

**Monmouth-Roseville
Community Unit School District #238**

"Empowering students to achieve excellence."

Dear Parent/Guardian,

Several students in our district have *allergies to tree nuts and peanuts*. Should a student with an allergy eat any food having tree nuts or peanuts, the child could develop mild to severe symptoms.

Our goal is to ensure that every student in our district is as safe as possible. Food allergy information, board policy, and forms are found at our mr238.org website on the [Breakfast & Lunch Program](#) page under Parent Resources.

We are asking that you not send any food containing tree nuts or peanuts with your child to school. This includes their school lunch and snacks. Even small amounts of tree nuts or peanuts could cause an allergic reaction. Peanuts and tree nuts may be hidden in other prepackaged foods. It is very important to read the label before sending any prepackaged food product to school.

Please discuss the following with your child:

1. Do not offer, share, or trade any foods with other students at school.
2. If your child rides the bus, remind them there is a "no eating on the bus" policy.
3. A reaction to eating or touching peanuts can be a life-threatening situation.

Thank you for your consideration and help in this matter. Please call the school if you have any questions or concerns.

Respectfully,

A handwritten signature in black ink that reads 'Edward Fletcher'.
