C. Physical Science
Benchmark a: Discuss what makes objects move the way they do and how the movement can be controlled

TRANSPORTATION

Mr. Criddle at Uni Park in small group instruction

Therapy Dog at Uni Park

Discovery Team in the Cafeteria

Every day children have to wait. This can be difficult for our youngest children. This team had an unexpected wait to go through the cafeteria line. Every adult stood up and sang, talked and engaged with the children. When adults engage with children in this manner it show a high level of TEACHER SENSITIVITY!

Adults are well attuned to the children; adults are consistently responsive to the children

Ms. Au at Saturn Red Light, Green Light
