Public Safety Committee Brief
January 10, 2023

- We are continuing our selection process for two open officer positions, and will have another open position on January 29th.
- Sgt. Linda Sullivan will be retiring January 28th after serving 26 years.
- Ofc. Eric Langham started as the School Resource Officer this week.
- Ofc. Dylan Myerscompleted his basic academy and will graduate from Clark State on the 11th. He is still awaiting a test date for the final OPOTC Certification.
- Ofc. Joseph Harris will be promoted to sergeant on February 6th.
- We are looking at renovating some space in our building to create a couple of offices and improve the workflow.
- We participated in the Light Ohio Blue - Santa's Sleigh in Columbus at Nationwide Children's Hospital again this year. This is where first responders encircle the hospital and light it up for the children and staff at the building.
- We conducted our annual shop with a cop last month, serving appx. 40 children.
- We closed out the 2022 budget, with a 7.34% return of unencumbered funds.

LPD

London City Council Public Safety Meeting **01/10/2023**

Councilman Richard Hays called the meeting to order at 5:00pm

Being no additions or corrections to the minutes from the previous meeting the minutes were approved on a motion from Councilman Hitt seconded by Hays.

London Police Department Chief's Report- Two officer positions currently open with another opening on January 29th

London Fire Department Chief's Report – Chief Eades reports that the department has received two grants totaling approximately $2341.00 – reports the the department finished the Toys for Tots program this year with serving 289 families and assisted the London Federation of Women's Clubs with their annual candy sale – the dept completed pump testing – outside training with Madison Health was cancelled and self study was held in lieu – donated monies from the Cobra car show were used to replace underwater submission suits – 2,721 runs were completed for the year – 18% of those being fire runs and 81% being for EMS – Average response time was 4 minutes and 23 seconds from the time they received the call to time on scene and runs taken outside of the city of London did factor into that average – looking into available grants for 2023 and will need legislation to be able to apply

Councilman Hitt motions to send permission for Grants to council – seconded by Hays – Hitt to sponsor – two grants are from FEMA and will need to go on as an emergency as the deadline to apply is approaching –a third grant through Ohio State could go through the three readings – all three readings will be put together

Chief reports that the final inspection was just had on the new fire truck on 1/11/2023 and estimates they are two weeks out from delivery

Councilman Hitt asked Chief Eades roughly how much EMS runs generate in funds – Chief replied roughly $500

Safety Services Director Rex Castle- The demolition of the community center is moving forward either 01/27/23 or 01/31/23 – meetings are scheduled next week with tenants of the buildings in the parking lot to discuss entrance and exits during the demo

Councilman Hitt asked what the cost would have been to rehab the building – Mr Castle – we did not pursue estimates after the structural engineer reported his findings and having funds available to tear it down

Old Business –

Tammy Braskett spoke on the issue of feral cats in the city. The Humane Society is not able to assist as they are at capacity – Tammy states that per an online tool called "The Cat Multiplier" each one cat can produce up to two million more cats in their lifetime – Cat Welfare in Columbus provides a voucher for up to 8 cats to be fixed at $10 each – Tammy suggests creating a fund so that if someone is feeding feral cats, they could be reimbursed the $10 after trapping and having the animal fixed – Tammy will reach out to Cat Welfare for guidance on curbing this issue

Chief Eades asked if this was something that the Downtown London Association could get involved in since the issue is so bad downtown.

Councilman Hays asked Tammy to take the lead on this project and she stated she is "happy to help"

Ms Braskett also stated that should a fund be created, it should also allow for the humane euthanization of cats that are too severely injured or sick to survive

New Business –

Keny Station apartments planning application came through – the number of units has increased – planning approved the site plans with changes – single entrance not to be directly across from Circle Dr – limited maximum number of units to 55 – will be two basic structures with a potential resident manager unit above the office – recommendation is needed to take to council

Councilman Hitt asked Chief Eades if fire trucks would be able to access from the single entrance/exit and Chief Eades responded that they will be able to as long as it's not blocked

Motion is made to bring before council by Hitt and seconded by Hays – Councilman John Stahl to sponsor – will have three readings and a public hearing

A burned former residence at 5 Stewart Ave needs council's permission to enter into conversations with a demo company and to move forward with placing ads in the newspaper as a final attempt to contact the property owner – notices have been mailed but no response – two pieces of legislation are needed – one to enter into a contract with a demo company and one to appropriate the funds to pay for the demolition

Motion to bring before council by Hitt and seconded by Hays – Hays to sponsor

The next meeting will be on 2/13 (a Monday)
