CITY MANAGER'S CORNER

Welcome to the City Manager Corner, where I provide you with information about the city, our capital projects, and our initiatives.

As City Manager, I am the administrative head of the city government. My primary role is to provide the proper administration of all city business. One of the cornerstones of our business is transparency. It is my intent to have this page provide additional information to the community.

Administrative Initiatives

1. A review of the landscaping along Oregon Avenue is occurring with the goal of replacing the landscaping. The existing trees have been significantly pruned over the years and have lost a lot of the canopy shape. The shrubs within the tree wells are growing to the extent of the tree well area and need significant pruning each year. The goal is to replace the landscaping with both shrubs and perennials appropriate for the planting area and won't grow beyond the extent of the tree well. This will save the city maintenance costs.

We will also look where it makes sense to remove concrete panels to increase the tree well size. The demolition, design and design and plating of the trees and shrubs will be done with city staff.

2. City of Creswell Logo Initiative: On February 23, 2026, the City Council approved working with CSD's Marketing and Graphics classes to complete Phase 1 of the logo initiative. Visit [City Council Agendas & Minutes](#) | [City of Creswell](#) for more information.

3. The City has issued Request for Proposals for City Engineer of Records.

4. City Staff are reviewing design concepts of the “Oregon Ave Jog” with Oregon Department of Transportation. The goal is to review potential scenarios for improvements that provide adequate alignment of bike lanes, drive lanes and effectively eliminate certain traffic movements through the intersection.

Capital Projects

1. City Staff and Westech Engineering hosted 2nd Street Neighbors at City Hall on February 24, 2026. The neighbors were provided with an update on the project and were afforded time to ask questions about the plan as it relates to their residence and driveway.
