Lyman Class of 2026 Families,

We are excited to share that the recording of our 2026 Graduation Ceremony is ready for release!

Before you watch, we want to make you aware of a brief technical issue with the footage. Due to the extreme heat during the ceremony, our main camera battery overheated, causing us to lose the video feed shortly after Mr. Gonzalez certified the graduates.

We truly apologize that the entire ceremony wasn't captured. While a section of the video is missing, while the battery was quickly replaced, the video still beautifully highlights so many wonderful moments from this milestone event.

The evening was incredibly special, and we are so proud of the hard work, resilience, and perseverance of the Lyman Class of 2026. We wanted to share this footage with all of you so you can cherish the moments we did capture.

Thank you for your understanding and your continued support. Congratulations again to our amazing graduates!
