

BREVARD PUBLIC SCHOOLS CAREER & TECHNICAL EDUCATION

PROGRAM AREAS:

- Automotive Collision & Maintenance
- Aviation Assembly & Fabrication
- Business, Marketing & Finance
- Criminal Justice
- Culinary Arts
- Cybersecurity
- Digital Design, Multi-Media
- Drafting and Technical Design
- Early Childhood Education
- Engineering, Robotics
- Environmental Water & Reclamation
- Game Simulation/Animation
- Healthcare
- HVAC, Construction, Welding
- Manufacturing, Machining
- Maritime, Outboard Marine
- TV Production
- Web App Development, Programming

INTERNSHIP PROGRAM OVERVIEW

OUR INTERNS ARE:

- Rising seniors ages 17-18
- Have opportunities to earn industry certifications
- On track to graduate high school
- Have two years or more of course content in program of study

INTERNSHIP PROGRAM:

- Part-time school year availability with summer options
- Summer program starts in June
- School year program starts in August
- Students can earn elective course credit

EMPLOYERS:

- Opportunity to further develop talent pipeline
- Opportunity to close certain skills gaps within talent
- Provides opportunity to test-drive talent
- Increases company visibility within the community

Internships and Your Organization

FAQ

DID YOU KNOW?

Connecting Career and Technical Education (CTE) and the business community is a successful strategy to fulfill industry hiring needs. With 42 unique programs, hundreds of industry-recognized certifications, and rigorous cutting-edge instruction, Brevard County School's Career & Technical Education programs provide skilled, entry-level talent needed to grow your talent pipeline.

My company is a manufacturer and only hires individuals 18 years and older. How can I engage in internships with BPS?

- Florida child labor laws allows certain exemptions for 16- and 17-year-old youth when they are employed as a student learner. These exemptions allow minors to work in deemed “hazardous occupations” when tied directly to a career and technical education program.
- To qualify as a student learner for purposes of the above listed hazardous work, a minor must be enrolled in a youth vocational training program under a recognized state or local educational authority, perform work under the direct and close supervision of a qualified and experienced person, and follow a training plan that includes safety instructions that will be developed and followed throughout the internship opportunity.
- Want to know more? Resources can be found at www.youthrules.gov.

FL Statute 450.161; [FL Admin. Code 61L-2.005](#) (referencing [US Regulation 29 CFR 570](#)).

My business hours vary from a traditional school schedule. We have several shifts including weekends. How can students participate in an internship with my company?

- Student schedules can be flexible according to business needs. For example, a student may work two 5-hour shifts or five 2-hour shifts. This is negotiable and is coordinated between the business' need and the student's school schedule.
- Students can work more hours as long as it is within child labor law guidelines not exceeding 30 hours per week when school is in session.
