SportScape

"Supporting the Sports Life"

Outdoor Court Components

Fencing

Durability and Security

Chain link fencing can give you more than "ball containment" and landscape protection– it can also help you secure your playing area.

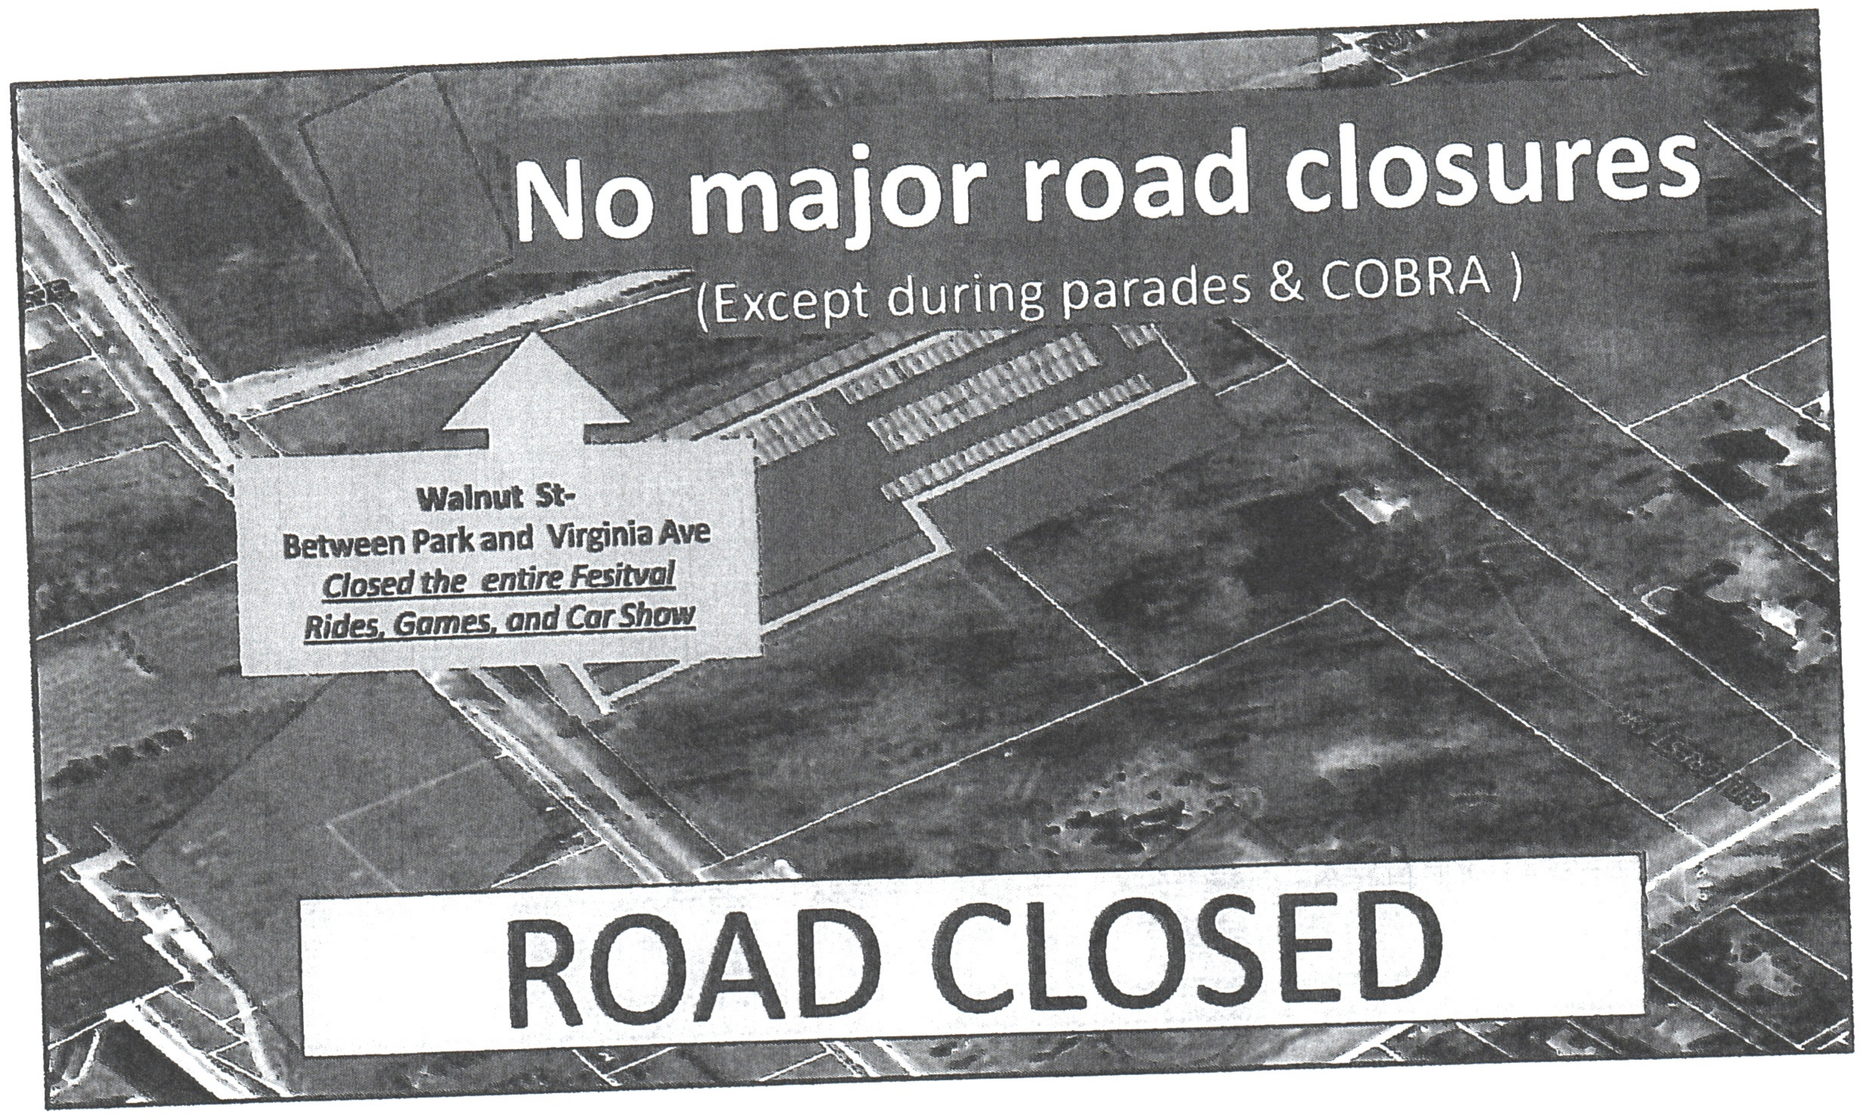

SportScape Builders utilizes chain link fencing that features galvanized wire inside that is covered with a layer of PVC on the outside. This gives it strong corrosion resistance and a beautiful appearance. Our fencing comes standard in black, at 8' tall, but can be customized according to your requirements.

Cowling Festival
Grounds

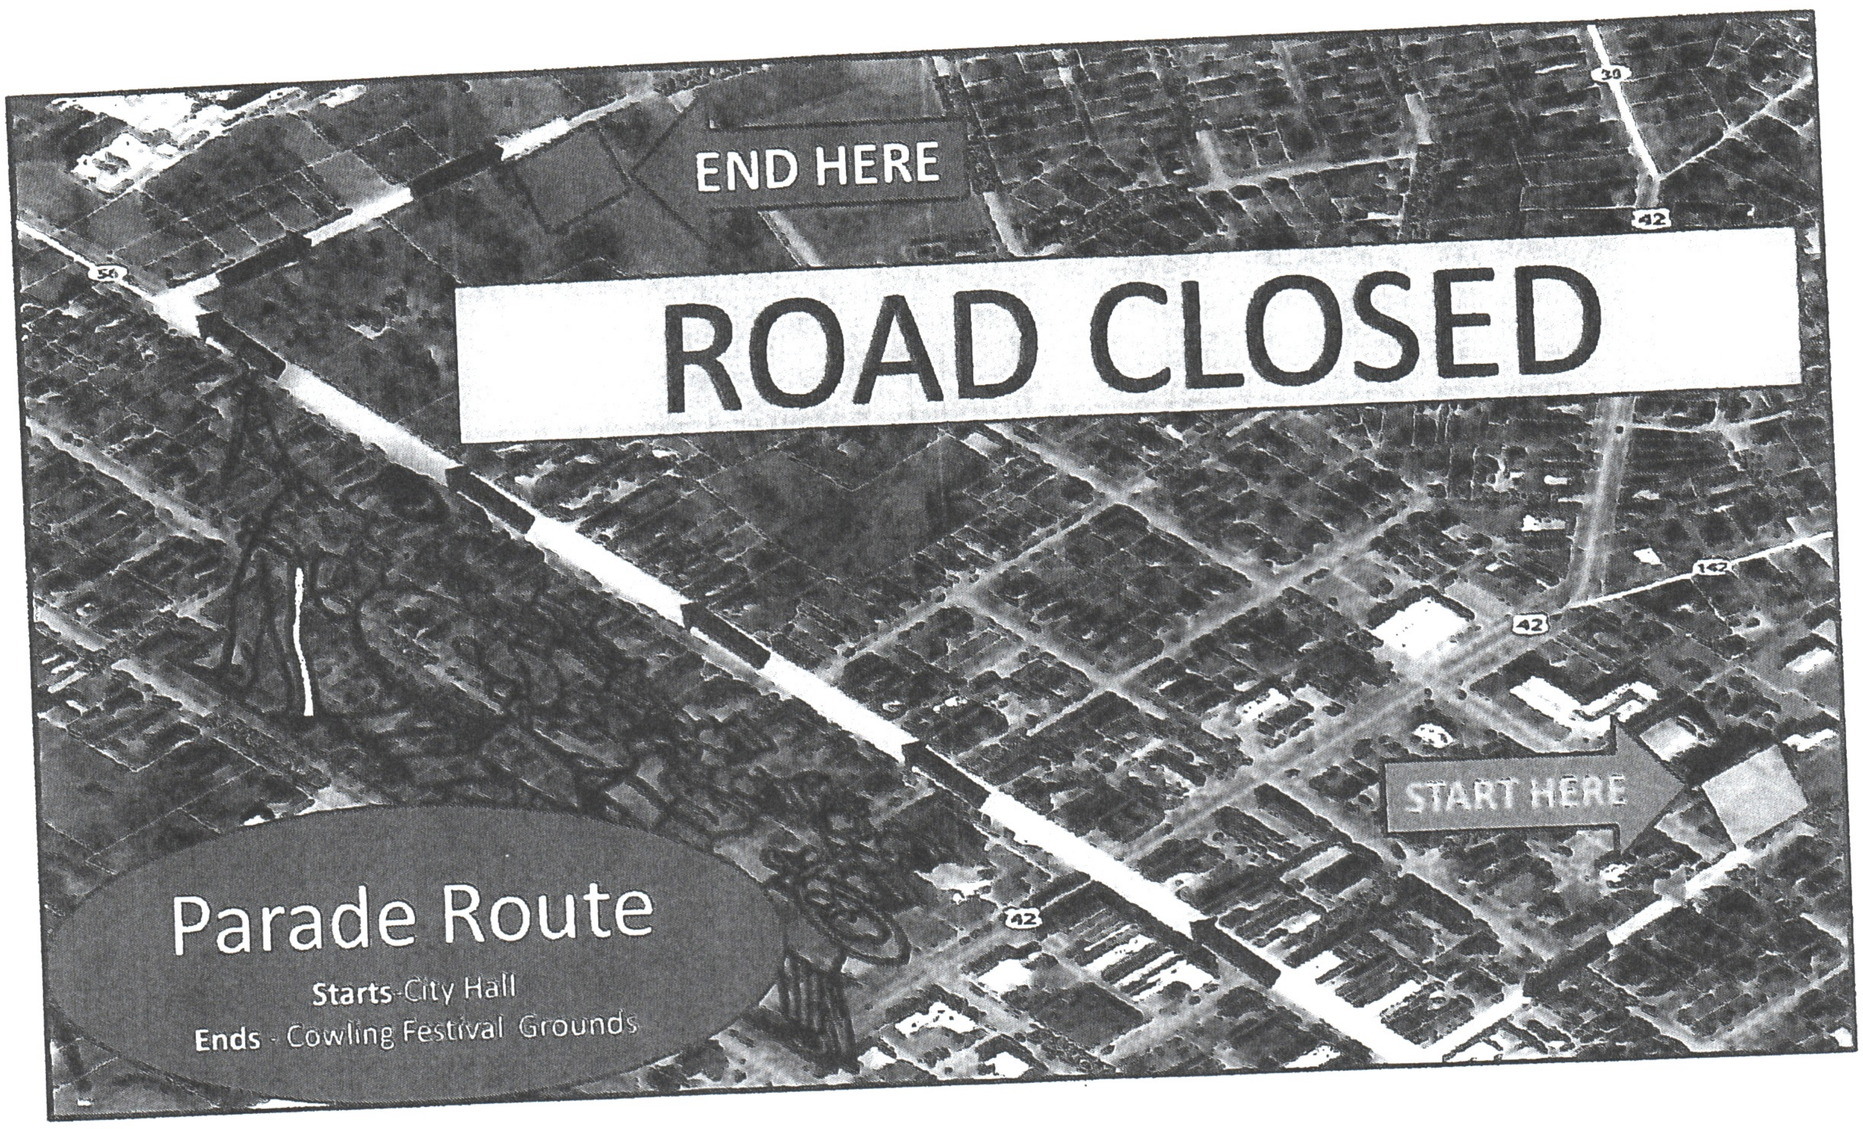

Items of Interest

- Road Closures
- Parade Route
- Parking
- Venues
- Vendors
- Car Shows/Rides/Games

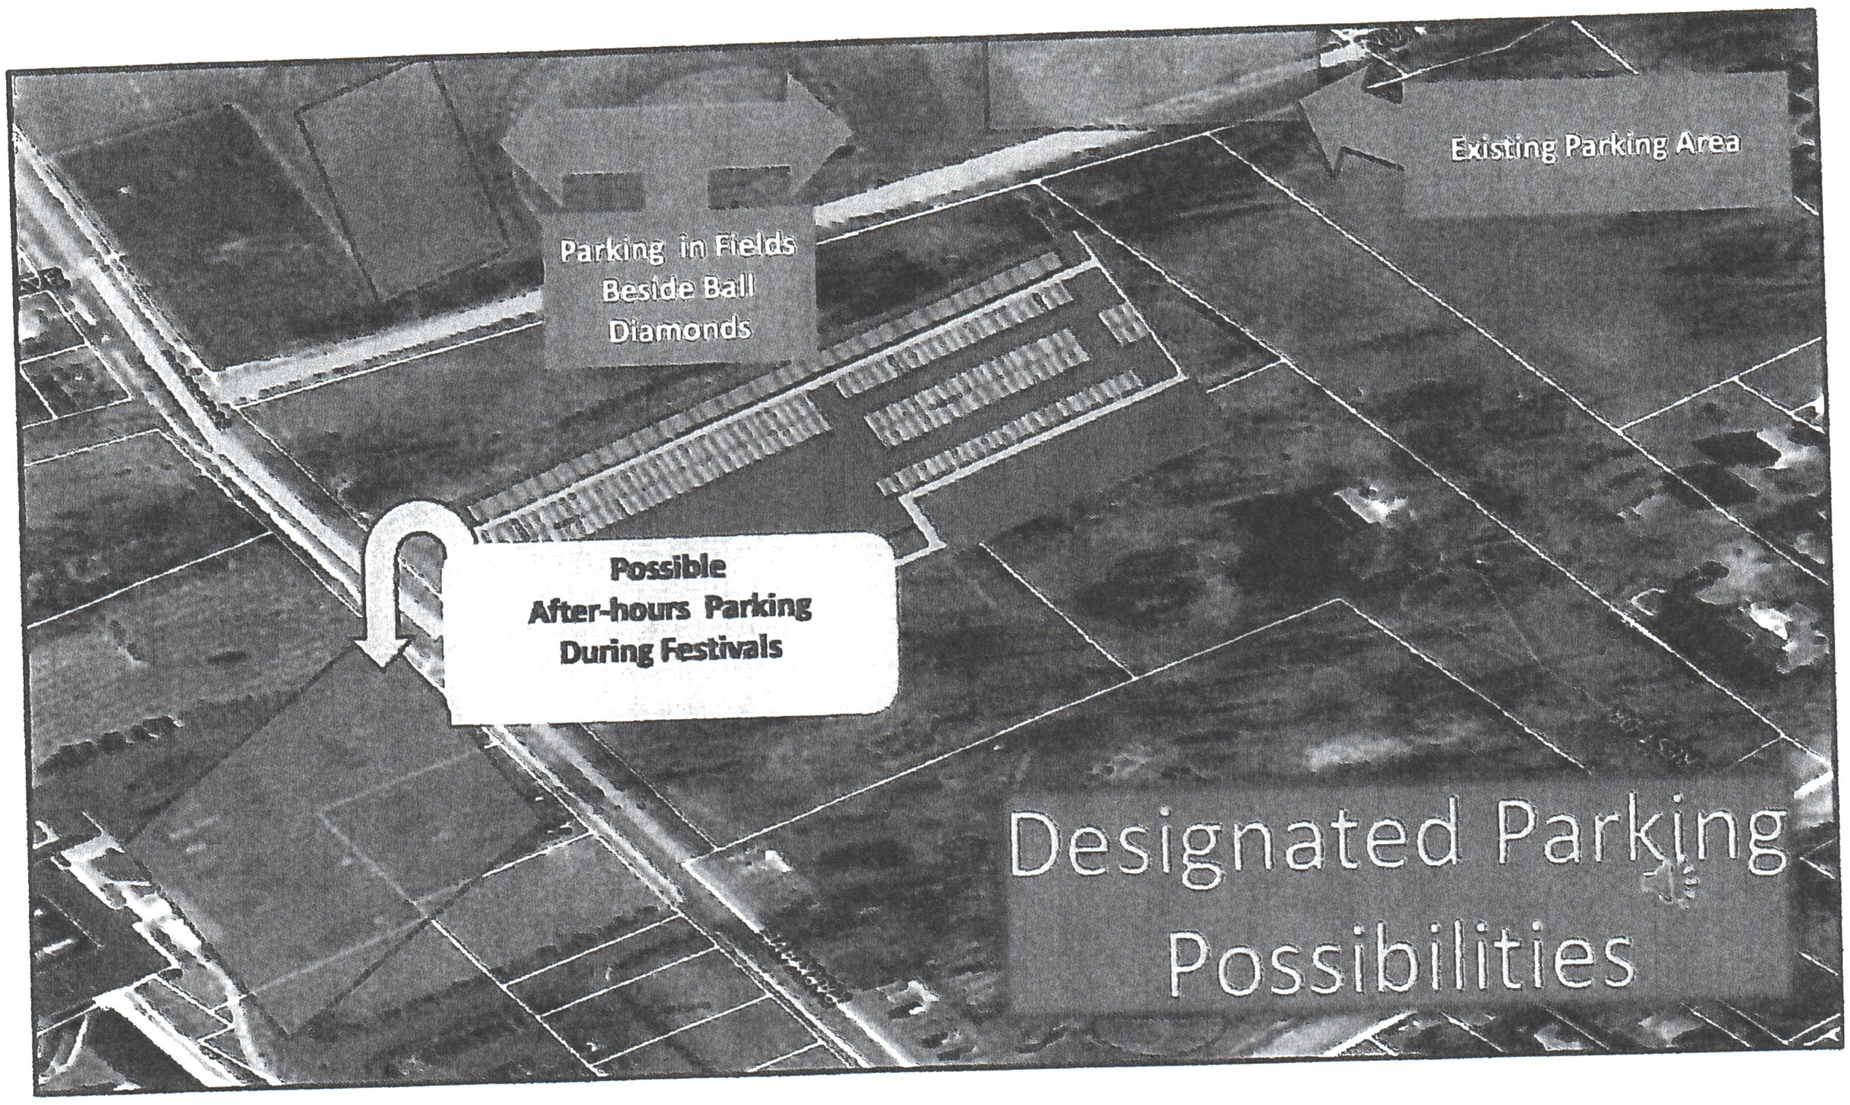

These are the 6 Main components of the move.

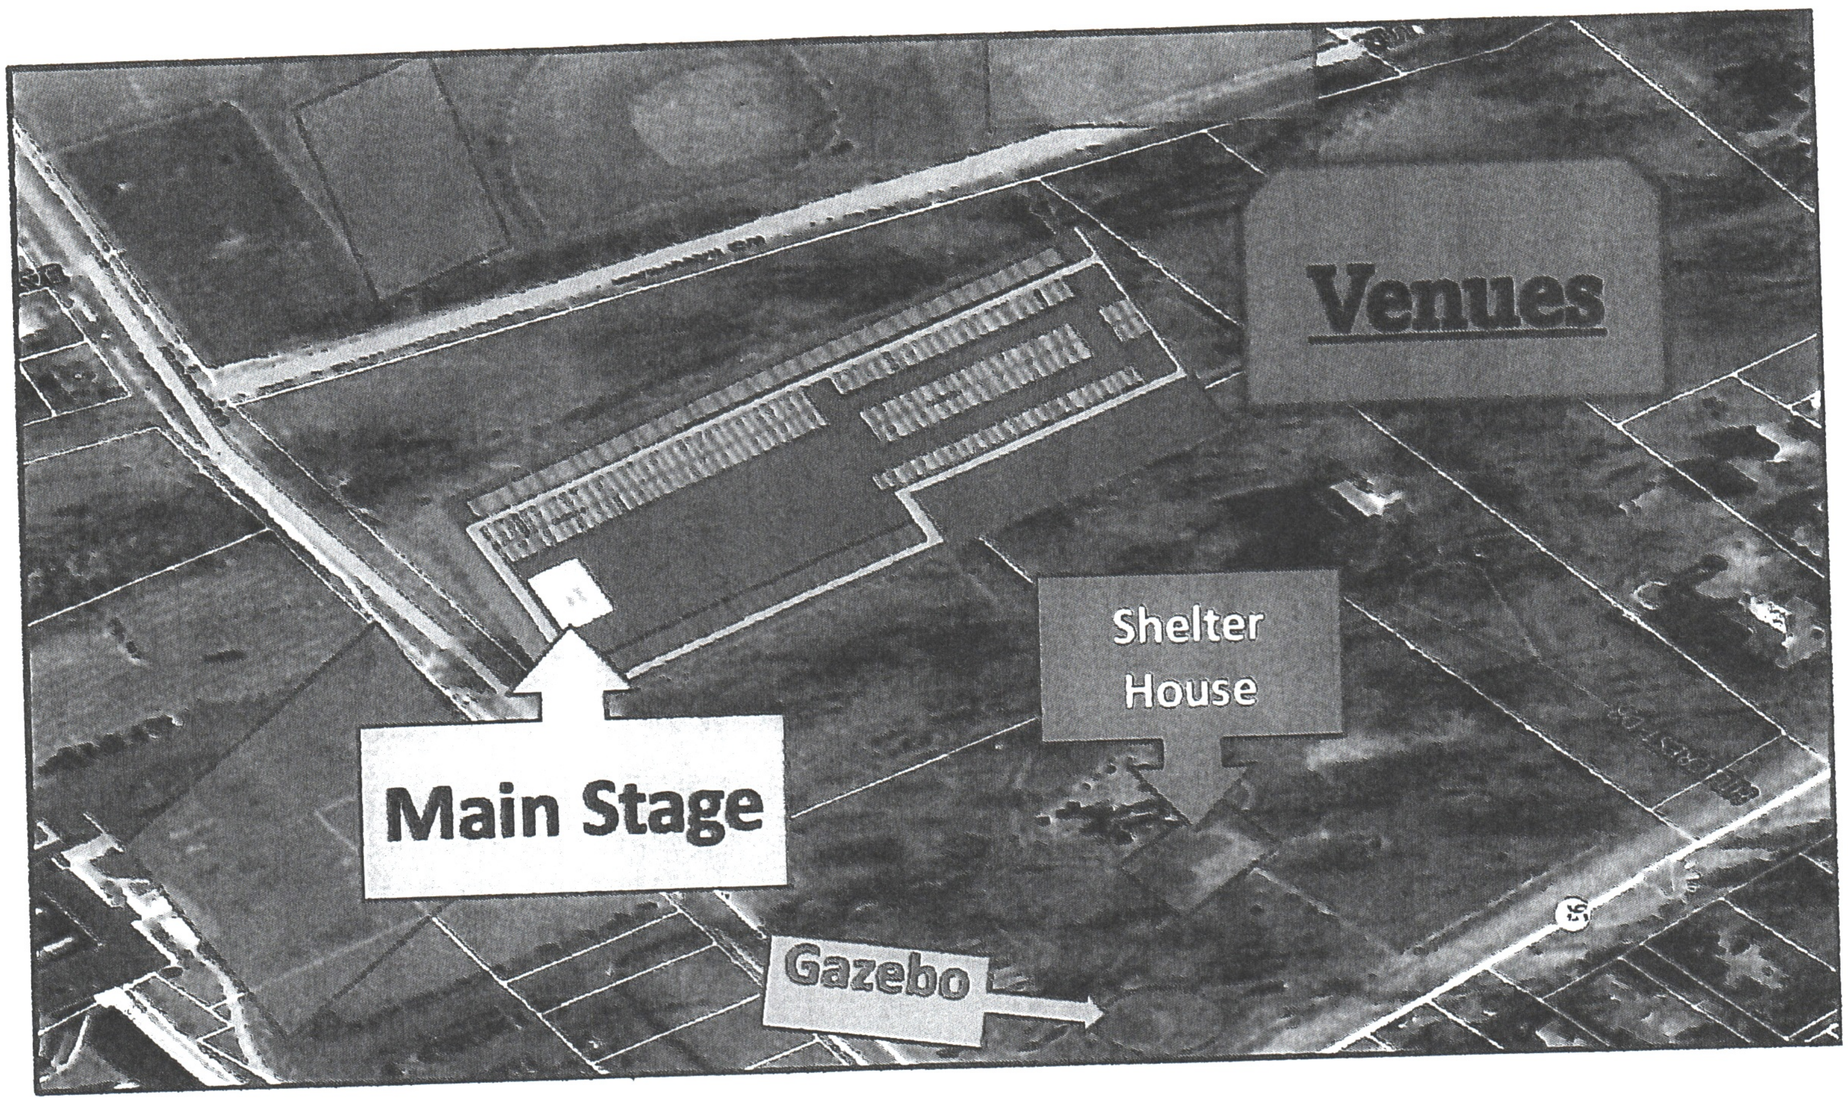

Only One Road Closure . Walnut St. between Park Ave and Virginia Ave. Rides, Games, and Car Show can be held on this section. This means that the only time Main Street is closed down will be during the parades and COBRA Car Show. Instead of Days of detouring it will be housrs or minutes.

The Suggested parade route for all parades .

For the first time in a long time there is the possibility of designated parking for these festivals. I would suggest the parking on Park Ave be for Handicap Parking or Emergency Vehicles ONLY . Permission to use Park Ave Medical Parking will be needed.

Moving Down to Cowling allows the festivals to have the main stage they already have and add two more entertainment venues.
