4TH GRADE NEWS

November 2026

What We Are Learning:

Language Arts: We have begun Unit 2 where students will be exposed to a narrative nonfiction poem, a primary text from Orville Wright's diary, a biography, and an autobiography. All of which are enriched with vocabulary and continued practice with comprehension strategies like; *summarizing*, *making connections*, *visualizing*, *comparing and contrasting*, and *asking/answering questions*. In writing we are focusing on Informational Writing, as well as analyzing word parts (prefixes, suffixes, base words), Greek and Latin roots, and Comparative and Superlative adjectives.

Math: We are finishing up Unit 1 and will begin Unit 2 which focuses on multi-digit multiplication and early division. We are continuing to practice basic multiplication facts and strategies such as; ratio tables and area model Partial Product. For early division, our focus is on how to interpret remainders!

Science / Social Studies: We have begun our unit titled "Science Fair", where we are discussing the Wright Brothers, John Glenn, and Sally Ride who paved our way into the sky and space.
In Science, we are continuing to observe and investigate different objects in motion (soccer ball, hockey puck, marbles, and a beach ball). We have been discussing related phenomena and new science terms like *force* and *collision*.

TIPS FOR HOME:

- Practice math facts!
- iReady or IXL lessons are a great resource to use at home for additional practice.
- Read, read, read! Discuss what your child read. Ask questions while you are reading, talk about what you are visualizing while you read,, and make predictions about what will happen next!
