What is the Seal of Biliteracy?

The Seal of Biliteracy is an award made by a state department of education or local district to recognize a student who has attained proficiency in English and one or more other world languages by high school graduation. The Seal serves to certify attainment of biliteracy for students, employers and institutions of higher education. It is a statement of accomplishment that helps to signal evidence of a student's readiness for career and college, and for engagement as a global citizen.
