CITY MANAGER'S CORNER

Welcome to the City Manager Corner, where I provide you with information about the city, our capital projects, and our initiatives.

As City Manager, I am the administrative head of the city government. My primary role is to provide the proper administration of all city business. One of the cornerstones of our business is transparency. It is my intent to have this page provide additional information to the community.

Our passion for Creswell was on full display this summer through the July 4th Parade, our Movies in the Park series, the Farm to Table events, and the recent Short Take Off Landing (STOL) competition at the airport. It truly was an amazing summer. Thank you for supporting and engaging in these community events.

And even though summer is ending, we are not slowing down. On September 19, from 10:00 a.m. to 5:00 p.m., we are hosting a combined event: Farm to Table at Fall Festival. This celebration brings together our popular Farm to Table program with the much-loved Fall Festival.

The event will feature approximately 27 vendors, seven food trucks, raffles, games, and live music. Austin Gilbert from The *Voice* will be performing from 3:00 p.m. to 5:00 p.m. The festival will be held at Holt Park and is free for everyone. It's our way of saying: Thank you, Creswell. We appreciate your support, your love for this community, and your enthusiasm for these events that bring us together. For more information about the Farm to Table at Fall Festival, visit our website at www.ci.creswell.or.us and check the front-page marquee for event details.

Additional Information

1. **Community Newsletter** – We are transitioning to electronic distribution, with printed copies available at City Hall and the Creswell Library. This new format will allow us to expand the newsletter's content.
2. **Regional Wastewater Solution** – We are finalizing Intergovernmental Agreements with partner municipalities. These agreements define the terms of our collaboration as we work toward connecting to the regional wastewater system.
3. **Rural Infrastructure Grant** – The City is applying for a $250,000 regional infrastructure grant to support planning and analysis required for the Eugene-Springfield Metropolitan Area General Plan amendment needed for regional wastewater connection.
4. **Second Street Improvement Project** – The project has reached substantial completion. The Council will review the 2nd Street Limited Improvement District (LID) regarding improvement costs and the final assessment. The Council previously capped the total cost, ensuring any assessment of neighboring properties will not exceed this limit and may be lower.
