ACCOUNTING CODES, HOW DO THEY ALL FIT TOGETHER!

Accounting codes are used to identify and track both revenues and expenditures.

Coding accounts is mandated by the state and prescribed through set parameters

Codes may be found at : [Florida DOE Red Book](#)

Each item or service that is purchased must be coded, based on what that item is and what that item is to be used for.

Divides			Who and What		
Fund	Site	Project	Function	Object	Program
A Fiscal and Accounting entity used to segregate funding sources.	Each school or department has its own unique number.	Describes the focus of the expenditure.	Describes who or what the purchase is for.	Describes the actual item or service being purchased.	Describes the grade level and/or program type.

How do we spend our money?

DOE requires districts to classify expenditures 3 ways:

- 1 Direct Classroom
- 2 Schools Indirect
- 3 District Indirect

$$\text{Direct Classroom} + \text{School Indirect} = \text{School Total}$$

$$\text{School Total} + \text{District Indirect} = \text{Grand Total}$$
