electronic devices. Students misusing electronic devices shall have them confiscated. Confiscated devices may be picked up at the school's administration office by the student's parents or guardians. Students have no right of privacy as to the content contained on any electronic devices that have been confiscated. A search of a confiscated device shall meet the reasonable individualized suspicion requirements of Policy 4.32—SEARCH, SEIZURE, AND INTERROGATIONS.

Students who use school issued cell phones and/or computers for non-school purposes, except as permitted by the district's Internet/computer use policy, shall be subject to discipline, up to and including suspension or expulsion. Students are forbidden from using school issued cell phones while driving any vehicle at any time. Violation may result in disciplinary action up to and including expulsion.

No student shall use any wireless communication device for the purposes of browsing the internet; composing or reading emails and text messages; or making or answering phone calls while driving a motor vehicle that is in motion and on school property. Violation may result in disciplinary action up to and including suspension.

4.48—VIDEO SURVEILLANCE AND OTHER STUDENT MONITORING

The Board of Directors has a responsibility to maintain discipline, protect the safety, security, and welfare of its students, staff, and visitors while at the same time safeguarding district facilities, vehicles, and equipment. As part of fulfilling this responsibility, the board authorizes the use of video/audio surveillance cameras, automatic identification technology, data compilation devices, and technology capable of tracking the physical location of district equipment, student, and/or personnel.

The placement of video/audio surveillance cameras shall be based on the presumption and belief that students, staff and visitors have no reasonable expectation of privacy anywhere on or near school property, facilities, vehicles, or equipment, with the exception of places such as rest rooms or dressing areas where an expectation of bodily privacy is reasonable and customary.

Signs are posted on campus buildings and in district vehicles to notify students, staff, and visitors that video cameras may be in use. Parents and students shall also be notified through the student handbook that cameras may be in use in school buildings, on school grounds, buses and in school vehicles. Students will be held responsible for any violations of school discipline rules caught by the cameras and other technologies authorized in this policy.

The district shall retain copies of video recordings until they are erased which may be accomplished by either deletion or copying over with a new recording. Other than video recordings being retained under the provisions of this policy's following paragraph, the district's video recordings may be erased any time greater than 30 days after they were created.

Videos, automatic identification, or data compilations containing evidence of a violation of student conduct rules and/or state or federal law shall be retained until the issue of the misconduct is no longer subject to review or appeal as determined by board policy or student handbook; any release or viewing of such records shall be in accordance with current law.

Students, who vandalize, damage, disable, or render inoperable (temporarily or permanently) surveillance cameras and equipment automatic identification, or data compilations devices shall be subject to appropriate disciplinary action and referral to appropriate law enforcement authorities.

Notes: This policy is similar to policies 3.41 and 8.29. If you change this policy, review 3.41 and 8.29 at the same time to ensure applicable consistency between the policies.

While 34 CFR 99.3 exempts records of law enforcement units (which for the purposes of this policy would include School Resource Officers (SROs), 34 CFR 99.8(b) effectively negates that exemption in relation to this policy with the following language:
(2) Records of a law enforcement unit does not mean--

(i) Records created by a law enforcement unit for a law enforcement purpose that are maintained by a component of the educational agency or institution other than the law enforcement unit; or
(ii) Records created and maintained by a law enforcement unit exclusively for a non-law enforcement purpose, such as a disciplinary action or proceeding conducted by the educational agency or institution.
The law goes on to say that education records retain their status as such even when in the possession of a law enforcement unit and thus remain subject to the restrictions on the release of education records contained in the Family Educational Rights and Privacy Act (FERPA). In short, you cannot deny access to the video recordings that may be used for student or staff disciplinary purposes by "hiding" them in your school's law enforcement unit.

[1] You may recycle your videos on whatever schedule works for your district (insert the length of time you choose to retain the videos in the paragraph's following sentence), but you may not destroy any recordings as long as there is an outstanding request to inspect and review them (34 CFR 99.10). The right to inspect is triggered only for those parents whose students are the cause for the retention of the video recordings. Parents of students "inadvertently" caught in the video do not have the right to inspect them. **Please note, however,** that if a student was not 'involved" in the altercation prompting the disciplinary action, but happened to get pushed by one of the students in the fight, the pushed student's parents have the right to review the video. You must permit viewing of education records within a "reasonable" period of time, but in no case may it be longer than 45 days. (34 CFR 99.10)

[2] The issues involved in parental rights to viewing videos are complicated, but the Student Privacy Policy Office of FERPA, has recently simplified the matter. A video of, for example, a fight between two (or even several) students in which other students happen to have been incidentally included in the background of the video generates the following viewing conditions:

a. Either or both of the students' parents may view the video **without** first having to receive permission from the other student's parent(s). None of the parents of the "incidental" students have to give their permission for the viewing of the video by the "involved" students' parents.
b. If a student's parent lives beyond a reasonable distance to physically come to view the video, your district may mail the video to a "receiving" school near to the parent, where the parent may view the video and then the receiving school will mail the video back to your district. The personnel at the receiving school should not view the video, but merely arrange for the parent to view it by himself/herself.
c. The district is **not** obligated to give a copy of the video to the parent or their lawyer. If, however, you choose to give the parent a video, you are obligated to go through all of the hoops that used to be the case for simply viewing the video. Specifically, faces of the "involved" students other than that of the parent's student must be redacted or else you will have to receive written permission from the parents of the other involved students.

d. Remember that the rights of the parents transfer to the students once the student turns 18.
e. Once the video has been viewed by the parties requesting to view it, the law does not require you to keep the video. Common sense would suggest, however, retaining the video at least until the disciplinary process is completed.

4.49—SPECIAL EDUCATION

In accordance with the Individuals With Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act, and Arkansas Statutes, the district shall provide a free appropriate public education and necessary related services to all children with disabilities who reside:

- Within the district boundaries; or
- Outside of the District boundaries but are enrolled in the District.

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the state and federal statutes governing special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding students with disabilities. Among the coordinator’s responsibilities shall be ensuring district enforcement of the due process rights of students with disabilities and their parents.

4.50—SCHOOL MEAL MODIFICATIONS

The district only provides modified meal components on menus to accommodate students with a disability. A parent/guardian wishing to request dietary accommodations for their student with a disability must submit to the district's Director of Child Nutrition a medical statement completed by a State licensed healthcare professional, which includes:

- Physicians, including those licensed by:
  - The Arkansas State Medical Board;
  - The Arkansas State Board of Chiropractic Examiners (Chiropractors);
  - The Arkansas Board of Podiatric Medicine (Podiatrists);
- Nurse Practitioners (APRNs in family or pediatric practice with prescriptive authority);
- Physician Assistants (PAs who work in collaborative practice with a physician); and
- Dentists.

The medical statement should include:

1. A description of the student's disability that is sufficient to understand how the disability restricts the student's diet;
2. An explanation of what must be done to accommodate the disability, which may include:
   a. Food(s) to avoid or restrict;
   b. Food(s) to substitute;
   c. Caloric modifications; or
   d. The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear, or lacks sufficient detail, the district's Director of Child Nutrition shall request additional information so that a proper and safe meal can be provided.

When choosing an appropriate approach to accommodate a student's disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child's disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District's 504 Coordinator, who will schedule a hearing on the grievance to be held as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

The district will not prepare meals outside the normal menu to accommodate a family's religious or personal health beliefs.

4.52—STUDENTS WHO ARE FOSTER CHILDREN

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services (DHS), the Division of Elementary and Secondary Education (DESE), and individuals involved with each foster child to ensure that the foster child is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.[1]

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise or DHS grants a request to transfer under Foster Child School Choice, ensure that the foster child remains in his/her school of origin, even if a change in the foster child's placement results in a residency that is outside the district. In such a situation, the District will work with DHS to arrange for transportation to and from school for the foster child to the extent it is reasonable and practical.[2]

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if a child lacks the required clothing, academic or medical records, or proof of residency.[3]

A foster child's grades shall not be lowered due to absence from school that is caused by a change in the child's school enrollment, the child's attendance at dependency-neglect court proceedings, or other court-ordered counseling or treatment.

Any course work completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.[4]

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by DESE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent, or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted,

the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance. If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:[5]

> The public school or District has reached the maximum student-to-teacher ratio allowed under federal law; state law; the standards for accreditation; or other applicable State rule or Federal regulation; or
>
> Approving the transfer would conflict with a provision of an enforceable desegregation court order or a public school district's court-approved desegregation plan regarding the effects of past racial segregation in student assignment.

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

Graduates from high school; or

Transfers to another school or school district under:

The Foster Child School Choice Act;

Opportunity Public School Choice Act;

The Public School Choice Act of 2015; or

Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public school district.

When a foster child transfers from the foster child's school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child's transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

Notes: Additional guidance documents and training materials on students in foster care may be found on the DESE website at: http://dese.ade.arkansas.gov/divisions/public-school-accountability/federal-programs/foster-care-liaison https://dese.ade.arkansas.gov/Offices/public-school-accountability/federal-programs/Foster%20Care%20Liaison.

[1] The name and contact information of the liaison must be sent to the Special Education Section of DESE at the beginning of each school year. A.C.A. § 9-28-113 contains additional requirements/duties of the liaison.

[2] While A.C.A. § 9-28-113(b)(4) encourages districts to "arrange for transportation," there is no explanation of costs or methods.

[3] A.C.A. § 9-28-113 does not address a district's right to refuse enrollment following a hearing before the board for a student that has been expelled from another school, but we believe that right is retained even in this circumstance.

[4] This language is from A.C.A. § 9-28-113(g). You may add a sentence defining how you interpret its meaning or you may make it a procedural issue which would leave you more latitude for case-by-case implementation.

[5] If the district is not under an enforceable desegregation court order or a court-approved desegregation plan, remove it as an option for denial of a Foster Child School Choice

application.

If a foster child application is denied due to the district's enforceable desegregation court order or court-approved desegregation plan, the law requires that the district immediately submit proof from a federal court to DESE that the public school district has a genuine conflict under an active desegregation order or active court-approved desegregation plan with the provisions of A.C.A. § 6-18-233.

4.53— PLACEMENT OF MULTIPLE BIRTH SIBLINGS

The parent, guardian or other person having charge or custody of multiple birth siblings in grades pre-K through 6 may request that the multiple birth siblings are placed in either the same or separate classrooms. The request shall be in writing not later than the 14th calendar day prior to the first day of classes at the beginning of the academic year. The school shall honor the request unless it would require the school to add an additional class to the sibling's grade level. If one parent of multiple birth siblings requests a placement that differs from that of the other parent of the same multiple birth siblings, the school shall determine the appropriate placement of the siblings.

The school may change the classroom placement of one or more of the multiple birth siblings if:

- There have been a minimum of 30 instructional days since the start of the school year; and
    - After consulting with each classroom teacher in which the siblings were placed, the school determines the parent's classroom placement request is:
        - Detrimental to the educational achievement of one or more of the siblings;
        - Disruptive to the siblings' assigned classroom learning environment; or
        - Disruptive to the school's educational or disciplinary environment.

If a parent believes the school has not followed the requirements of this policy, the parent may appeal the multiple birth siblings' classroom placement to the Superintendent. The Superintendent's decision regarding the appeal shall be final.

4.54 - STUDENT ACCELERATION

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. Acceleration can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability, and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span. Either form of acceleration can be triggered by either a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district/school[1] Gifted and Talented Program Coordinator. The district/school[1] Gifted and Talented Program Coordinator shall convene the Acceleration Placement Committee[2] and communicate with the individuals necessary for the Acceleration Placement Committee to make an informed decision, which shall include the student's parents or guardians.[3]

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring, which gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year.

The District's Gifted and Talented (GT) Program Coordinator[1] will create a written format to govern the referral and determination process, which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing to the District's GT Coordinator[1]. The Districts GT Coordinator[1] and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

Notes: [1] Choose the appropriate designation/option. In a large district with more than one GT Coordinator responsible for the determination process, insert "school." In districts with only one GT Coordinator insert "district." It is conceivable that in districts with more than one GT Coordinator, the choice of inserting district and school will not always be the same.

[2] The DESE Rules require that the acceleration placement committee be made up of at least five (5) professional educators (including administrators, teachers, and/or counselors) and chaired by a gifted education specialist. Suggestions for individuals to be included on the committee include, but are not limited to:

- Building Principal;
- Counselor;
- Teachers (This may include both the student's current teacher(s) as well as teacher(s) that the student would have if the acceleration is granted.)

[3] The student's parent, legal guardian, person having lawful control, or person standing in loco parentis must be provided an opportunity to provide input into the possible acceleration of their student; however, the parent, legal guardian, person having lawful control, or person standing in loco parentis of the student does not have a vote in the determination on whether the acceleration request will be granted as only the acceleration placement committee may make that determination.

4.55—STUDENT PROMOTION AND RETENTION

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Each time a student is assessed by use of a high-quality literacy screener, with results at least once each semester, the Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis, and teacher(s) of a student in kindergarten through eighth (8^{th}) grade shall be notified in writing of the student's independent grade-level-equivalency in reading and, in a parent friendly manner, the student's reading progress.

Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria:

Promotion and Retention of students in grades K-8

The Governing Board expects that each student will progress systematically through the grade levels and will meet grade-level standards of academic achievement established by the district and the Department of Education prior to being promoted to the next grade level of work. However, the Board recognizes that a student in grades K-12 who fails to meet the grade-level achievement standards at the end of the academic year may nonetheless be able to catch up and meet the grade level standards by the end of the next academic year with appropriate supplemental instruction.

The process of making decisions as to promotion and retention of elementary students should take into consideration a variety of factors including age, maturity, motor coordination, capacity for learning, and academic progress.Any teacher recommending retention must document using intervention strategies and their results. If a student needs to be retained based on the teacher's professional judgment of the student's academic performance and/or other factors, the parent(s) or guardian(s) of that student shall be informed as early in the school year as possible. In all cases, the decision of whether a student should be promoted or retained shall be made on the basis of which grade placement provides the student a better chance of progressing in his/her educational development.. If offered, successful completion of an approved summer school program after retention in a grade level may make the student eligible for promotion in the

subsequent school year. The final authority for promotion/retention decisions for students in grades K – 8 rests with the principal. In cases (K-8) where a retention is contested, LCSD Review Committee will determine grade placement for the student.

Students in grades 9-12 must have the designated number of units prior to being promoted to the next grade level and classification.

Grades K-2

Kindergarten through second grade (K-2) LCSD are expected to master academic readiness, social skills, and physical skill designated by the Arkansas Department of Education and the Lafayette County School District standards. Students in Kindergarten through second grade will be promoted unless there are indications that would prohibit them from coping with the academic expectations of the next grade level. Students in grades K-2 shall be promoted to the next grade level with a passing grade in reading and math. Students failing to pass reading and math will be retained in the same grade.

Grades 3-8

Students in grades 3-8 shall be promoted to the next grade level with a passing grade of 60 in three of the four core classes: language arts, math, science and or social studies. Students failing to pass three of the four core classes will be retained in the same grade.

Grades 9-12 Classifications

For students to be permitted to move to the next higher grade level, the following standards must be met:

9th Grade (Freshmen)-Promoted from 8th grade

9 th to 10th Grade (Sophomore) – students who have earned six **(5.5) units** will be classified as tenth graders.

10th to 11th Grade (Junior)- students who have earned thirteen **(10) units** will be classified as eleventh graders.

11th to 12th Grade (Senior) – students who have earned twenty **(16) units**,

If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference shall be held before a final decision is made that includes the following individuals:

a. The building principal or designee;
b. The student's teacher(s);
c. School counselor;
d. A 504/special education representative (if applicable); and
e. The student's parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis.

The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision shall rest with the principal or the principal's designee.

Each student shall have a student success plan (SSP) developed by school personnel in collaboration with the student's parents and the student that is reviewed and updated annually. A student's SSP shall use multiple academic measures to personalize learning in order for students to achieve their grade-level expectations and individual growth. The SSP will identify if the student is in need of additional support or acceleration. Academic measures to be used in creating and updating a student's SSP shall include, but are not limited to:

- Statewide student assessment results;
- Subject grades;
- Student work samples; and
- Local assessment scores.

The SSP for a student in kindergarten through grade three (K-3) who does not meet the reading standard As set by the state board and determined by a high-quality literacy screener or the statewide assessment shall include an individual reading plan for each student. An individual reading plan shall include:

1. The student's specific, diagnosed reading skill needs, including without limitation:
   - Phonemic awareness;
   - Phonics decoding;
   - Text reading fluency;
   - Vocabulary-building strategies; and
   - Self-regulated use of reading comprehension strategies, as identified by high-quality literacy screener data;
2. The goals and benchmarks for the student's growth;
3. How the student's progress will be monitored and evaluated;
4. The type of additional instructional services and interventions the student may receive;
5. The intensive, evidence-based literacy intervention program aligned to the science of reading the student's teacher will use to address the areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension;
6. The strategies the student's parents, legal guardians, or persons standing in loco parentis to the student are encouraged to use in assisting the student to achieve the student's reading goal; and
7. Any additional services the student's teacher determines are available and appropriate to accelerate the student's reading skill development.

All parents, legal guardians, or persons standing in loco parentis shall be notified in writing:

a. Of the content of their child's independent reading plan and progress on the independent reading plan throughout the year; and
b. By no later than October 1 of each year, or as soon as practicable if a student's reading need is identified after October 1:
   - Of their student's eligibility to participate in the literacy tutoring grant program;
   - The process for applying for the literacy tutoring grant program; and
   - Other information provided by DESE.

For each student who does not meet the reading standard established by the state board by the end of third (3rd) grade, including students who are promoted to the fourth (4th) grade under a good cause waiver, the District, during the subsequent summer and school year, shall :

a. Provide at least ninety (90) minutes of evidence-based literacy instruction aligned to the science of reading during each school day;
b. Assign the student to:
    - If the District has a teacher with a value-added model score in the top quartile statewide in English language arts for the past three (3) years, a teacher with a value-added model score in the top quartile statewide in English language arts for the past three (3) years; or
    - If the District is unable to identify a teacher with a value-added model score in the top quartile statewide in English language arts for the past three (3) years, a teacher:
        - With a highly-effective rating according to the Teacher Excellence and Support System, when possible; or
        - Deemed to be a high-performing teacher as defined by a Master Professional Educator designation.
c. Provide parents, legal guardians, or persons standing in loco parentis to students with a "read-at-home" plan to support student early literacy growth, which shall include evidence-based science of reading strategies and tools that are aligned to a student's individual reading plan for parents, legal guardians, or persons standing in loco parentis to use with their student;
d. Notify parents, legal guardians, or persons standing in loco parentis to a student regarding their student's eligibility for a literacy tutoring grant;
e. Be given priority to receive a literacy tutoring grant; and
f. Be given the option to participate in additional intensive, evidence-based literacy intervention programs aligned to the science of reading.

The SSP of a student in kindergarten through grade eight (K-8) who is not performing at or above grade level on the state assessment, as defined by the State Board of Education shall include a math intervention plan. The math intervention plan may include the:

1. Provision of each student with access to high-dosage, targeted math tutoring in the subsequent school year, which shall include three (3) or more tutoring sessions a week in a one-on-one or small-group setting;
2. Assignment to:
    - if the District has a teacher with a value-added model score in the top quartile statewide in math for the previous three (3) years, a teacher, with a value-added model score in the top quartile statewide in math for the previous three (3) years; or
    - if the District is unable to find a teacher with a value-added model score in the top quartile statewide in math for the previous three (3) years, a teacher:
        - With a highly-effective rating in the Teacher Excellence and Support System, when possible; or
        - Deemed to be a high-performing teacher as defined by a Master Professional Educator designation; and
3. Provision of each student with extended time on math instruction during or after school.

All parents, legal guardians, or persons standing in loco parentis shall receive written notification of their student's math intervention plan and progress on the student's math intervention plan throughout the school year.

By the end of grade eight (8), the student's SSP shall:[34]

- Guide the student along pathways to graduation;
- Address accelerated learning opportunities;
- Address academic deficits and interventions; and
- Include college and career planning components.

Based on a student's score on the college and career assessment:

- The student's SSP will be updated in order to assist the student with college and career readiness skills, course selection in high school, and improved academic achievement; and
- Provide a basis for counseling concerning postsecondary preparatory programs.

A student's SSP shall include the recommended sequence of courses for successful completion of the diploma pathway selected by the student but be sufficiently flexible to allow the student to change the student's selected diploma pathway. The school counselor shall meet with the student's parent, legal guardian, or persons standing in loco parentis and the student to review the student's SSP annually and to revise the student's SSP as necessary to identify the courses to be taken each year until all required core courses are completed. Part of the review shall include an explanation of the possible impacts the revisions to the plan might have on the student's graduation requirements and postsecondary education goals. Any change made to a student's SSP as part of the review that amends the student's diploma pathway shall be structured to ensure that the student will meet the high school graduation requirements for the student's chosen diploma pathway and be qualified for admission to a postsecondary educational institution or to enter the workforce. After each review, the student's SSP shall be signed by the student; student's parent, legal guardian, or person standing in loco parentis to the student; and the school counselor.

An SSP shall be created:

1. By no later than the end of the school year for a student in grade eight (8) or below who enrolls in the District during the school year; or
2. As soon as reasonably possible for a student in grade nine (9) or above who enrolls in the District at the beginning or during the school year.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion or retention of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following Statewide assessment, as applicable. The Superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

Notes: **[1]** Insert the criteria your district uses for promotion/retention. The criteria must include the following for students in kindergarten through grade four (k-4):

- A student who has not met the third-grade reading standard as defined by the state board shall not be promoted to fourth(4th) grade unless the student has a good cause waiver. The following students may receive a good cause waiver:
- Limited English Proficiency students who have had less than three (3) years of instruction in an English language learner program;
- Students with a disability who are not eligible for the alternate assessment and who have an individualized education program or a 504 plan that reflects that the individual student:
  - Has received an intensive, evidence-based literacy intervention program aligned to the science of reading for more than two (2) years; and
  - Still demonstrates a need in reading proficiency or previously was retained in kindergarten, grade one (1), grade two (2), or grade three (3);
- Students who:
  - Have received an intensive, evidence-based literacy intervention program aligned to the science of reading for two (2) or more years;
  - Still demonstrate a need in reading proficiency and who previously were retained in kindergarten, grade one (1), grade two (2), or grade three (3);
  - Have received a special education referral and a full comprehensive evaluation; and
  - Have not met exceptional education criteria;
- Students who have already been retained in kindergarten, grade one (1), grade two (2), or grade three (3) for one (1) year;
- Students who can demonstrate that they are successful and independent readers and can perform at or above grade level by use of subsequent student assessments or alternative assessments; or
- Other students with necessary, justifiable good-cause exemptions identified as appropriate by the state board, in consultation with reading experts.

[2] The Division of Elementary and Secondary Education (DESE) Rules Governing the Arkansas Educational Support and Accountability Act only requires that an SSP be created for students in eighth (8th) grade and beyond and DESE will only cite a district if a student does not have an SSP by the end of eighth (8th) grade and beyond. We have opted to have the default language in the

policy be for an SSP to be created for every student, with additional information reviewed and added starting in eighth (8th) grade, for a couple of reasons:
First, we believe requiring an SSP for all grades allows for improved communication between parents, teachers, and students. The creation and existence of an SSP at all levels allows for the use of common terminology (such as a parent who has more than one student simultaneously enrolled at a district would not have to know to ask to review and discuss the SSP for the student in eighth (8th) grade or above and also have to know to ask for the Response to Intervention plan for the student who is below the eighth (8th) grade.) In addition, requiring teachers, parents, and the student (when appropriate) to meet to create an SSP at all grades will help to foster channels of communications between parents and teachers, increase parental engagement, and help prepare parents for the more formal planning process when the student is in eighth (8th) grade and beyond. Second, the creation, evaluation, and updating of the SSP at the lower levels should help to establish a student focused learning system by helping to ensure each student is receiving the educational support(s) necessary for his/her individual educational development, whether the supports are through a Response to Intervention system, the Gifted and Talented program, or anywhere in between.

[3] While students in kindergarten through grade three (k-3) are not required to have an SSP, students who are not reading at grade level are required to have an individual reading plan and students in kindergarten through grade eight (K-8) are required to have a math intervention plan. You are required to report to DESE the types of interventions used and the number of students receiving each type of intervention.

[34] Subsections 6.05.1 through 6.05.4 of the Arkansas Educational Support and Accountability Act rules include additional recommendations for consideration when creating and updating a student's SSP on each of the items in this list.

[45] This paragraph is optional. The paragraph originated with the movement for students to opt out of state assessments. A.C.A. § 6-15-2907(e) requires all students participate in the statewide assessments and this paragraph is intended to add local incentive for students to participate. While the entire paragraph is optional, the last sentence is important as it would keep the policy from having "zero tolerance" (which we do not support) and give you latitude to accommodate instances beyond the student's control such as a car accident, serious illness, or other acts of God. If you choose to include the sentence, you may change "Superintendent" to "Principal" if that would work better for your district. Keep in mind that the decision on who is responsible for deciding whether or not to grant an exception for extraordinary circumstances is a different and separate issue than deciding whether or not to promote or retain a student, which is left in the hands of the school principal earlier in the policy. Be sure to align your decision for this footnote with the decision you made concerning footnote #5.

[5]6 This paragraph is optional. Participation in graduation or extracurricular activities is not a right, and districts may legally place conditions on a public school student's eligibility for participation (such as testing compliance), but districts cannot deny a diploma to an otherwise qualified student or deny a student the ability to attend school. If you choose to include the paragraph, the third to the last sentence may be amended to apply to a timeline of your choice. Be sure to align the staff position responsible for deciding whether or not to grant an exception with the decision you made for footnote #4.

4.56—EXTRACURRICULAR ACTIVITIES – SECONDARY SCHOOLS

Definitions:

"Academic Courses" are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the Division of Elementary and Secondary Education (DESE). Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by DESE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

"Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

"Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.

"Supplemental Improvement Program (SIP)" is an additional instructional opportunity for identified students outside of their regular classroom and meets the criteria outlined in the current Arkansas Activities Association (AAA) Handbook.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments excepted). Additionally, a student's participation in, and the District's operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

Any student who refuses to sit for a Statewide assessment or attempts to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable. The superintendent or designee may waive this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

Interscholastic Activities

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Any student that has a grade of "F" in a core class (i.e. Math, Science, English, or Social Studies) will not be allowed to travel and/or participate if the team has to leave early during the school day.

ACADEMIC REQUIREMENTS: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her high school graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate the fall semester of their tenth-grade year.

ACADEMIC REQUIREMENTS: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

1. Have earned a minimum Grade Point Average (GPA) of 2.0 from all academic courses the previous semester; or

AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

Intrascholastic Activities
AAA Governed Activities

Students participating in intrascholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable intrascholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.

Non-AAA Governed Activities

Unless made ineligible by District policies, all students shall be eligible to participate in non-AAA governed intrascholastic extracurricular activities. Interscholastic activities designed for a particular grade(s) or course(s) shall require the student to be enrolled in the grade(s) or course(s).

School Choice Transfers

A student who transfers under a legal school choice option shall not be denied participation in an extracurricular activity where the student transfers based exclusively on the student's decision to transfer . A student who transfers after July 1 of the year the student enters grade seven (7) shall complete a Changing Schools/Athletic Participation form as defined by AAA, which must be signed by the:

- Superintendent of the student's resident school district;
- Superintendent of the nonresident school district to which the student transfers; and
- Parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student.

The completed Changing Schools/Athletic Participation form shall be filed with the non-resident school district where the student transfers and the AAA. The Changing Schools/Athletic Participation form shall be signed by the superintendent of a student's resident school district and the superintendent of the nonresident school district to which a student transfers unless there is demonstrable evidence of recruiting by the receiving school district personnel or that the student is transferring to the nonresident school district solely for athletic purposes.

Districts should be aware that the AAA handbook contains rules prohibiting students who participate on school sponsored teams of the following interscholastic activities from being permitted to participate in practices and competitions for the same sport during the same season of the interscholastic activity~~.~~:

4.56.1—EXTRACURRICULAR ACTIVITIES - ELEMENTARY

Definitions

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to, inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

"Field Trips" are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

"Interscholastic Activities" means athletic or non-athletic/academic activities where students compete on a school vs. school basis.

"Intrascholastic Activities" means athletic or non-athletic/academic activities where students compete with students from within the same school.

Extracurricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student's educational experience. At the same time, the Board believes that a student's participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments or other similar events excepted with approval of the building principal). All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

A student may lose his/her eligibility to participate in extracurricular activities when, in the opinion of the school's administration, the student's participation in such an activity may adversely jeopardize his/her academic achievement. Students may also be denied permission to participate in extracurricular activities as a consequence of disciplinary action taken by the administration for inappropriate behavior.

Any student who refuses to sit for a Statewide assessment or attempts to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following statewide assessment, as applicable. The superintendent or designee may waive this paragraph's provisions when the

student's failure was due to exceptional or extraordinary circumstances. Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to rules of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.[1]

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone[2] as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if:

- The superintendent of the student's resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District; or
- The student's resident school does not offer the interscholastic activity and the superintendent of the non-resident district agrees to allow the student to enroll in the interscholastic activity.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction in order to participate in an interscholastic activity.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the

student's school's principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one non-accademic course[3] in the District's school where the student is intending to participate in an interscholastic activity that coincides with the interscholastic activity in which the homeschooled student participates and shall be required to be at school only when participation in the interscholastic activity requires other students who participate in the interscholastic activity to be at school.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

A home-schooled student who has met the try out criteria~~,~~ and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;[4]
- permission slips, waivers, physical exams; and
- participation or activity fees.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A home schooled student may begin participating in an interscholastic activity immediately upon being approved to participate by the District if:

- The home schooled student has not withdrawn from an Arkansas Activities Association member school; or
- The student has withdrawn from an AAA member school and enrolled in a home school but did not participate in an interscholastic activity that is a varsity sport at the student's resident district prior to the students withdrawal from the AAA member school.

A student who withdrew from an AAA member school who participated in an interscholastic activity that is a varsity sport at the student's resident district during the previous three hundred sixty-five (365) days shall not be eligible to immediately participate in an interscholastic activity that is a varsity sport in the District. The student will not become eligible for full participation until the completion of the three hundred sixty-five (365) day period from when the student withdrew. A student who is not eligible for full participation may participate in tryouts, practices, classes, or other endeavors associated with the interscholastic activity until the completion of the three hundred sixty-five (365) day period from when the student withdrew.

Notes: [1] This paragraph is not statutorily required, but without advance determination of the timelines, there will be no way for a parent to know when, or even for what semester, they will have to make their application to the district. Such information will benefit all students.

[2] Only include "or their applicable attendance zone's school" if your district has more than one school per grade configuration.

[3] You can only **require** one course, but a district may permit a student to register for more than one course.

[4] Include "drug testing" only if your district conducts such tests.

4.57—IMMUNIZATIONS

Definitions

"In process" means the student has received at least one dose of the required immunizations and is waiting the minimum time interval to receive the additional dose(s).

"Serologic testing" refers to a medical procedure used to determine an individual's immunity to Hepatitis B, Measles, Mumps, Rubella and Varicella.

General Requirements

Unless otherwise provided by law or this policy, no student shall be admitted to attend classes in the District who has not been age appropriately immunized against:

- Poliomyelitis;
- Diphtheria;
- Tetanus;
- Pertussis;
- Red (rubeola) measles;
- Rubella;
- Mumps;
- Hepatitis A;
- Hepatitis B;
- Meningococcal disease;
- Varicella (chickenpox); and
- Any other immunization required by the Arkansas Department of Health (ADH).

The District administration has the responsibility to evaluate the immunization status of District students. The District shall maintain a list of all students who are not fully age appropriately immunized or who have an exemption provided by ADH to the immunization requirements based on medical, religious, or philosophical grounds. Students who are not fully age appropriately immunized when seeking admittance shall be referred to a medical authority for consultation.

The only types of proof of immunization the District will accept are immunization records provided by a:

A. Licensed physician;
B. Health department;
C. Military service;
D. Official record from another educational institution in Arkansas; or
E. An immunization record printed off of the statewide immunization registry with the Official Seal of the State of Arkansas.

The proof of immunization must include the vaccine type and dates of vaccine administration. Documents stating "up-to-date", "complete", "adequate", and the like will not be accepted as proof of immunization. No self or parental history of varicella disease will be accepted as a history of varicella disease; a licensed physician, advanced practice nurse, doctor of osteopathy, or physician's assistant, must document proof. Valid proof of immunization and of immunity based on serological testing shall be entered into the student's record.

In order to continue attending classes in the District, the student must have submitted:

1) Proof of immunization showing the student to be fully age appropriately vaccinated;
2) Written documentation by a public health nurse or private physician of proof the student is in process of being age appropriately immunized, which includes a schedule of the student's next immunization;
3) A copy of a letter from ADH indicating immunity based on serologic testing; and/or
4) A copy of the letter from ADH exempting the student from the immunization requirements for the current school year, or a copy of the application for an exemption for the current school year if the exemption letter has not yet arrived.

Students whose immunization records or serology results are lost or unavailable are required to receive all age appropriate vaccinations or submit number 4 above.

Temporary Admittance

While students who are not fully age appropriately immunized or have not yet submitted an immunization waver may be enrolled to attend school, such students shall be allowed to attend school on a temporary basis only. Students admitted on a temporary basis may be admitted for a maximum of thirty (30) days (or until October 1st of the current school year for the tetanus, diphtheria, pertussis, and meningococcal vaccinations required at ages eleven (11) and sixteen (16) respectively if October 1st is later in the current school year than the thirty (30) days following the student's admittance). No student shall be withdrawn and readmitted in order to extend the thirty (30) day period. Students may be allowed to continue attending beyond the thirty (30) day period if the student submits a copy of either number 2 or number 4 above.

Students who are in process shall be required to adhere to the submitted schedule. Failure of the student to submit written documentation from a public health nurse or private physician demonstrating the student received the vaccinations set forth in the schedule may lead to the revocation of the student's temporary admittance; such students shall be excluded from school until the documentation is provided.

The District will not accept copies of applications requesting an exemption for the current school year that are older than two (2) weeks based on the date on the application. Students who submit a copy of an application to receive an exemption from the immunization requirements for the current year to gain temporary admittance have thirty (30) days from the admission date to submit either a letter from ADH granting the exemption or documentation demonstrating the student is in process and a copy of the immunization schedule. Failure to submit the necessary documentation by the close of the thirty (30) days will result in the student being excluded until the documentation is submitted.

Exclusion from School

In the event of an outbreak, students who are not fully age appropriately immunized, are in process, or are exempt from the immunization requirements may be required to be excluded from school in order to protect the student. ADH shall determine if it is necessary for students to be excluded in the event of an outbreak. Students may be excluded for no fewer than twenty-one (21) days or even longer depending on the outbreak. No student excluded due to an outbreak shall be allowed to return to school until the District receives approval from ADH.

Students who are excluded from school are not eligible to receive homebound instruction unless the excluded student had a pre-existing IEP or 504 Plan and the IEP/504 team determines homebound instruction to be in the best interest of the student. To the extent possible, the student's teacher(s) shall place in the principal's office a copy of the student's assignments:

- for the remainder of the week by the end of the initial school day of the student's exclusion; and
- by the end of each school's calendar week for the upcoming week until the student returns to school.

It is the responsibility of the student or the student's parent/legal guardian to make sure that the student's assignments are collected.

Students excluded from school shall have five (5) school days from the day the student returns to school to submit any homework and to make up any examinations. State mandated assessments are not included in "examinations" and the District has no control over administering state mandated make-up assessments outside of the state's schedule. Students shall receive a grade of zero for any assignment or examination not completed or submitted on time.

Annually by December 1, the District shall create, maintain, and post to the District's website a report that includes the following for each disease requiring an immunization under this policy:

- The number of students in the District that were granted an exemption by the Department of Health from an immunization;
- The percentage of students in the District that were granted an exemption by the Department of Health from an immunization;
- The number of students within the District who have failed to provide to the public school proof of the vaccinations required and have not obtained an exemption from ADH;
- The percentage of students within the District who have failed to provide to the public school proof of the vaccinations required and have not obtained an exemption from ADH; and
- The percentage of a population that must receive an immunization for herd immunity to exist.

4.58—FOOD SHARING AND ITS REMOVAL FROM FOOD SERVICE AREA FOOD SHARING TABLE

The District has no food sharing system for food items other than milk and juice. Students who do not intend to drink milk or juice received as part of a meal may place the milk/juice in a designated ice-filled cooler located at the end of the service line where another student may retrieve it at no charge. Milk and juice may not be taken by another student unless the carton is unopened and was completely covered by ice while in the cooler. A student may not return to the cooler to place for sharing or retrieve an item after the student has left the service line.

At all times, the cooler will be under the supervision of the food service staff. Remaining items should be discarded at the end of the meal period, and no item is to remain in the cooler for longer than four (4) hours.

Removing Food Items from the Food Service Area

No student shall remove school provided food items from the food service area at the end of the meal period, especially milk, juice, and other items requiring temperature controlled environments.

Except for food service workers as required by their job duties, District employees may only remove school provided food items from the food service area when required by a 504 plan or a student's IEP.

4.59—ACADEMIC COURSE ATTENDANCE BY PRIVATE SCHOOL AND HOME SCHOOLED STUDENTS

The District allows private school and home schooled students whose parents, legal guardians, or other responsible adult with whom the student resides are residents of the District to attend academic courses offered By the District. The District will place a list of courses that a private school or home schooled student may request to attend on its website by:

The District permits a private school or home schooled student to attend a maximum of six (6) courses per semester.

The District may reject a private school or home schooled student's request for attendance if the District's acceptance would:

Requests to attend an academic course will be granted in the order the requests are received. Upon the receipt of a private or home schooled student's request to attend academic course(s), the District will date and time stamp the request for attendance. If a private school or home schooled student is denied attendance based on a lack of capacity and an opening in the requested course occurs prior to the start of the course, the District will use the date and time stamp on the request for attendance to determine the private school or home schooled student who will be notified of an opening in the requested course.

As part of the request to attend academic courses in the District, a private school or home schooled student shall:

- Indicate the course(s) the private school or home schooled student is interested in attending;

- Agree to follow the District's discipline policies; and
- Submit immunization documentation required by Policy 4.57—IMMUNIZATIONS.
- *LCSD reserves the right to request the student pay for any required text/work book that maybe required for any classes taken.*

A private school or home schooled student who fails to attend an academic course by the eleventh (11) day of class or who is absent without excuse for eleven (11) consecutive days during the semester shall be dropped from the course.; however, a private school or home schooled student shall not be considered truant for unexcused absences from the course(s) the student is attending at the District.

Private school or home schooled students shall receive a final grade and transcript for each academic course the student completes.

The responsibility for transportation of any private school or home schooled student attending academic courses in the District shall be borne by the student or the student's parents.

The opportunity provided to home schooled students under this policy is in addition to the opportunity provided in Policy 4.56.2—EXTRACURRICULAR ACTIVITY ELIGIBILITY FOR HOME SCHOOLED STUDENTS.

"Behavior Intervention Plan" (BIP) means a written plan that:

A plan for preventing and eliminating inappropriate student behavior by changing a condition that is triggering, motivating, underlying, or supporting that behavior as determined through a FBA;
A plan for teaching a student to demonstrate appropriate social, emotional, or behavioral self-management, or a new method to address or meet the student's needs;

"Chemical restraint" means the use of a drug or medication to control the behavior of a student or restrict the free movement of the student; however, chemical restraint does not include the use of medication that is prescribed by a licensed physician, or other qualified health professional acting within the scope of the individual's professional authority under state law, for the standard treatment of a medical or psychiatric condition of a student and is administered as prescribed by the licensed physician or other qualified health professional acting within the scope of the individual's professional authority under state law.

"Crisis" means a situation in which a student engages in a behavior that threatens the health and safety of the student or others and includes without limitation a situation in which the student becomes aggressive or violent at school and is unable to regain self-control without posing a danger of injury to himself or herself or others.

"Crisis intervention" means the implementation of a service, support, or strategy to immediately stabilize a crisis and prevent the crisis from reoccurring after the crisis ends.

"Dangerous behavior" means the behavior of a student that presents an imminent danger of serious physical harm to the student or others; however, dangerous behavior does not include the following:

Disrespect;
Noncompliance;
Insubordination; or
Destruction of property that does not create an imminent danger.

"De-escalation" means the use of a behavior management technique that helps a student increase the student's control over the student's emotions and behavior and results in a reduction of a present or potential level of danger that in turn reduces the level of imminent danger of serious physical harm to the student or others.

"Emergency" means a serious and unexpected situation that requires immediate action and which may be dangerous.

"Functional Behavior Assessment" (FBA) means a problem analysis step that:

Occurs within the context of data-based problem-solving and involves:

The review of existing records and other sources of information;

Diagnostic or historical interviews;

Structured academic or behavioral observations; and

Authentic, criterion-referenced, or norm-referenced tests; and

Is performed with the goal of determining why a specific problem or situation is occurring in order to directly link a strategic intervention to an assessment and solve or resolve the specific problem or situation.

"Imminent danger" means an existing dangerous situation that could reasonably be expected to immediately cause death or serious physical harm.

"Mechanical restraint" means the use of a device or equipment to restrict the free movement of a student; however, mechanical restraint does not include a device that is used by trained school personnel or a student for a specific and approved therapeutic purpose or safety purpose for which the

Device was designed or prescribed or a vehicle safety restraint that is appropriately used in the manner for which it was designed during the transport of a student in a moving vehicle.

"Physical escort" means a temporary touching or holding of the hand, wrist, arm, shoulder, or back of a student for the purpose of redirecting or inducing the student to move to a safe location.

"Physical restraint" means a personal restriction that immobilizes or reduces the ability of a student to move the student’s torso, arm, leg, or head freely; however, physical restraint does not include a physical escort.

"Positive behavioral support" means the application of behavior analysis that:

Is used to achieve socially important behavior change;

Occurs at the:

Prevention level for all students in a school;

Strategic intervention level for a student who is not responding, from a social-emotional and behavioral perspective, to the prevention level; and

Intensive service or crisis-management level for a student who needs multifaceted or comprehensive behavioral or mental health services; and

Involves a planned and collaborative school-wide approach that is implemented with a goal:

Of establishing a positive and supportive school environment that:

Teaches and reinforces prosocial behavior in a student;

Holds a student positively accountable for meeting an established behavioral expectation; and

Maintains a level of consistency throughout the implementation process; and

That is accomplished by using positive behavioral programs, strategies, or approaches.

"Prone restraint" means restraining a student in a face-down position on the floor or another surface and applying physical pressure to the body of the student to keep the student in the prone position.

"Serious physical harm" means bodily injury that involves a substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

"Supine restraint" means the restraint of a student in a face-up position on the student's back on the floor or another surface and with physical pressure applied to the body of the student to keep the student in the supine position.

Positive Behavioral Supports

The District shall implement positive behavioral supports to be used at the:

Prevention level for each student in a school;

Strategic intervention level for a student who is not responding, from a social, emotional, or behavioral perspective, to the prevention level; and

Intensive service or crisis-management level for a student who needs multifaceted or comprehensive behavioral or mental health services.

The District's positive behavioral support shall include:

The teaching and reinforcing of interpersonal, social, problem solving, conflict resolution, and

Coping skills to a student;

Holding a student positively accountable for meeting an established behavioral expectation;

Maintaining a high level of consistency through the implementation of the positive behavioral support process; and

The following interrelated activities:

Providing a school-wide approach to the discipline and safety of each student rather than an approach to only the behavior problem of a single student;

Focusing on preventing the development and occurrence of problem behavior;

Regularly reviewing behavior data to adapt the District's procedures to meet the needs of every student; and
Providing a multitier approach to academic and behavioral services and support to meet the academic and behavioral achievement needs of each student.

The following principles shall form the basis of the District's positive behavioral support system and conflict resolution or de-escalation approach:

A student has the right to be treated with dignity;
A student should receive necessary academic, social, emotional, and behavioral support that is provided in a safe and least-restrictive environment possible;
Positive and appropriate academic, social, emotional, or behavioral intervention, as well as mental health support, should be provided routinely to each student who needs the intervention or support;
Behavioral intervention should emphasize prevention as part of the District's system of positive behavioral support; and
Each student who exhibits an ongoing behavior that interferes with the student's learning or the learning of others, and who is nonresponsive to effectively implemented classroom or administrative intervention, should receive additional intensive behavioral intervention that is based on a FBA and data-based problem solving.

Problem Solving and Intervention Team

A problem-solving and intervention team shall be established for each student who exhibits social, emotional, or behavioral difficulty that may escalate, if not addressed, to potentially dangerous behavior. The problem-solving and intervention team shall include at least one (1) member who is an academic and behavioral assessment and intervention professional.

A student's problem-solving and intervention team shall:

Work with the teachers of a student to complete a FBA of the student and an assessment of any problematic situations involving the student;
Consider the need for a BIP with the goal of preventing or resolving the social, emotional, or behavioral difficulty of the student and developing a response that will de-escalate and stabilize a potential emergency situation that approaches the danger level; and
Regularly review the data on incidents involving the use of physical restraint on the student and adjust, as necessary, the procedures concerning the use of physical restraint on the student.

Special education procedures shall be followed if a student is suspected of having a disability that relates to behavioral concerns.

Physical Restraint

Except in the case of a clearly unavoidable emergency situation in which a trained member of school personnel is not immediately available due to the unforeseeable nature of the emergency situation, the physical restraint of a student shall only be used by a member of school personnel who is appropriately trained to administer physical restraint.

When using physical restraint on a student, school personnel shall:

- Use the least restrictive technique necessary to end imminent danger or serious physical harm to a student and others;
- Use the safest method available and appropriate to the situation;
- Consider the health and safety of a student, including without limitation whether the student has an existing medical condition that makes the use of physical restraint inadvisable;
- Not restrict the ability of a student to communicate unless the use of a less restrictive technique will not prevent imminent danger of serious physical harm to the student or others;
- Use only the amount of force that is reasonably necessary to protect a student or others from imminent danger of serious physical harm to the student or others;
- Not verbally abuse, ridicule, humiliate, taunt, or engage in any other similar action towards the student; and
- Continuously and visually observe and monitor the student while the student is under physical restraint.

Physical restraint of a student shall only be used for a limited period of time and shall not be used:

- When imminent danger or serious physical harm to the student or others dissipates;
- If a medical condition occurs that puts the student at risk of harm;
- Unless the behavior of the student poses an imminent danger of serious physical harm to the student or others;
- After the threat of imminent danger of serious physical harm to the student or others dissipates; or
- In the following manner:
  - To punish or discipline the student;
  - To coerce the student;
  - To force the student to comply;
  - To retaliate against the student;
  - To replace the use of an appropriate educational or behavioral support;
  - As a routine safety measure;

As a planned behavioral intervention in response to behavior of the student that does not pose an imminent danger of serious physical harm to the student or others;
As a convenience for school personnel; or
To prevent property damage unless the act of damaging property committed by the student poses an imminent danger or serious physical harm to the student and others.

Even in an emergency, supine restraint shall not be used on a student except by a staff person who has been certified by a crisis intervention training program and the certified staff person determines that supine restraint is required to provide safety for the student and others.

At no time shall school personnel use the following on a student:

Mechanical restraint;
Chemical restraint;

Aversive behavioral interventions that compromise health and safety;
Physical restraint that is life-threatening or medically contraindicated; or
Prone restraint or other restraint that restricts the breathing of a student.

Following the first incident of physical restraint used on a student, an FBA shall be conducted unless a previous FBA was conducted for the same behavior that was at issue when the physical restraint was used.

The use of physical restraint on a student as a planned behavioral intervention shall not be included in a student's IEP, 504 Plan, BIP, individual safety plan, or other individual planning document but may be considered as a crisis intervention if appropriate for the student. A student's IEP team or 504 Plan team shall consider whether an FBA should be performed; if a BIP should be developed for the student or if a student's existing BIP should be revised; and if additional behavioral goals and interventions should be included in the student's existing IEP or 504 Plan.

Parents may submit complaints regarding an incident involving the use of physical restraint on their student. A complaint shall be referred for review to the appropriate school personnel:

The student's problem-solving and intervention team;
The student's IEP team; or
The student's 504 Plan team.

A complaint by a parent shall be handled by the appropriate District staff in the same manner as a debrief following the use of physical restraint on a student.[1]

Use of a physical restraint technique that is abusive shall be reported to the Child Abuse Hotline and law enforcement.

Reports and Debriefing

After the occurrence of an incident involving physical restraint of a student, the building principal, or the principal's designee, shall be notified of the incident as soon as possible but by no later than the end of the school day when the incident occurred.

The student's parent shall be notified of the incident of the use of physical restraint via verbal or electronic communication as soon as possible but by no later than the end of the school day when the incident occurred. In the event the student's parent is unable to be notified via verbal or electronic communication within twenty-four (24) hours after the incident occurred, then the parent shall be mailed written notification of the incident within forty-eight (48) hours after the incident occurred.

School personnel involved in the incident shall document the incident in a written report, which is to be completed within twenty-four (24) hours after the incident occurred. The written report of the incident shall:

Include all information contained in the Division of Elementary and Secondary Education (DESE) Physical Restraint or Seclusion Incident Record and Debriefing Report;
Be maintained in the student's education record; and
Be provided to the student's parent within one (1) school day of the completion of the report.

A debriefing meeting shall be held within two (2) school days after the incident occurred. The following school personnel shall be present at the debriefing meeting:

2

A member of school personnel who was present during the incident;
A member of school personnel who was in the proximity of the student on whom physical restraint was used immediately before and during the time of the incident;
A school administrator; and
Any other member of school personnel determined to be appropriate by the District.

The purpose of the debriefing meeting shall be to:

Determine whether the procedures used during the incident were necessary;
Evaluate the use of any behavioral supports and de-escalation techniques by school personnel before and during the incident;
Evaluate the school district's positive behavioral supports system and prevention techniques in order to minimize future use of physical restraint; and

If a trained member of school personnel was not immediately available due to the unforeseeable nature of the emergency situation when the incident occurred:

Reevaluate the training needs of school personnel;
Reevaluate the physical restraint policy and practices; and
Develop a plan to prevent a future incident.

At a debriefing meeting, school personnel shall:

Consider relevant information in the student's education record, including without limitation:

The concerns of the student's parent;
The student's social and medical history;
The student's FBA, if one exists; and
The student's BIP, if one exists;

Consider relevant information from the teachers, parents, and other District professionals;
Discuss whether positive behavior supports were appropriately implemented;
Discuss the duration and frequency of the use of physical restraint on the student;
Discuss appropriate action that may be taken to prevent and reduce the need for physical restraint;
Consider whether additional intervention and support is necessary for the student;
Consider whether additional intervention and support is necessary for school personnel; and
Consider how and when to debrief a person who was not present at the debriefing meeting, including without limitation:

The student;
The student's parent; and
Other school personnel or students who witnessed the incident.

DESE's Physical Restraint or Seclusion Incident Record and Debriefing Report, or an alternative report that includes the same information, shall be completed during the debriefing meeting. A copy of the report shall be:

Submitted to the building principal;[3]
Mailed to the student's parent within two (2) days of the date on which the debriefing meeting was held; and
Maintained as part of the student's education record along with other documents consulted during the debriefing meeting.

Notes: A copy of the DESE Guidance on the Use of Restraint along with the Physical Restraint or Seclusion Incident Record and Debriefing Report can be found at: https://dese.ade.arkansas.gov/Offices/special-education/policy-regulations/guidance-and-resources.

[1] There is nothing in the statute that requires the complaint to be handled in the same manner as a debriefing. This is intended only as a default method as you are required to have procedures governing the handling of a parental complaint. After consultation with appropriate staff, replace this language with your local procedures on how a complaint will be handled.

[2] While you can, and should, add additional staff members to the list of those required to attend a debriefing meeting, A.C.A. § 6-18-2307 requires these individuals be included at a minimum.

[3] A.C.A. § 6-18-2307 requires that the debriefing report be submitted to a designated district administrator. If you would rather have all debriefing reports provided to one single individual at the district staff level instead of keeping them at the school level, replace this with the district level position to whom debriefing reports should be submitted.

Student Assignments

Student assignments include, but are not limited to:

If the forum is a scheduled event with designated student speakers, the building principal shall have an opportunity to review pre-written remarks prior to the student's presentation at the scheduled forum. The principal may require the student to amend the student's remarks to the extent necessary to address any portions that are determined to be inappropriate. A student's refusal to amend the remarks that were determined to be inappropriate may be prohibited from participation in the forum. A

student who diverts from the approved pre-written remarks during a speech in such a manner that is determined to be inappropriate by the building principal or another present District staff member may be asked to return to the approved remarks. If a student refuses to return to the approved remarks or continues to divert from the approved remarks in a manner that is determined to be inappropriate may be escorted from the forum and disciplined in accordance with the District's Student Code of Conduct.

If the timing or format of the forum does not provide for pre-written remarks to be reviewed, then the building principal or other District staff shall have the authority to address a student whose remarks are determined to be inappropriate. The building principal or District staff member shall initially ask the student to cease the inappropriate remarks. If the student refuses or makes additional inappropriate remarks after being directed to seace such remarks, Then the building principal or District staff member may escort the student from the forum and the student may be disciplined in accordance with the District's Student Code of Conduct

[2] Insert the students in addition to the salutatorian and valedictorian that traditionally speak at your graduation ceremony. Be sure to include the process for how those students are designated if it is not due to that student's position, such as class president. If you have opted not to have salutatorians and valedictorians, you may remove them from this policy.

4.65 – Homebound Students

If a student enrolled at LCSD is unable to attend school due to an illness, homebound instruction may be requested. In order to be eligible for homebound instruction, written medical verification from a physician stating the Student's inability to attend school must be presented to the principal for approval. **Applications for Homebound Instruction can be found with this policy (4.65 – Homebound Student-Application)**. Incomplete forms will not be considered for approval.

Assignment of all homebound instruction, with the exception of special education Students, is under the direction of the building principal. The principal is responsible for determining the need for and the amount of instruction that will be provided to each individual Student. Scheduling of homebound instruction for special education Students will be determined by the IEP committee and the Special Education Coordinator.

Attendance policies continue to apply to student absences until homebound instruction is officially approved by the District's administration and the student (Parent/Guardian) has been notified of the approval for homebound. Submitting a request does not assure approval of the request.

Instruction will be provided for a maximum of four hours per week. To be eligible for homebound instruction, a Student shall have proper documentation from a physician or health care facility. **Every 30 days, the Student must be re-evaluated by the physician or health care facility verifying continuous participation in the homebound program.**

Instruction will be provided by a certified teacher or principal's designee of the district. The designated instructor will be responsible for gathering homework assignments, tests, etc. from the Student's regular teachers and return all completed work to each teacher. Credit cannot be earned in certain courses through homebound instruction if an excessive number of days will be missed (example: physical education, drama, art, speech, lab courses, band, vocal music, etc.) Students refusing to do assignments in a timely manner will be dropped from the homebound program.

The principal, parent/guardian, and homebound instructor will determine a suitable location for instruction time (i.e. Student's home, public library, city hall, school), during an outbreak of a pandemic homebound instruction will be conducted remotely through Zoom and Google Meets. Assignments may be sent electronically through email or dropped off at the school by the parent. Students must notify the homebound tutor or principal immediately if they anticipate not completing their assignments by the assigned deadlines. Students/guardians must contact the homebound instructor if they are unable to meet during the appointed time/location. Homebound services can be discontinued due to repeated cancellations.
