PRINCIPAL MESSAGE:

Hello, Metacomet Families,

The school year is almost over and we look forward to seeing you all next school year. At the time of this newsletter, I have not heard how the budget impacts will affect our school. We are excited to have Grade 5 in our building next year. As of this writing, there are plans to have three less classrooms in our school. Grade 3 will change from six classrooms to four classrooms. Grade 5 will change from five classrooms to four classrooms and we will have five Grade 5 classrooms. We are expecting our class sizes to be about 20 students per room. The first day of school next year will be on Thursday, August 27. We plan for our Open House Night to be on Tuesday, August 25 from 6:00-7:00 pm. I hope you all have a wonderful summer!

GRADE 3:

- Open Court Reading: Theme: GOVERNMENT AT WORK
 - Foundational Skills: The students will understand words with the prefix (*ex-* and *en-*)--expand, enact...
 - Reading and Responding: The students will read the story, "*Every Vote Counts*". The students learn the importance of voting and give them suggestions to get involved.
 - Language Arts: Students will write a persuasive essay.
- Bridges Math: MULTIPLICATION, DIVISION and AREA
 - Students will continue to use rectangular arrays to model and solve multiplication and division word problems.

GRADE 4:

- Open Court Reading: Theme: NATIONAL TREASURES
 - Foundational Skills: The students will learn about the prefix "*ex-*" (exterminate, expire, excuse...)
 - Reading and Responding: The students will read the story, "*Give Me Liberty*". The students learn how the Continental Congress met in Philadelphia back in 1776 to debate the relationship with Great Britain.
 - Language Arts: The students will use a previously read nonfiction text to write a nonfiction paragraph.
- Bridges Math: GEOMETRY and MEASUREMENT
 - Students will continue to calculate the area and perimeter of rectangles.
