

How to Access Your Child's FAST Scores for ELA and Math (Grades 3-6)

To access your child's current FAST scores, as well as previous scores, please log into your parent FOCUS portal on a computer. Once logged in, you have two options to find their scores.

Option 1:

Click on the Florida Statewide Assessments button on the FOCUS homepage. This brings you to the state portal and displays all of your student's test results.

Option 2:

Click the arrow next to your child's picture to expand. Click on "Test History". This will open a new tab with all previous State Test Scores.

Please see Audubon's homepage for more information on understanding test scores or contact the Title 1 Office to schedule a meeting to discuss at 321-452-2085 extension 42034
