SECOND STEP - Week 15

Mrs. Fuller's class at Coquina made animals for their farm center and vegetables to add to the garden. The students really enjoyed getting to help set up a new center in dramatic play.

Ms. Vigliotti

Ms. Smith's 3 year old class at Enterprise reading animal books with their 3rd grade reading buddies.

This was a small group activity in RTA where each child was supposed to make their own zebra. Ms. Rotan from Saturn made it more engaging and involved more peer to peer interactions by making ONE huge zebra that all children could work on together during center time. The children had so much fun interacting with their friends and working together.

ONE project, many minds.
