

# ASSISTANT PRINCIPAL ACADEMY-YEAR 1

The AP Academy is designed to give new assistant principals the resources and support needed to become effective school leaders. Through professional development, collaboration, and hands-on application, participants will strengthen their foundational leadership skills and grow as instructional leaders. An experienced and successful assistant principal mentor is assigned to new assistant principals and will provide a minimum of 3 mentor coaching support sessions. AP Academy is divided into two years of study. All first year APs are required to attend every AP1 session and successfully complete all assignments. All courses are open to experienced administrators through ProGOE registration. Completion of both AP Academy programs is required prior to entering the Level II Certification Program.
