

Hello Stedman Community,

DPS will soon be implementing **Thrillshare Rooms**. This will be our new two-way communication tool and it will replace our current communication tool.

The new DPS app offers district and school news, upcoming events and push notifications for important and urgent announcements. The new tool will be rolled out to families **August 15th** by DPS and they will have information on how to download the DPS app and how to access Rooms.

Key Features

- **All Students in One Place** – Access all your children's school-related information in one secure place.
- **Two-Way Messaging** – Direct communication with teachers.
- **Classroom Updates & Reminders** – Stay informed about your child's assignments and announcements.
- **Celebrations & Acknowledgments** – See student achievements and positive moments.
- **Automatic Translation** – Supports our multilingual families.

Download the DPS App

1. Download the app from the [Apple App Store](#) or the [Google Play Store](#).
2. Watch this video about [Rooms](#).
3. Still have questions about Rooms? Visit:
 - a. [Information for PARENTS & GUARDIANS](#).
 - b. [Información para PADRES Y TUTORES](#).

Important Notes

Multiple Children – No matter the school within Nauset, all your children will be visible within your Thrillshare account! No more jumping around to find information!

Teacher Implementation – As this is a new tool, we are currently learning about and preparing their Rooms, and full access will take time.

Classroom Setup – If you do not see your child's classes immediately, please be patient.

Sincerely,

Roy Barnett Jr. M.A. - Media, Arts, & Technology and Stedman Technology Specialist.
