OCEAN CITY SCHOOL DISTRICT

May 1, 2026

Dear Ocean City School Community,

I am pleased to introduce the next superintendent of the Ocean City School District – Dr. Brian Latwis!

Dr. Latwis was approved by the Board of Education at last evening's meeting. He will join Ocean City schools this summer. Dr. Latwis, who has been the superintendent of the Barnegat Township School District for eight years, brings a record of thoughtful, innovative, and most importantly, collaborative leadership to OCSD.

Undertaking a superintendent search is our most important responsibility as a board, and we diligently screened candidates, conducting multiple rounds of interviews before selecting Dr. Latwis as our district's new leader. He stood out for his passion for education, collaborative style and commitment to growth. He shares our high standards for academic excellence and student opportunities.

He is an avid sports fan who looks forward to cheering on our Red Raiders, and a strong proponent of arts education who oversaw award-winning music and arts programs at Barnegat.

Above all, Dr. Latwis is eager to build relationships within the district and wider community. He believes that a strong team is the foundation of a successful school district.

We are confident that Dr. Latwis will continue the impressive work of Dr. Angelillo and uphold the proud legacy of Ocean City schools.

The community will have several opportunities to meet Dr. Latwis, formally and informally, over the summer.

As this school year draws to a close, please join us in welcoming him to the Ocean City School District.

Sincerely,

Kevin Barnes
President
Ocean City Board of Education
