Why is Adult Education important? Did you know...

Full-time workers with a high school diploma earn almost $10,000 more per year than those without a diploma

Adults without a diploma are more than twice as likely to be living in poverty as those with a diploma

65% of all jobs require a level of education beyond a high school diploma

A mother's education level is the greatest determining factor of her child's future academic success

The U.S. is falling behind other countries and cannot compete economically without improving the skill of its workforce

Nearly 20 millions U.S. adults have limited English language proficiency

In a recent national survey, 92% of business leaders thought that U.S. workers were not as skilled as they needed to be
