Dear Parent/Guardian

Students entering the 7th grade in Oklahoma schools require a TDAP booster immunization shot. This is a requirement of the OK State Department of Health. The caring van will be available at the school on July 9th 1030-130 to get any missing or required immunizations up to date. This is for any student that is covered by Medicaid, American Indian or uninsured. Students covered by commercial insurance will need to see their primary provider to obtain the immunization.

Any student that has enrolled in Strother MS/HS and has not had the TDAP booster now is a good time to get up to date on that. I have sent home letters to some that are missing this booster and if you have any questions on what is needed please call and speak to me.

If your student has had any recent immunizations/changes to records please sign the release so that we can update the chart or send a copy of the updated immunization record.

Thank you,

Jerrye Lowe LPN
Strother School Nurse
