How do you hope to advance the mission of PALM by serving on the board?
I am an Accounting Manager and a current Board Member at PALM who excels in orchestrating financial operations and developing tailored accounting strategies for organizations to advance fiscal health and operational effectiveness. With a solid foundation in managing financial frameworks within public and non-profit environments, I bring a comprehensive skill set that blends financial stewardship with financial techniques, propelling your organization toward heightened fiscal integrity and performance.

Over more than thirty years, I have consistently demonstrated exceptional skill in refining accounting practices and systems tailored to the strategic needs of organizations for which I manage financial and payroll records. My experience is marked by impactful contributions in areas such as meticulous budget oversight, detailed fiscal analysis, and rigorous tax preparation, all of which are crucial for maintaining and enhancing the organization's financial well-being and growth.

As an Accountant at Business, Accounting and Consulting CPA, I adeptly manage organizations accounting systems, ensuring accurate financial reporting and seamless billing processes across multiple public, legal, and non-profit businesses. This position emphasized my ability to craft and maintain precise financial records, initiate, and manage effective collection efforts, and leverage financial technologies to heighten accuracy and efficiency in financial reporting.

My skill set also encompasses managing intricate financial operations, including trust account oversight, coordination of comprehensive audits, and the projection of cash flows. At both Business, Accounting and Consulting CPA and Sodoma Law, I led all facets of fiscal management, from processing payroll to reconciling

law firm trust accounts, upholding stringent legal and financial standards, and improving operational efficiencies.

As a technical college graduate with a degree in Engineering Graphics, I understand the value of vocational education, whether students pursue higher education or become productive members of society. My career began as a Structural Steel Detailer, AutoCAD specialist, and Novelle Network Administrator at the beginning of my career. I have been actively involved in PALM for four years, volunteering at most events. I have watched PALM's academic programs expand and evolve. I have an extensive 30-year accounting career including board service as Chair, Vice Chair, and Treasurer on public and nonprofit boards. As an accountant, I currently sit on thirty boards as the financial expert. A successful board has highly qualified management, personnel, and finance specialists to create policy, procedures, and manage financials, allowing the administrator to oversee day-to-day school operations. This enables teachers to provide every student with an exceptional education. I am asking you to vote for PAM MARTIN. I will promise each of you if elected I will bring to Palm Charter High School a wealth of experience in financial control, establishing and managing policies and procedures, board leadership, and most importantly, TRANSPARENCY.

My goal is to continue the exceptional progress we have made in the last 2 years at PALM by keeping PALM Charter High School Students FIRST; I see all the faculty and staff inspiring, educating, and celebrating every PALM Charter High School student, as well as any potential students. In my opinion, PALM's initial goal was to give each student a unique educational experience that would enable them to acquire vocational skills for a lifetime of employment in addition to the academic knowledge they would need to graduate. Without a doubt, PALM must live this motto. In addition to providing educators with the ability to teach and encourage students to strive for excellence, the PALM board of directors should establish a unique and dynamic learning environment with the best faculty and staff to prepare students to flourish as contributing members of society upon graduation. The BOARD is the face of the school and creates the PUBLIC first image of PALM.
