ORDINANCE _____-24

Sponsored By Audrey W. M

AN ORDINANCE AMEDNING SECTIONS 618 OF THE CODIFIED ORDINANCES

WHEREAS, this Council has identified the issue of feral cats throughout the City, to be a concern for the health and well-being of the community; and

WHEREAS, the City would like to amend the current ordinance; and

WHEREAS, this Council must act to approve the recommendations.

NOW THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF LONDON, STATE OF OHIO

SECTION I:

Section 618.19 of the Codified Ordinances shall be and hereby is amended to reflect the following:

618.19 NUISANCE CONDITIONS AND FEEDING OF WILDLIFE AND STRAY ANIMALS PROHIBITED.

(a) No person shall keep or harbor any animal or fowl in the Municipality so as to create noxious, or offensive odors or unsanitary conditions which are a menace to the health, comfort or safety of the public.

(b) No person shall provide food for dogs, cats, feral cats, deer, geese, ducks, raccoons, fowl or other wild ~~animals or wildlife by~~ setting such food out on any public property, or within a 100 yard radius of any private residence or public right-of-way. This section does not apply to animals owned by that person, or to song birds fed from a stationary bird feeder.

Except for TRAPPING for NEUTER SPAY

(c) Any cat that is wild, strayed or unowned shall be considered feral. A domestic cat turned wild shall be considered feral. Feral cats are not considered pets.

(d) Whoever violates this section is guilty of a minor misdemeanor for the first offense, a fourth degree misdemeanor for the second offense, a third degree misdemeanor for the third offense and a second degree misdemeanor for the fourth or subsequent offense.

SECTION II:

That this Ordinance is hereby declared an emergency measure necessary for the immediate preservation of the public peace, health, and safety of the City to take effect and be in full force immediately upon its passage.

PASSED:

Council Member Norman <mnorman@londonohio.gov> Wed, Apr 24, 2024 at 7:31 AM
To: Andrew Hitt <ahitt@londonohio.gov>
Cc: Rex Castle <rcastle@londonohio.gov>, Joshua Peters <jpeters@londonohio.gov>, Shannon Treynor <streynor@londonohio.gov>, Brent McDaniels <bmcdaniels@londonohio.gov>, Rich Hays <rhays@londonohio.gov>, Council Clerk <councilclerk@londonohio.gov>, John Stahl <jstahl@londonohio.gov>, Greg Eades <geades@londonohio.gov>, Jennifer Hitt <jhitt@londonohio.gov>, Patrick Closser <pclosser@londonohio.gov>

Hey Mr. Hitt,
Thanks for taking the time to look through it. Great questions. I can answer some of them.

" You divided Wards by Voter Population in here. The ORC, I believe, states Wards need to be divided by Population numbers equally not Voter Population"
When I started doing the research for this. I wasn't sure how I would find out the population in order to do it. I reached out to the Ohio Secretary of State. I was instructed that when Ward boundaries are created the "population" that is mentioned in the ORC, while it doesn't designate the title "Voter Population", the term "population", in this section, refers to those who will be voting in elections. The purpose or "spirit" of Wards is to make all of them "substantially equal". I was directed to the Board of Elections to enable me to retrieve the information of the "Voter Population" in the different wards. So, that is how I got the "numbers".

"-I'm concerned there would be no representative for Ward 1 with the proposed re-boundary plan. Also, this would place 3 current Council members in Ward 2."

The "new" Ward 1 would maintain the current representative until the term expired and then it would be up for election based on the new boundaries.(Also verified by the SOS) The other two current representatives are Ward 2 Representative and At Large Representative.

-Just to make boundaries neater...I'm not sure how this would come out as far as numbers go but the area along S. Main St to West High could be incorporated into Ward 3. Ward 4 could be expanded to incorporate the area by the hospital on the east side of North Main along Park Ave. Ward 1 could include the London Landing area, Amherst and Chevington as it is now. Ward 2 could take in the Sheffield area across from Kroger

This can surely be looked into.

Again I appreciate that you took the time to look through this. This isn't a "take it or leave it" type of issue. It will take the input of all of us to "fine tune" it.

I would agree with Rex that we should probably have some sort of work session so that we are all in the same room, can discuss, and iron this out.

Thank you.

Michael Wayne Norman

Why the need to revise the boundaries of our city wards?

Ohio Revised Code requires the local legislation authority to divide ward in this way:

ORC 761.06 3(D) All wards shall be bounded, as far as practicable, by county lines, streets, alleys, lot lines, avenues, public grounds, canals, watercourses, municipal corporation lines, center lines of platted streets, or railroads, and shall be composed of adjacent and compact territory, ***and substantially equal in population.***

Currently our wards are not "substantially equal in population, as illustrated in the chart below.

	Current Voters	Variance
Ward 1	2257	
Ward 2	1595	42%
Ward 3	1047	116%
Ward 4	1580	43%

Ward 1 dominates the other wards, in terms of voter population, being 2257.

Ward 3 is the least dominant in terms of voter population, being 1047.

This is a 116% variance between the most voter populated ward and the least voter populated ward.

Seasonal Park Assistant

May 1st to September 30th (22 weeks)

32 – 40 hours per week (maximum 880 hours)

$20 per hour (maximum $17,600.00)

-Ball Fields

-Park reservations assistance

-Pool coverage (if needed)

-Other duties as needed

Public Service Committee
5/14/2024

1. Swimming Pool
    a. Opening Day is Saturday May 25th
    b. Membership Passes are now available for purchase
        i.

Seasonal Pass	Amount
Single (3-59 Years Old)	$100
Double (in same household)	$150
Family (up to 5 household members)	$200
Additional Cost Per Person on Family (8 total max)	$40
Senior Citizen (60+ Years Old)	$60
Double Senior Pass (60+, Same Household)	$85

    c. Evening Pool Rentals
        i. 8-10pm, up to 100 guests, bring your own food and drinks
            1. $350 for Residents, $400 for Non-Residents

2. Parks
    a. Both parks have received some vandalism in the past week or two
        i. Added metal signs that say, “Smile, You Are on Camera” and “Video Recording in Progress”
        ii. Increased hard drive on server to be able to record 24/7
        iii. Working with police to identify those who are vandalizing, and to have them prosecuted
        iv. Will look at vandal proof amenities for the Cowling Park Restrooms
    b. Movie Night in Cowling Park
        i. Friday, May 31st

3. Ball Diamonds
    a. 1 Diamond at Merri Mac and the diamond at Park Ave. are available for rentals. Other Merri Mac diamond to be completed soon
        i. $15 an hour or 10 hours for $100
        ii. Currently have brought in $1270 in past & future rentals
    b. Dugouts at Merri Mac are the next project to focus on

4. Community Gardens
    a. Located off First St, in front of where the Elementary School was
    b. Different size plots
        i. 12’x12’,10’x10’,6x6’, or 3’x3’
    c. Working with OSU Extension Office and London Library on promoting the gardens by offering classes and tool rentals

Public Services Committee Meeting Agenda
(Streets Dept, Parks and Recreation Dept)
City Hall Meeting Room
20 S. Walnut St
London, Ohio

May 14th, 2024
Call to Order
Approval of Minutes

Department Head/Administration Reports(Street Dept, Park & Recreation Dept, Mayor, Safety Service Director)

Old Business

-Ward Boundaries(review with Law Director and other Council members, submit to Board of Elections)

-Festival location and parade route(planning mtg outcome?)

New Business

-Striping of Main St(Rex)

-Cat issues

-Park vandalism issues(Brent)

Adjourn

NEW BUSINESS-

-Striping of North Main Street -SSD Castle and Street Superintendent discussed the cost for striping the section of North Main Street, specifically by Cowling Park. It was determined that the legislation should be forward to the Public Safety Committee for consideration.

-Cat Issues-A citizen concerned about the cat population in our downtown area and the byproduct the cats were leaving on the sidewalks and walkways. Research was done and it was found that we currently have a catch/spay/neuter/release program that will help with the population. It was temporarily put on hold because a key administrator of the program, the veterinarian, had been on leave. It is now back up and an option for population control.

One of the factors that is contributing to the overpopulation of cats in the downtown business area is the feeding of "feral cats". Currently this is no legislation in the Codified Ordinances that prohibits the feeding. Legislation was proposed to amend the Codified Ordinances to prohibit the feeding of "feral "cats throughout the city. A motion was made by Council Member Norman forward the proposed legislation to City Council. It was Seconded by Council Member McDaniels. Approved by unanimous vote.

There was also a motion made by Council Member Norman for the proposed appropriation of $10,000 for a "professional" trapper to catch/spay/neuter/release the feral cat population in the downtown business area. Seconded by Council Member McDaniels. Approved Unanimously.

Park Vandalism-Park vandalism and unruliness has already started to be reported this spring/summer season. Council Member McDaniels presented a proposal to create a Park Ambassador Program(attached). The program is designed to put volunteer "ambassadors" in the park. Volunteers are recruited and trained to provide information to park visitors, serve as a visual presence in the parks to promote responsible stewardship, advocate for the City of London, and distribute relevant information in our local public parks. It was discussed that there might be a way to "merge" this proposal with the previous legislation adding a Seasonal Park Assistant.

Adjournment- Meeting was adjourned at 5:59pm.

Minutes Submitted by Council Member Michae W. Norman -Ward 3

Public Service Committee Meeting -Minutes

(Streets Dept., Parks, and Recreations Dept)

City hall Conference Room

20 S. Walnut St

London, Ohio

May 14th, 2024

Call to Order – 5:04pm

Approval of Minutes- April Minutes were not available for approval and will be submitted during the June 11th, 2024 PSC Meeting.

Department Heads-

Street Department -William (Bill) Long, Street Department Superintendent submitted the attached Street Report. During this time SSD Castle share the street "grading" findings from PMG, also **attached**.

Parks & Recreation-. SSD Castle presented the Parks and Recreation report that is attached. During this time Mayor Closser presented proposal to add personnel to the P&R Dept. "Seasonal Park Assistant" is also **attached**. The motion was made by Council Member McDaniels to present it to City Council. Seconded by Council Member Norman. The vote was unanimous.

OLD BUSINESS

-Ward Boundaries- The issue of rezoning the wards so that they are subsequently equal was discussed. Council Member Norman has been the lead on this process. Chairman Hitt had sent Council Member Norman some questions via email. Council Member Norman responded to Chairman Hitts concerns via email **(attached).**

After discussion it was decided a "work session" would be scheduled by June 15th, 2024. Council Member Norman will send out the email to the other members of Council to secure a date.

Festival Location and Parade Route- There was discussion of the final plans of the festival location parade route. The Street Superintendent expressed concern of blocking two major state routes during the parade. It was decided that the decision that was put in place will stand.

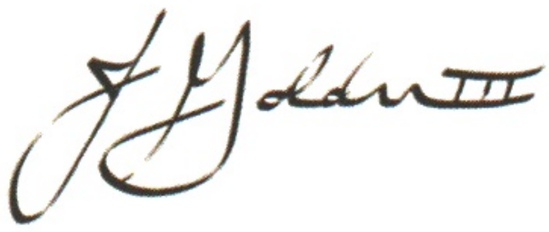

CONCLUSION

The PCI study provides a PCI rating on each pavement section within the maintained roadway network. Based on the distresses identified within each representative sample location inspected, a PCI number is assigned to each pavement section. This number is on a scale of 0 – 100 with 0 being the worst and 100 being the best.

London's roadway network is approximately 99 lane miles (49 centerline miles) in size. Through the ASTM D6433-23 PCI study, PMG has determined the roadway network has an average PCI of **51** and is classified as being in **FAIR** condition.

PMG would again like to thank you for the opportunity to provide the City of London with this PCI study and our pavement management services. Our goal is to provide the highest level of services and support, providing our clients with the data, tools, and expertise necessary to succeed in their pavement management goals. Please do not hesitate to ask if you require any additional information or support regarding this PCI study or the PAVER™ PMS.

GIS CONDITION MAP

PMG assigned all pavement management data to GIS and will provide the shapefile to the agency. This allows for a wide variety of mapping options within both ESRI's ArcGIS and Google Earth. The following shows an example of the Latest Condition Map that has been created in both GIS and Google Earth for illustrative purposes. An ANCI Size C plot-ready PDF version has been provided as a part of the project deliverable.

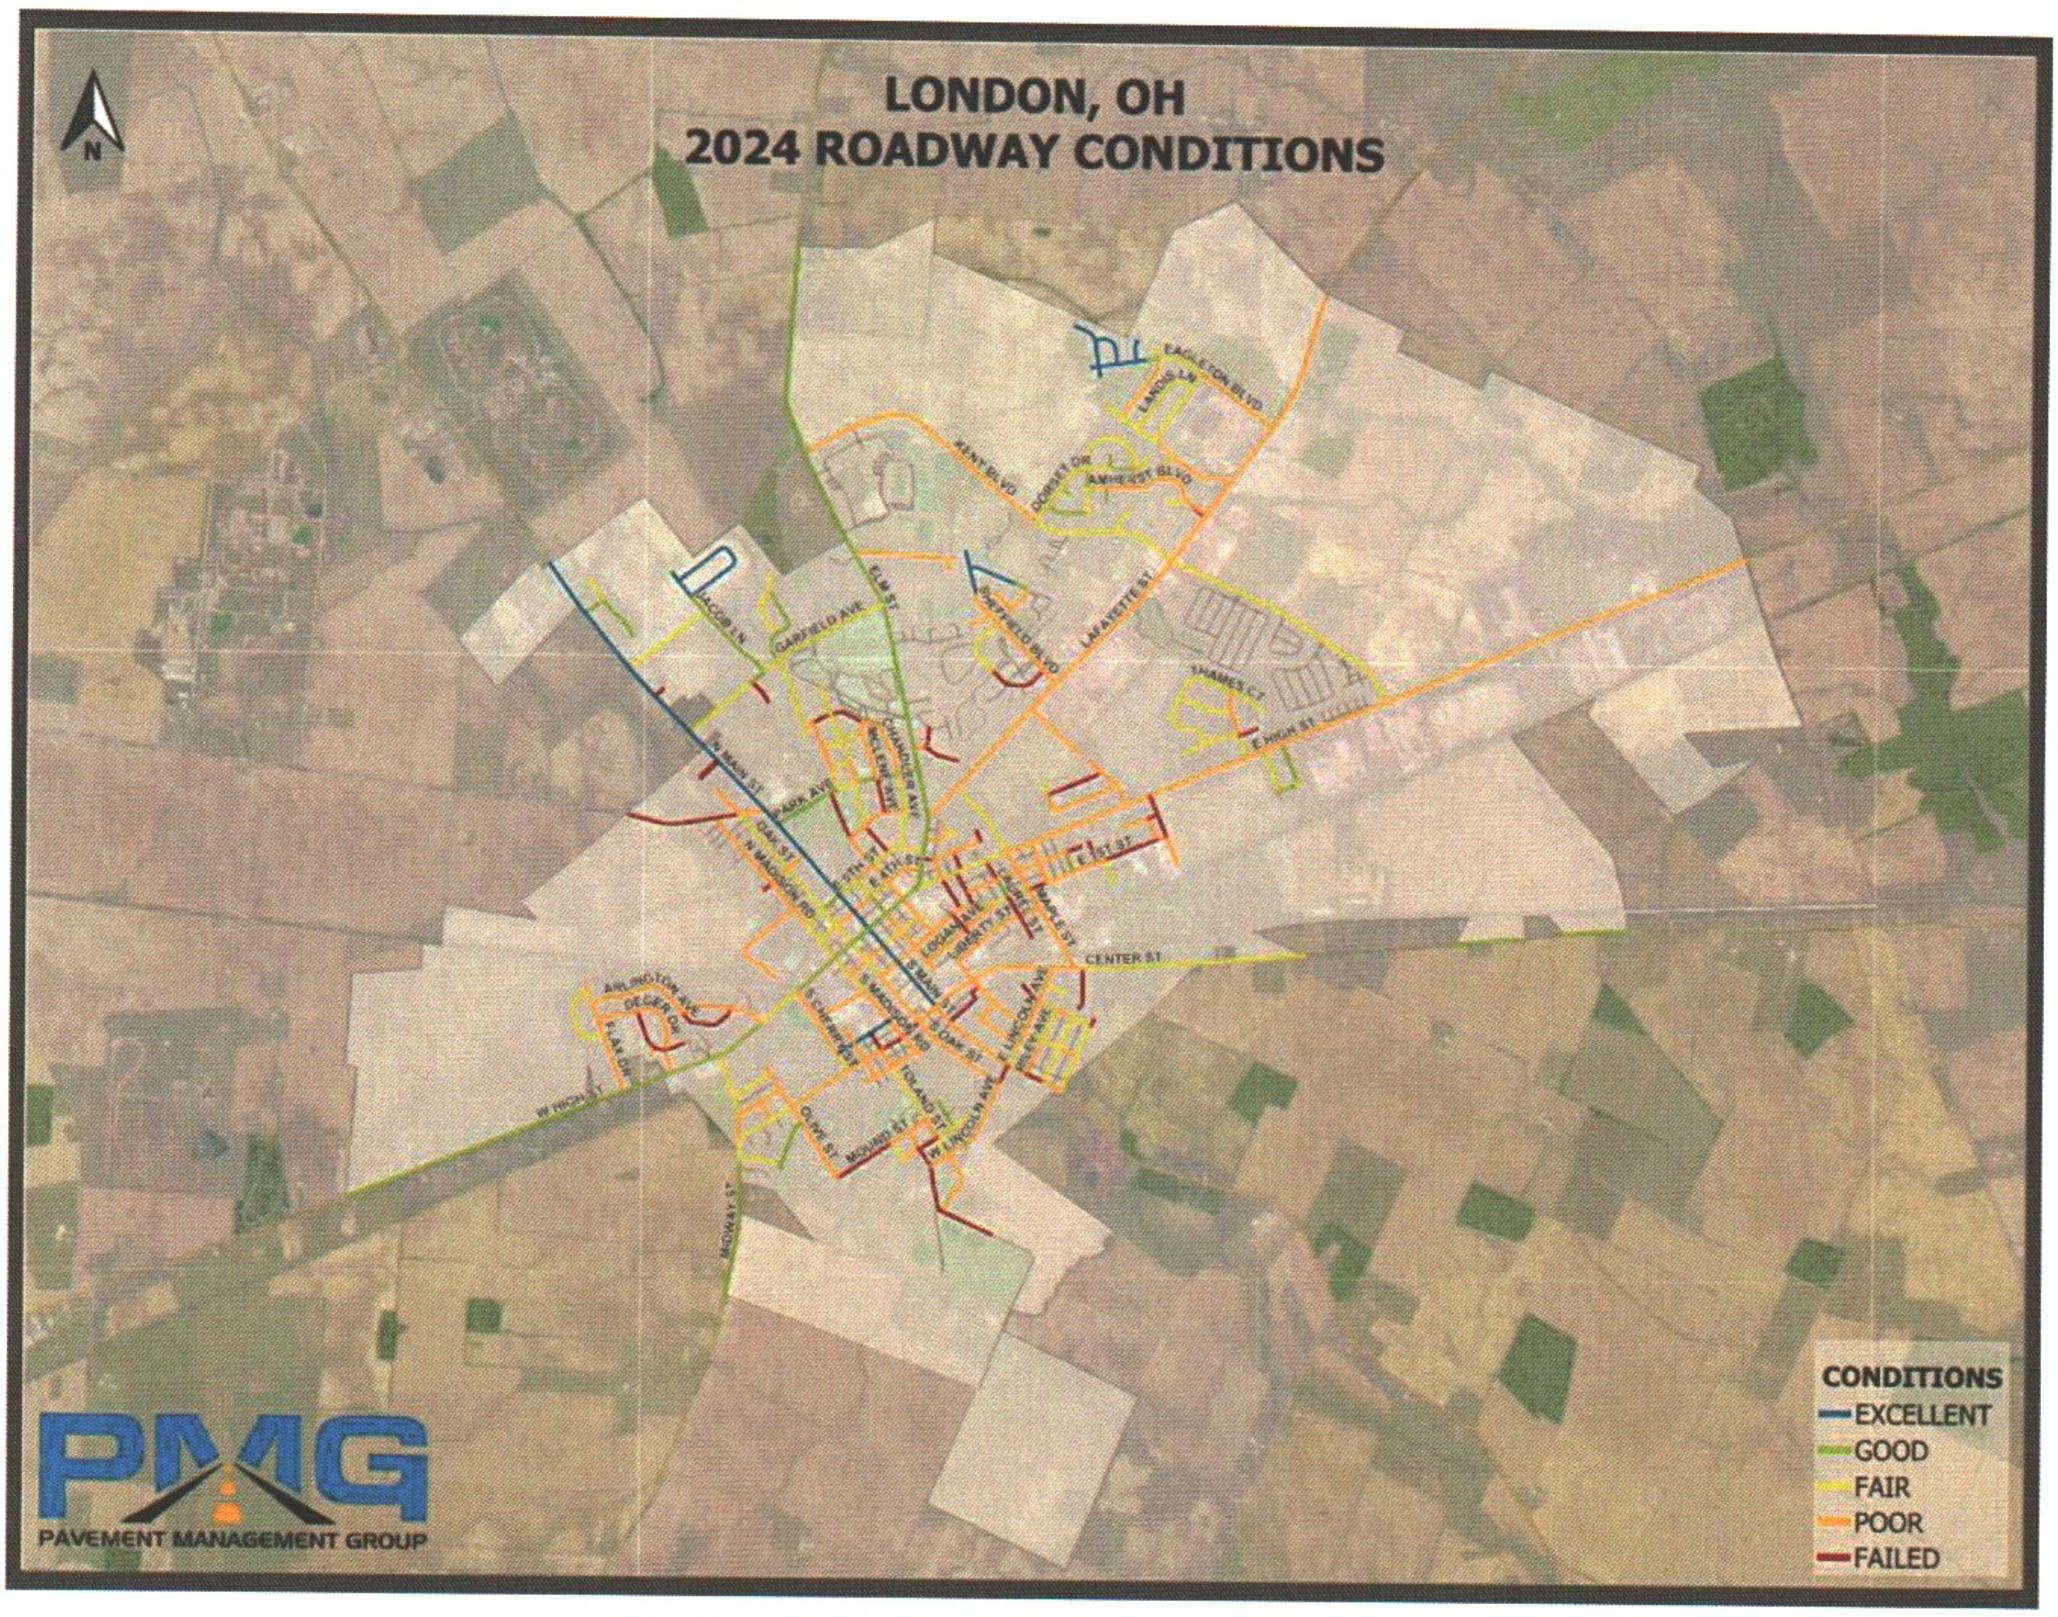

Figure 5. Roadway Conditions Map

FUNCTIONAL CLASS GRAPHS

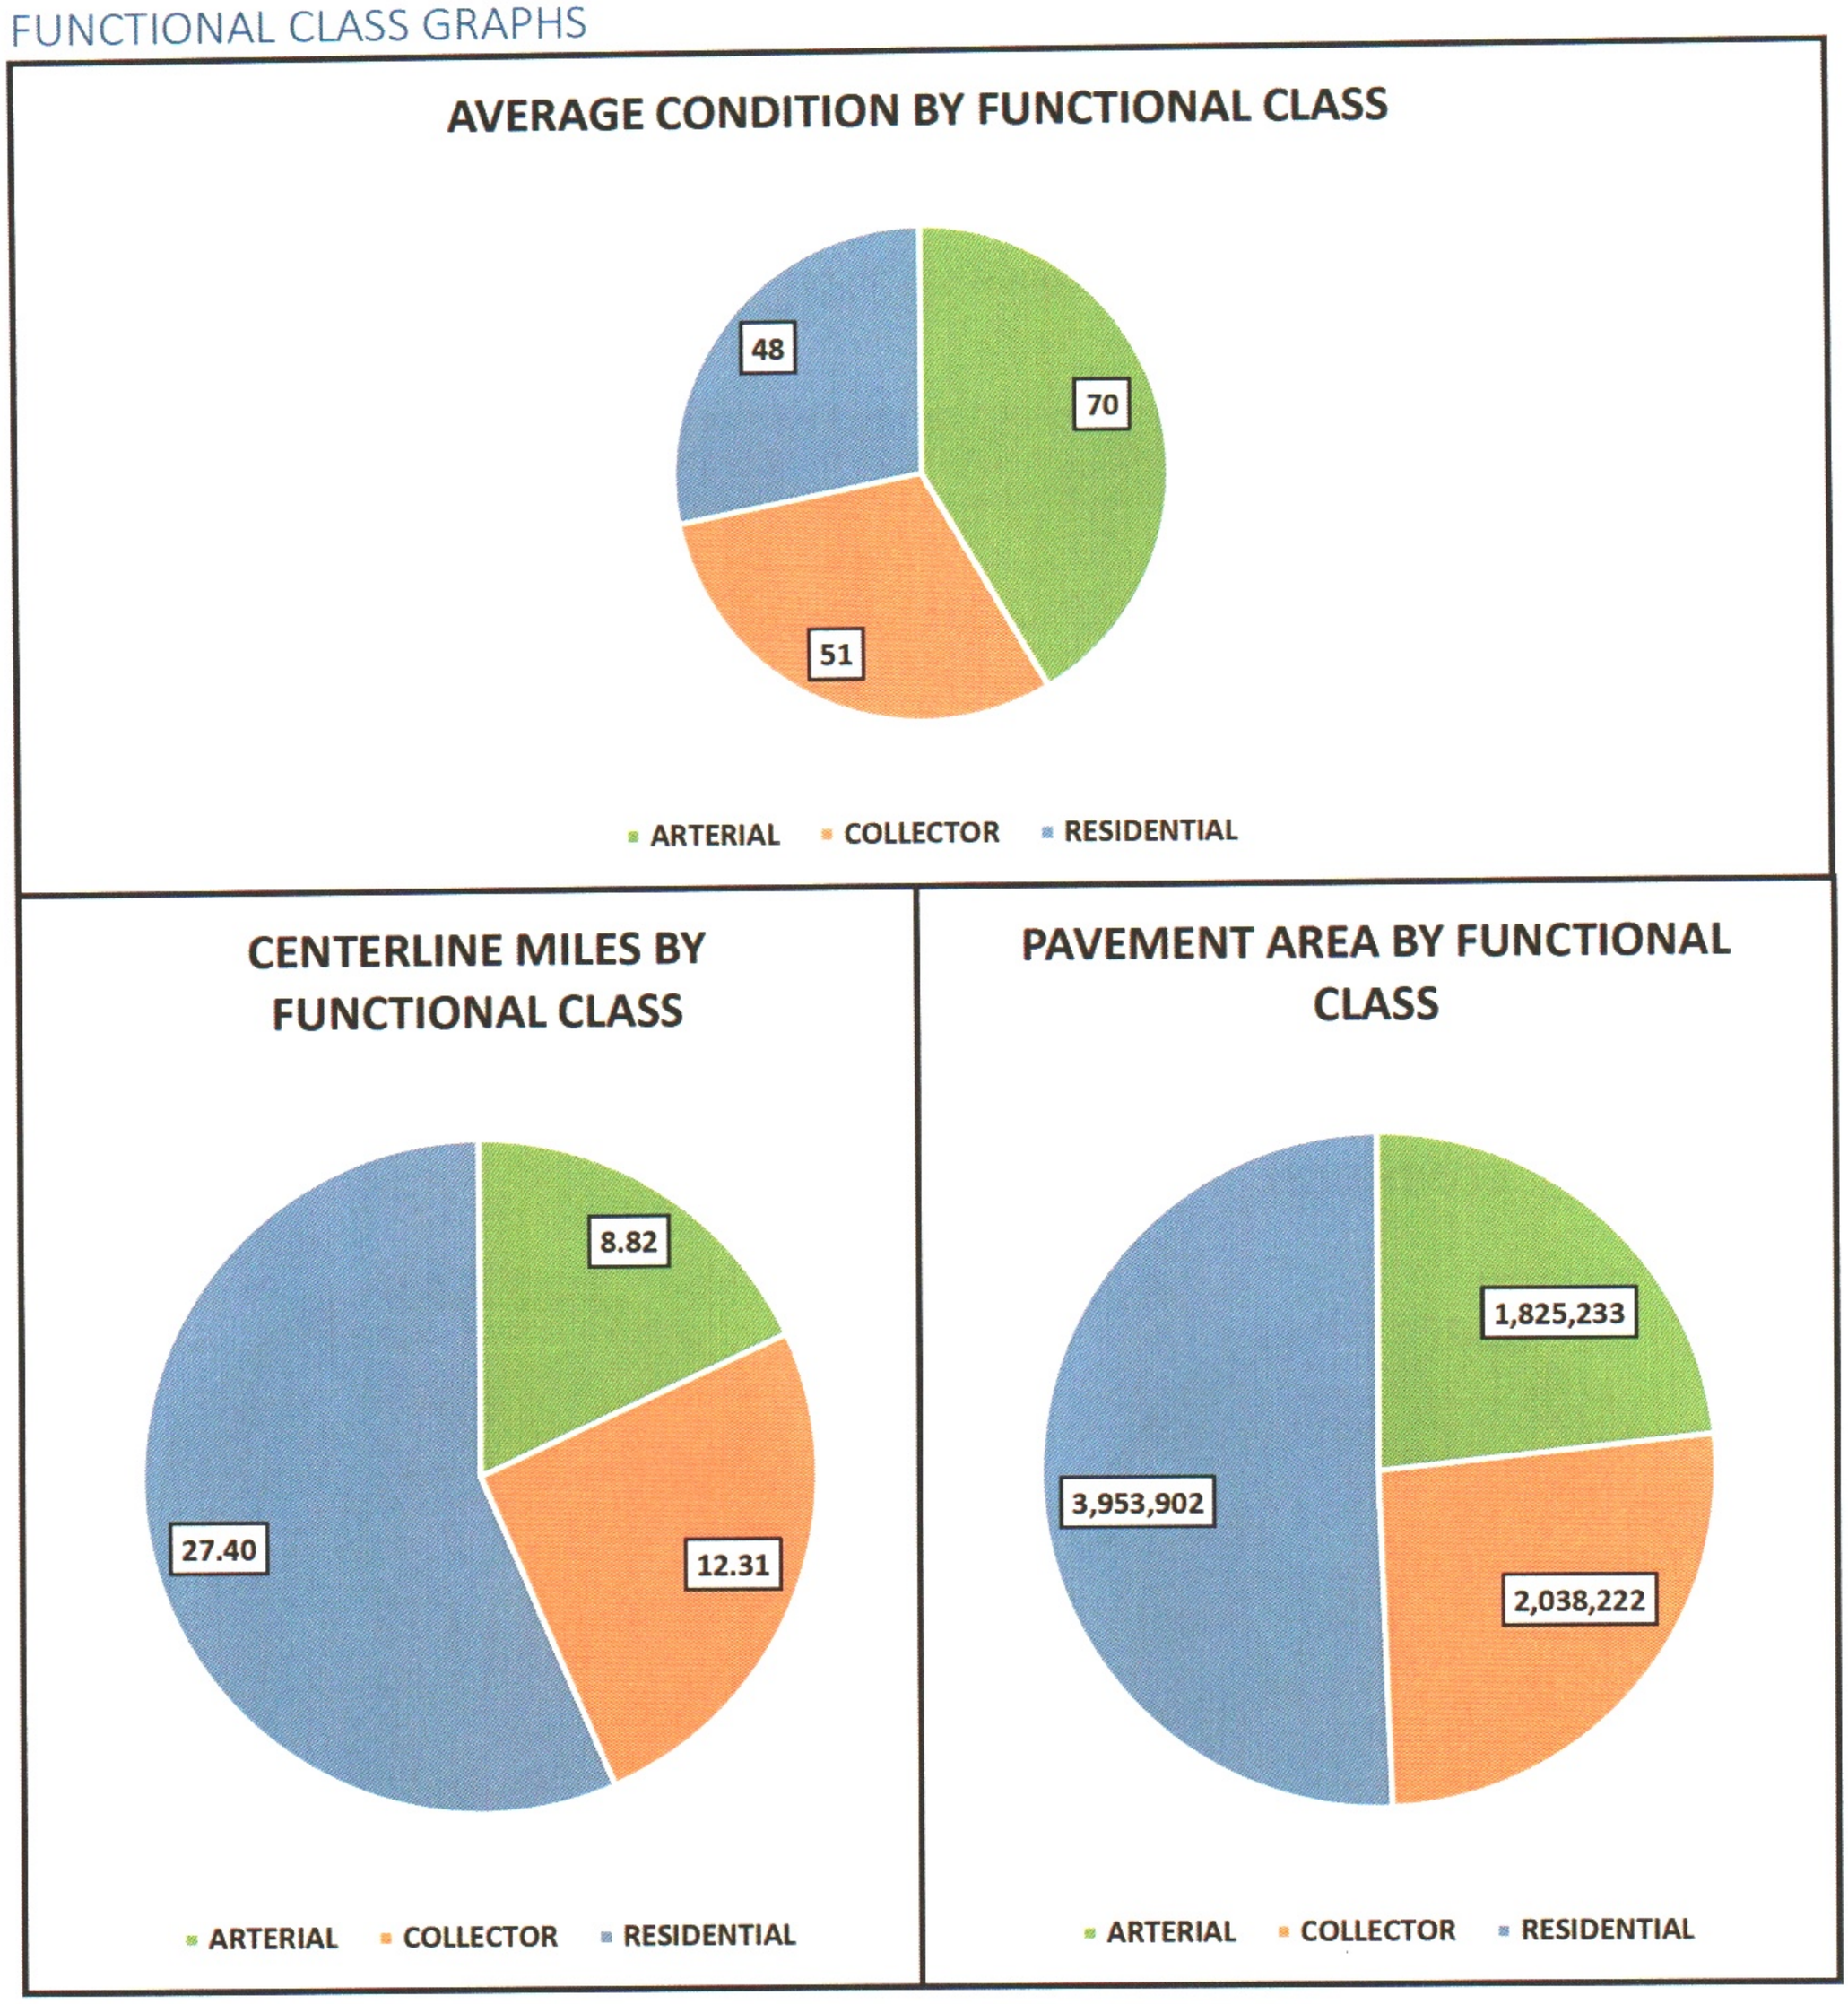

Figure 4. Average Condition, Centerline Miles, and Pavement Area by Functional Class

ROADWAY CONDITION RESULTS

After completion of the 2024 pavement management project, PMG has determined that the average PCI for London's 99 lane mile (49 Centerline Mile) roadway network is a 51 and considered to be in "FAIR" condition excluding the sand roadway sections to have a more accurate PCI calculation. Table 2 displays the condition summary data by category across the network while Figures 3 & 4 illustrate the conditions in graph form. A complete Inventory and Condition Report in an Excel spreadsheet was provided as a part of this project deliverable.

CONDITION CATEGORY	SECTIONS	CENTERLINE MILES	LANE MILES	PAVEMENT AREA (SF)	PERCENT AREA	AVERAGE CONDITION
EXCELLENT	32	3.31	8.53	675,479	8.64%	96
GOOD	56	7.26	16.11	1,275,941	16.32%	79
FAIR	118	12.52	24.68	1,955,032	25.01%	58
POOR	188	20.70	42.11	3,334,841	42.66%	40
FAILED	54	4.73	7.27	576,064	7.37%	20
TOTALS	**448**	**49**	**99**	**7,817,356**	**100%**

EXAMPLES OF ROADWAY CONDITIONS

A high-resolution video was captured for each management section during the inspection process. A snapshot from several videos has been chosen to provide documentation for this report of the inspected section location and serves as visual identification as to what types of distress are occurring within the pavement section. The following 2024 images of pavements from within the Roadway Network provide a sense of what various PCI levels look like:

EXCELLENT CONDITION

SHEFFIELD BLVD | SECTION 01 | PCI 100

PCI AND CONDITION CATEGORY DEFINITION

The PCI is on a scale of 0 – 100 with 0 being the worst and 100 being the best. It is calculated by *PAVER™* through the input of distress type, severity, and quantity information. Figure 2 illustrates the factors that go into the PCI as well as the 5 condition categories of the PCI.

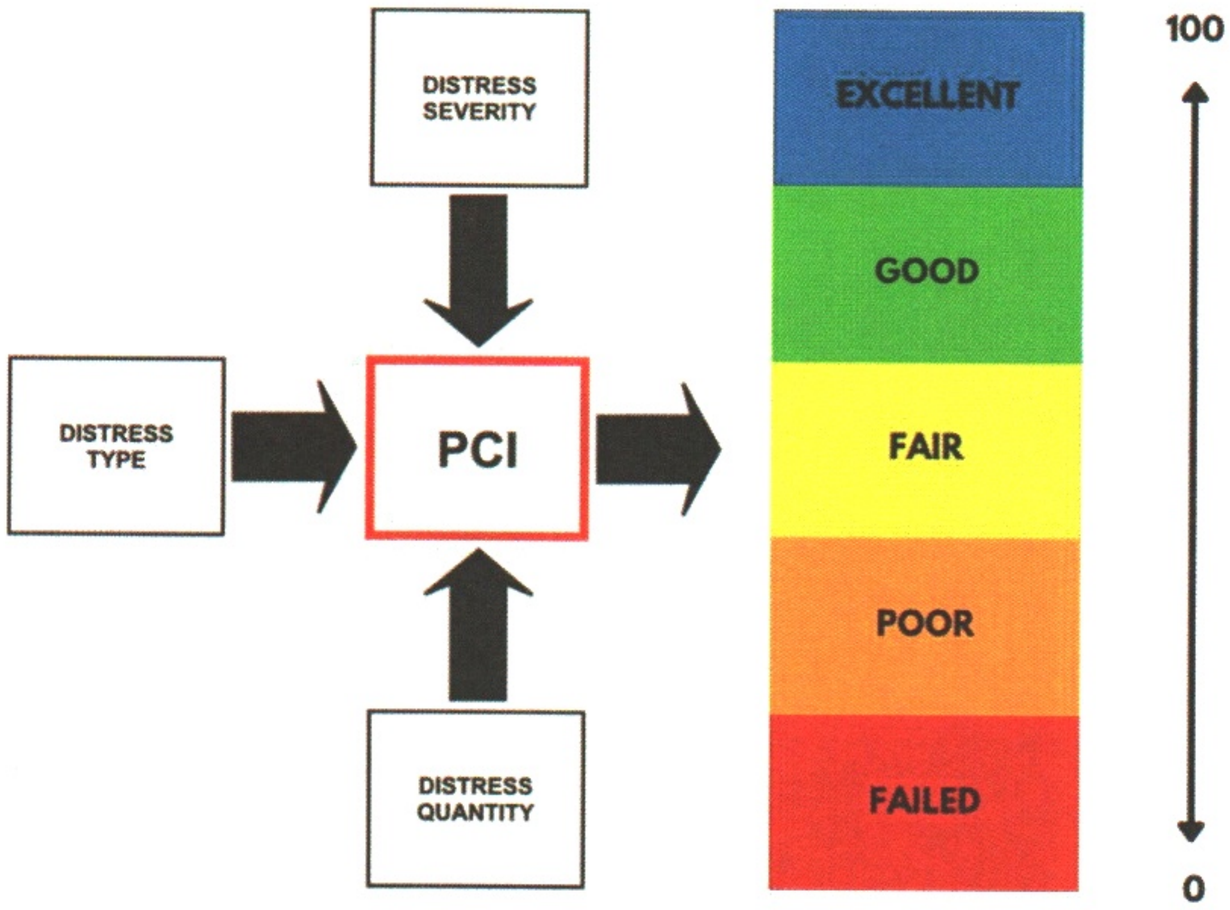

Figure. 2 Factors Determining PCI Value

CONDITION CATEGORY	LOW PCI VALUE	HIGH PCI VALUE
EXCELLENT	90	100
GOOD	70	89
FAIR	50	69
POOR	30	49
FAILED	0	29

Table 1. Condition Category Values

CONDITION ASSESSMENT PROCESS

PMG adheres to the ASTM D6433-23 standard for assessing the condition of asphalt and concrete surfaces. Our skilled inspection team reviews high-definition video of each pavement section in conjunction with our proprietary artificial intelligence (AI) model to identify and document the distress types, severity levels, and quantities that are occurring. The data goes into the PAVER™ Pavement Management System (PMS) for Pavement Condition Index (PCI) calculation, resulting in a PCI score for each management section within the network.

PAVEMENT DISTRESS DEFINITION

20 possible distress types can occur within asphalt-based surfaces and 19 possible distress types can occur within a concrete surface. The U.S. Army Corps of Engineers publishes the Asphalt and Concrete Distress Manual. These manuals describe each distress type, the criteria to determine each severity level (low, medium, high), and how to measure each. The asphalt and concrete distress types are highlighted below in Figure 1.

01 – Alligator Cracking	06 – Depression	11 – Patch/Utility Cut	16 – Shoving
02 – Bleeding	07 – Edge Cracking	12 – Polished Aggregate	17 – Slippage Cracking
03 – Block Cracking	08 – Joint Reflection	13 – Pothole	18 – Swell
04 – Bumps and Sags	09 – Lane/Shoulder Drop	14 – Railroad Crossing	19 – Raveling
05 - Corrugation	10 – L&T Cracking	15 – Rutting	20 – Weathering
21 – Blow Up/Buckling	26 – Joint Seal Damage	31 – Polished Aggregate	36 – Scaling
22 – Corner Break	27 – Lane/Shoulder Drop	32 – Popouts	37 – Shrinkage Cracks
23 – Divided Slab	28 – Linear Cracking	33 – Pumping	38 – Corner Spalling
24 – Durability Cracking	29 – Large Patch/Utility Cut	34 – Punchout	39 – Join Spalling
25 - Faulting	30 – Small Patch	35 – Railroad Crossing	

Figure 1. Asphalt and Concrete Distresses

EXECUTIVE SUMMARY

The City of London contracted with Pavement Management Group (PMG) to provide a turn-key Pavement Management Program (PMP). The backbone of PMG's turnkey PMP is the PAVER Pavement Management System (PMS) which provides specific tools such as pavement modeling, maintenance decision trees, and budget/target-driven scenarios maximizing the return on investment from available maintenance and rehabilitation funds, generating a prioritized plan, and identifying specific areas in need of maintenance and rehabilitation.

- Verify and setup any new pavement network inventory
- Provide an HD video of each pavement section
- Determine the total samples to inspect per section
- Identify all distress types, severity levels, and quantities through ASTM D6433-23
- Calculate the Pavement Condition Index (PCI) for each pavement section
- Assign all pavement management data to GIS
- Create GIS current condition map
- Provide an HTML-based condition map with geo-located streaming HD video
- Provide a complete inventory and condition listing of each pavement section
- Provide a final report of findings
- Provide continued support services

2024 ROADWAY NETWORK SUMMARY

- 49 centerline miles
- 99 lane miles (lane = 15 feet wide)
- 7,817,356 square feet
- 448 management sections
- Average network PCI is **51**, **FAIR** Condition

INTRODUCTION

PMG was contracted by the City of London to provide pavement management services for their 49-centerline mile (99 lane mile) roadway network. These services included a field inventory setup of any new roadway sections, an inventory review, and inspections on all 448 paved management sections within the network. All inventory items were added or updated within their PMS database and a PCI was calculated for each section. HD videos were taken at each section location (from the beginning to the end of the section). This provides for a virtual, high-definition account of the roadway network, and provides value in various ways such as condition review and network-level decision-making from the office. This report provides a thorough definition of the inspection process performed as well as the condition results of our project.
