

AACPS Summer Programs 2026 District Catalog
2025-2026
Summer Programs

2nd Space: AACPS Visual Arts Enrichment Program (VA 1)

This is your chance to push yourself further as a visual artist. You will engage in daily art prompts that allow you to explore the visual arts with like-minded students and instructors. The summer sessions are focused on drawing on location with an eye on nature, architecture, and the figure. Journaling will also be emphasized daily as we develop and experiment with a wide array of skills and techniques. Students will need to bring a pencil and sketchbook as well as pack a lunch and water each day as the camp will be outdoors. This program does not offer AACPS transportation therefore self-transport will be required to/from the sessions. This program is by invitation-only. Please note that 2nd Space requires a registration fee of \$155 that will be due by April 3, 2026 if offered a seat in the camp. We offer a flexible cancellation policy for our summer programs. Families can cancel their registration up to 14 days prior to the start of the camp to receive a full refund.

2nd Space: AACPS Visual Arts Enrichment Program

Maryland Hall

District

This is your opportunity to push your limits and grow as a visual artist. Throughout the summer session, students will engage in daily art prompts that encourage exploration and creativity, all while collaborating with fellow artists and instructors. The focus will be on drawing from life, with an emphasis on nature, architecture, and the human figure. Daily journaling will be an essential part of the process, helping students develop and experiment with a wide range of skills and techniques. Students interested in joining the camp will need to arrange their own transportation. Please ensure you bring a lunch, water, and a sketchbook each day, as the camp will be held outdoors for most of the duration. Please note that this session requires a registration fee of \$155 if offered a seat in the camp

BMAH High School Magnet 9 (SM 7)

The theme for this summer program for Rising 9th Graders is Student Success in the High School STEM Magnet Program. All STEM Magnet Program students are required to complete a summer experience grounded in our AACPS STEM Values. These programs provide STEM students an opportunity to refine such 21st century skills as critical thinking, communication, creativity, problem-solving, perseverance, collaboration, and information & technological literacy. Students are also afforded the opportunity to build meaningful relationships with their STEM teachers and fellow STEM students. NOTE: This STEM summer camp is only available to AACPS STEM middle and high school students who have applied to the STEM magnet program and have been offered a seat through the AACPS magnet lottery process.

El Campo del Bosque

Arlington Echo

District

Give your child a summer adventure where language learning meets outdoor fun! At Arlington Echo, campers in grades 1–5 will be introduced to Spanish through hands-on, playful activities in a beautiful natural setting. Students will learn how to introduce themselves in Spanish, talk about the world around them, and build environmental literacy as they explore nature. Campers will practice Spanish while swimming in the pool, canoeing on the water, singing songs, creating crafts, and playing interactive games. Through movement, music, and outdoor exploration, children gain confidence using Spanish—all while having fun and making new friends.

Global Language Summer Program July 20-30 (GL 1)

Join us for a 2 week, 8 day world language camp to learn one language, Chinese, French, or Spanish and its culture. Students learn language through engaging, hands-on activities, games, songs, and technology. While learning a language, students explore culture through art projects, dance, musical instruments, cooking, and physical play. This program does not offer AACPS transportation therefore self-transport will be required to/from the sessions. We understand that plans can change. Therefore, we offer a flexible cancellation policy for our summer programs. Families can cancel their registration up to 14 days prior to the start of the camp to receive a full refund. This policy ensures that we can accommodate other families on our waiting list and manage our resources effectively.

Global Language Summer Program CS July 20-30th

Severna Park High School

Feeder

Our Global Language Summer Camp invites students to explore the world through language! Campers can choose to learn Chinese, French, or Spanish while discovering the cultures connected to each language. Through engaging activities and a rich variety of experiences, students build language skills in ways that feel natural and exciting. Learning comes alive through games, songs, hands-on projects, cooking, music, art, and physical education. Each day is designed to provide meaningful opportunities for students to listen, speak, move, and create in their chosen language. Best of all, the camp environment is welcoming, energetic, and fun, helping students gain confidence while making new friends and global connections. PLEASE NOTE: While we do our best to place each camper in their first-choice language, enrollment numbers and staffing may require some flexibility. As a result, your child may be enrolled in their second-choice language instead.

International Baccalaureate (IB 2)

IB students will deep dive into themes designed to spark imagination, curiosity, and creativity. Along the way, Campers will have the opportunity to practice math, reading, writing, and STEM skills through hands-on, inquire-based exploration. This program does not offer transportation therefore self-transport is required.

Novel Engineering: Where Literature & Science Meet! Hebron-Harman Elementary School District

Get ready for an imaginative journey where reading meets reality! This Novel Engineering experience will challenge rising 5th grade students to step into the role of an engineer by using children's literature as the inspiration for design challenges. Students will read an engaging story, identify problems faced by the characters, and then use the Design Thinking Process to engineer creative solutions. Our goal is to enhance students' critical thinking skills while fostering 21st century skills such as collaboration, communication, and problem-solving.

AMS IBMYP Global Zoo Project @ Mills-Parole Mills-Parole Elementary School District

Unlock your potential this summer with the AMS IB MYP Global Zoo Project @ Mills-Parole, a four-day experience for students who attend or will attend Annapolis Middle School for the 2026–27 school year. Students work in collaborative teams as designers, zoologists, and conservation planners to design a sustainable zoo while addressing real-world challenges that build problem-solving and design-thinking skills. The program includes a field experience focused on observing and analyzing animal habitats. Students also have time to connect with peers and teachers, helping them enter the new school year with confidence and a strong sense of community. Transportation is provided for students within the Annapolis Middle School feeder area.

 Classroom  7/6/2026 - 7/17/2026  9:00 AM - 1:00 PM

Scholar Quest (SQ 1)

This program is specifically for students that have been identified through their PSAT scores as potential candidates for National Merit Scholar. Students will engage in online tutoring and mentorship in preparation for the Fall PSAT administration. In-person enrichment opportunities, such as college visits, may also be available pending the confirmation of grant funding.

STEM High School Magnet 9 (SM 8)

The theme for this summer program for Rising 9th Graders is Student Success in the High School STEM Magnet Program. All STEM Magnet Program students are required to complete a summer experience grounded in our AACPS STEM Values. These programs provide STEM students an opportunity to refine such 21st century skills as critical thinking, communication, creativity, problem-solving, perseverance, collaboration, and information & technological literacy. Students are also afforded the opportunity to build meaningful relationships with their STEM teachers and fellow STEM students. NOTE: This STEM summer camp is only available to AACPS STEM middle and high school students who have applied to the STEM magnet program and have been offered a seat through the AACPS magnet lottery process.

STEM-BMAH Applied Math Camp 9 (AM 1)

The STEM Magnet Applied Math summer camp prepares rising ninth grade STEM Magnet students for success in 9th grade Algebra I through engaging, hands-on math exploration. Students will strengthen foundational critical thinking and applied mathematics and pre-algebra skills. The program blends basic math concepts and algebraic thinking within a real world context.

Summer Boost for 1st time AP Students @ GBHS (SB 1)

This summer program will focus on building student skills that are essential for success in advanced placement (AP) coursework. Students will engage in activities that foster collaboration and critical thinking, two critical attributes for college & career readiness. Students will also network with a series of guest speakers and advisors from college campuses to reinforce the link between AP coursework and college preparation. This program is only open to students attending Glen Burnie High School who have enrolled in their first AP course for the 2026-2027 school year.

Telling Your Story: College Camp (CC 1)

The day camp will support students through the college application process. They will learn that the entire application tells “their story” of passions and values that they hold dear so that college admissions will see who they are and what they will bring to their college. College reps will share information about what they “look for” in the application, essay, and supplements. Students will get help brainstorming and starting their personal essays. They will get information on the supplement questions and essays. A Financial Aid expert will talk to students during camp and their parents that evening about the financial aid process. At the end of the week students should have a good start on Telling Their Story.

Telling Your Story: College Camp	Severna Park High School	District
Students must be going into their senior year of high school in the Fall of 2026.
