**TEACHING IS A
WORK OF HEART**

**Small group
instruction in Ms.
Smith's class at
Enterprise.**

Ms. Fernandez classroom at Endeavour where children have been exploring their uniqueness. They utilized fine motor skills by tearing paper to make their hair but their distinctive look is the process we strive for.

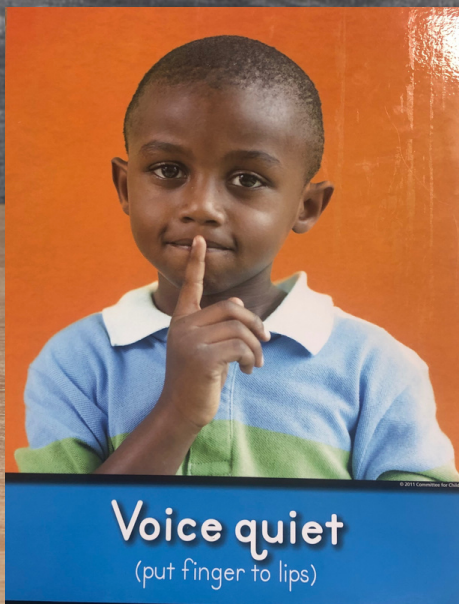

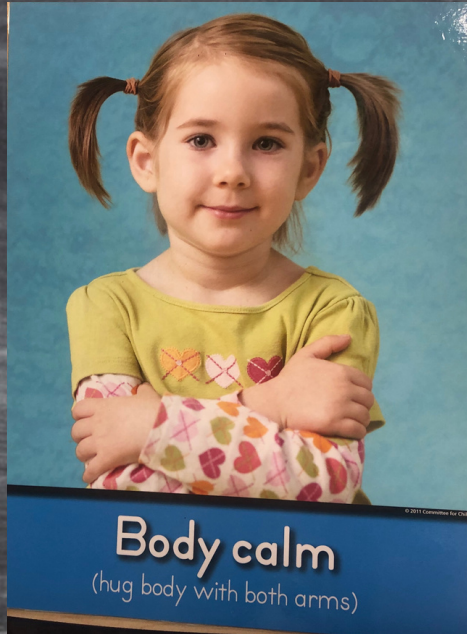

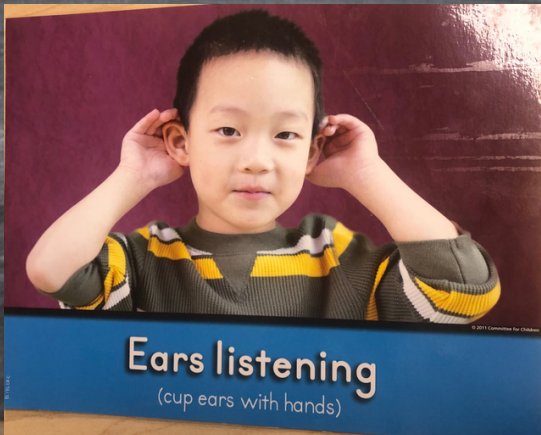

Wow!

Teaching teams that promote **PROCESS** in their activities is always the aim of Head Start. Although we do aim at times to make a likeness of an animal, people or thing we shy away from **PRODUCT** art or activities.

ALL classrooms should be brushing teeth. Follow the protocol in your Teacher Guidelines Binder and remember that our guidelines state that this is to be done before rest time.
